# U.G.G. Cultivators

## Conserve Moisture and Keep the Soil from Blowing

THE U.G.G. Forkner Cultivator is built so that the shovel on each spring-tooth laps the one next to it. Every inch of ground is stirred. Weeds are cut off and soil is worked to any desired depth, leaving all coarse parts of the soil on the top, which prevents drifting. The spring teeth leave the ground in excellent condition to absorb rainfall and conserve the moisture.

The main frame has adjustable couplings so that the suction can be easily changed. Several styles of teeth can be supplied in order to adapt the machine to the many uses of summerfallowing. This Forkner Cultivator can be used with horses or light tractors. The cutting width of the size shown is 11½-feet.

*We have three sizes of these machines, there is one just suited to your needs. See our catalog, pages 26 and 27, or send in the coupon for full details.*

This shows our No. 34 with 34-inch wheels, 5-inch concave tires. Frame stands high and is very strongly made to withstand the most severe strain. Has 34 No. 6 teeth, with 4-inch reversible steels. Tongue truck is provided, but no pole, trees or yoke. Weight 1,250 lbs. Winnipeg, \$206.75; Regina, \$212.00; Saskatoon, \$213.00; Calgary, \$215.65. See Catalog, pages 26-27, for other sizes and prices.
