The Clerk of the Peace of the District Court in St. John's, one Maurice Devine gets a snug little job for life at a salary of \$1,583.00. This is the man who, until recently, edited! (save the mark) the Water Street weekly merchants' paper called the "Trade Review." Devine has been known as a first-class toady all his life. His cringing and bowing to the Czars of Water Street have kept his paper going. Had he to depend on his ability as a journalist to earn his living he would not last long in this world. He supported Sir Tax Morris and the Reid Party at the last two elections and now being unable to stand the strain of having to work like a man for his living, gets pitchnses \$1,000.00 forked into a job that he is entirely unsuited for.

It shows what regard Morris has for the citizens of St. John's when he dumped this misfit into a position \$500.00 as Clerk of the Court. Devine knows as much about law as he does about \$160.00 fishery matters and his knowledge of the latter is made up from what information he used to get from the Water St. merchants every week to 560.00 fill up his paper. Three would be well able to do all the work required to be done and the Colony would be saved the other two salaries and all the other travelling expenses and extras which go with the job. Magistrate O'Rielly is at Placentia with a salary of \$750.00. Just across from Placentia we have Magistrate Sullivan at Presque with \$450. 00 and further down the Bay we find Magistrate McGrath at Oderin with a salary of \$500.00. One man could well do the work that is now performed by the three in Placentia Bay. Trepassey has one magistrate, Dr Giovannitti, stationed at Trepassey, St. Mary's also has one, Dr Hogan, \$3,727.70 stationed at St. Mary's.

Why is Magistrate O'Rielly paid \$750.00 per year whilst Dr. Hogan gets but \$450.00. If the Magistrate at 915-16. ing One of the Tory Ministers in Keeping William Salt out of the Province

Winnipeg, June 1.—At the Royal Commission hearing on the Parliament buildings construction this afternoon, W. A. Coldwell in keeping salt out of the city. Cross-examination was deferred until to-mor-

The statement related entirely to the hunt for William Salt and told of the trip to Chicago, which Elliott took at the instance of Hor wood, the provincial Architect. and also, he alleged, of Hon. Geo-R. Coldwell. He practically repeated his previous statement with regard to the telegrams that passed between himself and Horwood under their respective aliases with the exception that he admitted that one telegram saying that everything could be made O.K. for two or three M, really meant that Salt would stay away for two stated also that Hon. G. R. Coldwell was aware of the negotiations that were going to keep Salt out of the country.

\$500 Sent to Salt Elliott stated that on his return from Chicago to Winnipeg he went with Horwood to Mr. Coldwell's private office and talked the matter over with Mr. Coldwell, and he added that he had previouspaid out for the Fire Department in ly, in giving evidence, been unwilling to implicate Mr. Coldwell who had given him his position as Chief Inspector of the Parliament Buildings. At the conference in Mr. Coldwell's private office it was decided to put in a telephone

The call was put in from Mr. SCANDAL Coldwell's private office, and when Harvey was located central was to Chief Inspector W. A. According to Elliott's statement, Central reported that the party could not be located and then the call was cancelled and a telegram was sent by Elliott instructing Hook, alias Harvey, to keep Salt away at all costs. It was on the same day that \$500 was sent to Salt to stay away.

Elliott will be arrested on a charge of perjury.

Austro-Germans Lose Hevily in Fierce Fighting Around Przemysl

Petrograd, May 31, via London .-The following official account of recent military operations has been issued from the headquarters of the Russian general staff:

"The object of the prodigious ef forts made by the enemy in the last few days has been the encircling Przemysl. The desperate fighting on the San was interrupted on May 20. and the four following days were occupied by the enemy in an effort to change the direction of his offensive from the north-east to south-east.
