

De Laval Separators

Are lower in price than others, because at a corresponding list price the capacity of a De Laval is at least 20% greater than that in any other make of separator, regardless of what the manufacturer may claim for it. This means that apart from other differences, a price 20% below list would have to be quoted on the other machine before it would be as cheap as the De Laval.

De Laval capacities are guaranteed unconditionally.

THE WALTHAM WATCH CO., WALTHAM, MASS.

Most Perfect in Design is the MELOTTE CREAM SEPARATOR

Unlike other farm machinery running at slow speeds and employed occasionally or for a few days or weeks during the year, the Cream Separator is used every day and runs at a high rate of speed; hence the supreme importance of buying the Cream Separator which is most perfect in design, material and workmanship. Let us tell you more about the Melotte.

No Other Wood Pump Even Equals the

Florence Wood Pump

either in workmanship or design. The ideal pump for the Western farm; made to stand hard wear and tear. Will last a lifetime and prove the most economical pump obtainable.

Write us to-day for full particulars.
