THE OLD RELIABLE**"Giant"****Portland Cement**

Used exclusively on the NIAGARA FALLS TUNNEL and POWER HOUSE of the Niagara Falls Power Co. After five years the tunnel was recently inspected—32,400,000 cubic feet of water had rushed through every hour for five years. From one end of the tunnel to the other it was as strong as the day when it was finished. Not one of the 19,000,000 bricks used was out of place.

The verdict was "PRACTICALLY ABSOLUTE-
LY PERFECT."
