

### Campbell's Riddle for Extracting Cockle and Wild Peas from Wheat.

6000 OF CAMPBELL'S MILLS NOW IN USE.

THIS RIDDLE  
EXTRACTS  
COCKLE

AND  
WILD PEAS  
FROM GRAIN.

The accompanying cuts represent the top view of Campbell's Patented Riddle for extracting cockle and wild peas from grain.

You will notice that there are three different sizes of perforated zinc on the top over which the grain runs over first, is  $\frac{1}{4}$  of an inch, and the next size is some larger and by means of a Sheet Iron Slide, you can either close the middle holes or leave them open, according to size of cockle or wild peas you wish to take out.

The holes in the piece furthest out are  $\frac{1}{4}$  of an inch, and they let the clean grain through, down on the screen, just the same as an ordinary riddle.

This Riddle works grand, and farmers who desire to have clean grain to sell and clean seed to sow, will be well satisfied with it.

It will be in all of my Mills sent out after this date. The Mill is also fitted with Screens and Riddles for cleaning every kind of grain that grows.

The Mill has proved itself to be first-class in every respect, and farmers who favor me with an order will get a Mill that will give them every satisfaction, and it is second to none in the market.

### Stock Notes.

The trotting stallion, Confederate Chief, owned by Wm. Hendrie Esq., of Hamilton, has made a great season.

Mr. J. R. Scatcherd, of Rebecca P. O., Ont., has now in the Quarantine 10 head of Holsteins, 1 bull and 9 females, to add to his herd in Middlesex.

The bay mare, "Chipola," the property of Mr. J. P. Dawes, of Lachine, P. Q., which has been so successful in the United States, fell in the steeple chase races at Monmouth Park last month, and was killed.

Our readers, especially stock raisers, will note the public sale of sheep, cattle and pigs, by Henry Arkell, on the 10th Sept. The stock are good and well worthy of a large attendance at the sale by our enterprising farmers.

John White, the well known breeder of Milton, Ont., has suffered a very severe loss in the death of his valuable brood mare, "Nellie Lyall." Mr. White has been particularly unfortunate of late, having lost five thoroughbreds within the past year.

Mr. J. C. Cooper, of Marksville, St. Joseph's Island, purchased from Joseph C. Hughes, of Ilderton, a Shorthorn bull; also a Shropshire ram from G. Nixon, of Hyde Park. These, we understand, are the first pure bred animals of the above classes that have been introduced on the Island.

Messrs. A. Fanson & Son, of Toronto, Ont., have a colt by True Blue out of Alice Conn, that, like the celebrated stallion George Wilkes, is being brought up partly on cow's milk, which is made to assimilate with the mare's milk by adding a little brown sugar. The colt is thriving finely.

The imported stock, including two Shorthorn bulls, a cow, and three heifers, with the Hereford bull, Cronkhill 8th, and five heifers, the property of Messrs. Green Bros., the Glen Stock Farm, Innerkip, Ont., have arrived at their farm in good order and condition. They inform us they shall be happy to show them at any time.

The Geary Bros., of Bli-bro Farm, near London, Ont., recently sold to E. S. Butler, of Ridgeway, Ohio, the celebrated Shropshire ram, "Acme," imported from the flock of Mr. Edward Instone, of Hereford, England. "Acme" is a celebrated prize winner, weighs 370 lbs., and was sold for the handsome sum of \$450. Sheep like this pay.

Messrs. Grand & Walsh, of the Repository, Toronto, Ont., have had a most successful season. They are now arranging for a grand combination sale of thorough-bred horses, hunters, trotters, roadsters, and cattle, to be held the first week in October. Buyers are expected to be present from all parts of America, and even from England. Breeders having prize animals to dispose of will have here a good opportunity to secure good prices for their stock.

The well-known seedsmen, John A. Bruce & Co., of Hamilton Ont., state:—"From a long experience in advertising, we are convinced that there is no better channel in use for placing before the farmer those articles which are a real benefit to every tiller of the soil, in whatever portion of the Dominion his lot may be cast, than the FARMER'S ADVOCATE."
