This "Alpha" Gas Engine Catalog is now ready for mailing to all who are interested in reliable and economical farm power

IT tells all about an engine which is so well built that you can always depend upon it; which is so simple that a boy can run it; that can be run on either gasoline or kerosene; an engine that starts on the magneto and doesn't stop until you want it to; an engine that will do any kind of work, in any weather, anywhere.

The main object of this handsomely printed and fully illustrated book is to show you how very adaptable the "Alpha" Engine is, and how it is possible for you to select from the "Alpha" line just the size and type of engine and the equipment that will best fit your needs for farm power.

Eleven sizes, 2 to 28 horse-power. Each furnished in stationary, semi-portable, or portable style, and with either hopper or tank cooled cylinder.

Toronto St. John Montreal
Winnipeg Halifax Vancouver

Prepare Better Seed Beds Easier

You can do it with the Acme Pulverizing Harrow, light in draft, leaving soil in better condition than other harrows do.

ACME Pulverizing Harrow

cuts under and pulverizes the soil to the plowed depth. Thoroughly works the whole seed bed, leaving plowed down manure under the surface.

It cuts, turns and levels the soil, crushes clods and lumps, one operation. Gives the seed a pulverized and compacted seed bed covered with a moisture holding mulch. Sold by all John Deere dealers. For descriptive literature write—Deere & Bush, Inc., 355 Division Ave. Millington, Ill.

THE PAPEC

IT THROWS AND BLOWS

Papec Ensilage Cutters

Cut silage perfectly, and at a very low cost of operation. Papec knives cut smoothly and swiftly. They make a fine, uniform silage that is very palatable and nutritious. The combined throwing and blowing force that lifts the silage is generated from one fifth less power than is required by any other blower doing the same work. Mechanical perfection and high quality of material mean long life, no loss of power and low cost of operation.

Our new illustrated catalog gives facts showing how "The Wonderful Papec" will save time and money at cutting time. Send for copy today.

Farm Planning

THE farm is a combination of a business establishment and a home. Economy of labor is necessary to one and pleasant surroundings to the other. A haphazard arrangement of buildings, a poor location of entrances and drives, an inadequate water supply, or inefficient drainage are constantly reducing the income and making the home life a burden to all the family.

There is no greater influence toward keeping the young people interested than in well-developed grounds, where the business part presents an appearance of system and around the house are graceful trees, pretty flowering shrubs and well-located walks and drives.

Our Landscape Architect is a graduate of a leading agricultural college, where he has made a thorough study of farm planning, which, combined with broad experience, enables him to handle your problems intelligently and accurately.

Let us take up your problems now, and you may act this spring.

Write us at once for further information.

Fraver Says

I am well pleased with my Buckeye Machine—it is all that you claim. I have done an average of \$400 worth of work a month. I have dug 1162 rods in 6 1/2 days, 247 rods in one day and 66 rods in two hours. It cost me 2 1/2 cents a rod and I received eighteen cents.

ALFRED FRAVER
Fostoria, O.

BUCKEYE TRACTION DITCHER

A perfect trench at one out

has put hundreds of men into independent and profitable businesses. In every farming neighborhood there is a splendid opportunity for contract ditching. Even at 100 to 150 rods a day, the profit is from \$15 to \$18 daily and most men are busy nine or ten months a year.

Send for the Buckeye Book of Facts and see what other men are doing and what you can do. Write today.

The Buckeye Traction Ditcher Company
Findlay, Ohio

Builders also of Buckeye Open Ditchers and Buckeye Gasoline Engines for farm use.
