best carriage builders in the Province.\*

Listowel, FOLNDRY.—As will be seen by advt., the Listowel Foundry is to be offered for sale by public auction on Tuesday, 24th inst. To any person possessed with energy and capital, there can be little doubt that an unusually good chance is open for carrying on the manufacture of agricultural implements on an extensive scale. No better centre than this town affords need be wished for, and under proper management there is reason to believe that a highly profitable business could be speedily established.

THANKS.—Mr. Brook desires us to convey his thanks to the fire brigade and to the citizens who so freely offered their services during the recent fire at his factory. In another column Mr. Brook intimates that he will continue his business as usual, having made temporary arrangements until such time as he will be able to have the factory rebuilt and again running. We trust that his customers will not be found wanting in their patronage, but will exhibit their appreciation of his enterprise in the face of his misfortune by giving him their hearty support.

Robbery.—On Monday night the G. W. R. depot here was broken into by burglars who gained their entrance by forcing a window. The safe was then opened, most probably by a false key, and the cash contents, amounting to between \$9 and \$10, in loose change, was taken. A considerable sum of money had been in the safe on the day previous, but the agent had taken the precaution to have it deposited out of the reach of night provlers. The burglars were avidently disappointed in having got so little for their trouble. No positive clue has been discovered as yet of the perpetrators. A G. W. R. detective is endeavoring to ferret them out.

Dith con., Peclofa son.

The frost which prevailed in this vicinity on Saturday morning last did considerable damage to garden vegatables and fruit. Potatoes, corn and beans have been badly cut down. The trents and gooseberries on the more exposed parts of the bushes look as it cooked, and strawberries on the upper parts of of the stems are destroyed, but there is still sufficient fruit in embryo en the under part of the vines to produce a fair crop, should subsequent weather prove favor-was a member of L. O. i. No. 617, Listowel.

Able. The occurrence of night frost at this season of the year is very detrimental, and one of the greatest drawbacks to the prosperity of the Province, but with the clearing up and proper drainage of the country, its bad effects will doubtless be ameliorated.

Chemists say the wonderful restoring and recreating power of Cod Liver Oil is to be traced to the subtle secretion of Iodine, which they find in it. Whatever the principle may be the fact is indisputable, that this product and nervous system that under the administration of other remedies seement to be hopelessly debilitated.
