

## New Clothes for Your Children

### FOR 10c. WITH

## Diamond Dyes.

Thousands of mothers dress their children in the Diamond Dye way. For Diamond Dyes mean fresh, new dresses for the children at almost no extra cost.

Do you realize the possibilities of your last year's clothes? Most of them are not really "worn out." The materials are perfectly good.

And Diamond Dyes will give them fresh, new colors—make them new, in fact. Then, a pattern or so, and your children have bright, pretty, new clothes for the cost of a package of Diamond Dyes.

### How One Mother Manages.

"I don't know what I'd do without Diamond Dyes," writes Mrs. G. H. Lewis, of St. John, N.B. "Before I knew the possibilities of Diamond Dyes, I used to worry myself sick trying to keep Alice and Harry nicely dressed. They were always on the go, and I had so little money to buy new clothes with.

"Now I have my Diamond Dye days regularly. I go over my own and my husband's old clothes, and pick out the things that are only slightly worn. Then I rip them up and dye them bright, new colors with Diamond Dyes.

"And you'd be surprised to see what lovely clothes the children have. My friends say they are the best dressed children in our neighborhood."

—MRS. G. H. LEWIS, St. John, N. B.

### Important Facts About Goods to be Dyed.

Diamond Dyes are the standard of the world, and always give perfect results. You must be sure that you get the *real* Diamond Dyes, and the *kind* of Diamond Dyes adapted to the article you intend to dye.

**Beware of Imitations of Diamond Dyes.** Imitators, who make only one kind of dye, claim that their imitations will color Wool, Silk, or Cotton ("all fabrics") equally well. This claim is false, because no dye that will give the finest results on Wool, silk, or other animal fibres, can be used successfully for dyeing Cotton, Linen, or other vegetable fibres. For this reason we make two kinds of Diamond Dyes, namely: **Diamond Dyes for Wool, and Diamond Dyes for Cotton.**

Diamond Dyes for Wool cannot be used for coloring Cotton, Linen, or other Mixed Goods, but are especially adapted for Wool, Silk, or other animal fibres, which take up the dye quickly. Diamond Dyes for Cotton are especially adapted for Cotton, Linen, or other vegetable fibres, which take up the dye slowly.

"Mixed Goods," also known as "Union Goods," are made chiefly of either Cotton, Linen, or other vegetable fibres. For this reason our Diamond Dyes for Cotton are the best dyes made for these goods.

**Diamond Dye Annual—Free** Send us your name and address (be sure to mention your dealer's name, and tell us whether he sells Diamond Dyes), and we will send you a copy of the famous Diamond Dye Annual, a copy of the Direction Book, and 36 samples of dyed cloth, all **FREE**. Address:

THE WELLS & RICHARDSON CO., LIMITED,  
200 MOUNTAIN ST., MONTREAL, P. Q.

### QUESTIONS AND ANSWERS.

#### Miscellaneous.

#### LINIMENT FOR STRAIN.

What is the best treatment for strain in a horse's leg? J. K.

Ans.—Give perfect rest; bathe the part well with cold water three times daily; then rub well with camphorated liniment, which your druggist will prepare for you.

#### VENDOR REMOVING SCREEN DOORS, ETC.

Am I entitled to the screen doors, dinner-bell, cow chains, large kitchen cabinet made into the wall, also storm windows, on a farm recently purchased? Ontario. SUBSCRIBER.

Ans.—In the absence of agreement regarding the articles in question, and provided the vendor removes them prior to the time fixed for possession of the farm being taken by the purchaser, it would seem that the vendor is legally entitled to take all the things mentioned, if it can be done without injury to the buildings.

#### Veterinary.

#### AIR CYSTS.

I killed a pig and found in the fat of the small intestines several small bubbles, which, when pressed, burst with a snap. Does this indicate disease, and is the flesh healthful? H. McP.

Ans.—These small air cysts are frequently seen, and they do not interfere with the healthfulness of the flesh. V.

#### LUMP ON SHOULDER.

Horse has a soft lump on the point of his shoulder. It appeared two months ago. When he works, it gets larger and sore. J. S.

This is either an abscess or a tumor. In either case an operation is necessary. If an abscess, it merely has to be opened freely and the contents allowed to escape, after which the cavity should be flushed out three times daily with a five-per-cent. solution of carbolic acid until healed. If a tumor, it must be dissected out, the skin stitched, and then dressed three times daily with the above solution. He must have rest during treatment. V.

#### TRADE TOPIC.

**HARDY APPLES AND OTHER FRUITS.**—The well-known and favorably-known Helderleigh Nurseries, Winona, Ont., E. D. Smith, proprietor, have issued a general catalogue of fruit and ornamental trees, shrubs, roses, prunings, hardy border plants, etc., cultivated and for sale by them. Very valuable hints to planters, such as: Preparations for planting; Planting; How to winter trees procured in the fall; Pruning; Distances to plant, etc., form an introduction to the catalogue proper. The number of varieties of fruit trees to choose from is very large; in the plum section, for example, no fewer than eighty being listed. Something new, not offered by any other nursery, are "Hybrid apples on Baccata roots." In 1887, Professor Saunders commenced experiments with the Baccata crabs, which grow in great abundance on the shores of the Baikal sea, Russia. These extremely hardy trees were cross-hybridized with the hardiest Canadian apples, with the result that varieties of pronounced merit have been produced that have shown no tenderness in the most exposed situations on the Western Experimental Farms. Standard hardy apples, budded and grafted on Baccata roots, are also offered for sale, which, it is believed, will be hardy anywhere.

#### GOSSIP.

John McFarlane and W. H. Ford, Dutton, Ont., write: "We have shipped our eighteen months' Shorthorn bull, McDonald, on approval, to A. C. Diamond, Grafton, Ont., who expresses himself highly pleased. McFarlane & Ford have several other young bulls, also offer a yearling Oxford Down ram, and Oxford Down and Lincoln ram lambs."

## Mount Birds

Animals, Game Heads, and All Trophies!

The wonderful art of taxidermy which has long been kept a secret can now be easily and quickly learned by mail in your home in a few weeks. Success guaranteed. **You Can Make Money!** There are big profits in taxidermy for men, women and boys. Trophies are sent hundreds of miles for the best Taxidermist to mount. A skilled Taxidermist like a skilled doctor can charge as much as he pleases.

**BEAUTIFUL TROPHIES for Your Home** You can decorate your own home and den with your rare and beautiful specimens. Hunters, trappers and naturalists learn in a very short time. By our method the profession is simple. **Great Book FREE.**—"How to Learn to Mount Birds and Animals." This beautifully illustrated book, a copy of Taxidermy Magazine and hundreds of letters from graduates sent free if you write at once. Make yourself independent by learning this great profession. **Write now for free book.** E. W. School of Taxidermy 5237 Elwood Bldg., Omaha, Neb.

## There Are Reasons Why

## The Angle Lamp

is the only one advertised. It is the only one with qualities to commend it to all classes. It is the most economical good light in the world. All other lamps will smoke and emit an odor that is disagreeable and unhealthy. Such things are unheard of with The Angle Lamp. Then it is so easy to operate and care for. One filling lasts 22 hours. Lights and extinguishes like gas. Yet the best thing about it is the **quality of its light.** It is steady and restful to the eyes—and means genuine comfort. It has all the lighting power of gas or electricity, but is reliable and perfectly steady, and the expense to maintain it is less than even ordinary lamps. "No under shadow" is The Angle Lamp's great exclusive feature. That alone has helped greatly in making it famous.

### 30 DAYS FREE TRIAL

to prove its good qualities for they cannot be told here. No one can help but appreciate it. We will send you a book that tells all about it—then you may try the lamp without risk. Write for catalogue No. 64 while you are thinking about it.

THE 1900 WASHER CO.,  
357 Yonge Street, Toronto, Ont.

Phelim McCarthy gave a grand dinner, to which he invited his neighbors. Being somewhat economical, he had allowed his wife to cook only one chicken. When dinner was served, Phelim took up the carving-knife, and asked four guests in turn what part they would have, only to hear each one proffer request for a leg.

"Begorra!" yelled Phelim, "What kind of baste do yez think Oim carving—a shpider?"

### The Best Food for Workers.

The best food for those who work with hand or brain is never high priced.

The best example of this is found in Quaker Oats. It stands at the top among foods that supply nourishment and vigor, without taxing the digestion, and yet it is the least expensive food one can eat.

The great food value and low cost make it an ideal food for families who want to get the greatest good from what they eat.

Laborers, factory or farm hands, fed plentifully on Quaker Oats will work better and with less fatigue than if fed on almost any other kind of food. All of these facts were proved and very interesting information about human foods was gathered by Professor Fisher of Yale University in 1908.
