

GOSSIP.

Mr. W. D. Flatt, Hamilton, Ont., has recently landed a new importation of 39 Shorthorns in quarantine at Quebec, which he considers the most valuable consignment he has yet brought over, particulars of which will be given in a future issue.

Alfred Mansell & Co., live stock exporters, Shrewsbury, England, write: "It will doubtless interest breeders of Shropshire sheep in all parts of the world to learn that at the recent public sales held in various parts of Great Britain and Ireland, no less than nine rams have realized 100 guineas and upwards, and have made the splendid average of £136 10s., whilst several others have made between 40 and 90 guineas, and that several ewes have realized between 20 and 30 guineas each. North America, as usual, has largely helped the general run of prices, but Australasian breeders have done the most to enhance values, and have been spirited bidders at several of the sales, giving in one case 240 guineas for a ram, and in others 140, 120 and 90 guineas. The Australian demand has been greatly fostered by the wonderful results obtained by the Shropshire ram on cross-bred Merino ewes to produce fat lambs for export."

The Razor Steel, Secret Temper, Cross-cut Saw.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves.

These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.
