Picnic parties and campers will find at this store everything necessary for their larder.

A combination of high quality and low prices makes our Teas and Coffees popular.

G. A. McCLARY

Local Notes

Miss Mary Barber is visiting friends at Westport.

The fishery regulations limit the length of a minnow net to 15 feet.

Mrs. M. A. Everts and son leave this week for their annual outing at Union Park.

Mr. and Mrs. T. Berney and family are at Charleston Lake, occupants of Camp Lookout.

Mr. J. H. Mills, M.A., paid friends in Athens a brief visit on Saturday. He was warmly greeted by many of his former pupils.

On Thursday last, Mr. T. B. Rhodes, a popular junior leaving student of the A. H. S., left Athens for Calgary, Alberta, where he takes a position as book-keeper.

Mrs. Jas. K. Redmond, after a visit of several weeks with her son, Kineh E. of New York, returned home last week, accompanied by her granddaughter, Miss Irma Redmond.

A few days ago Mr. Alvin Moore sent from the Northwest to his father, Mr. George Moore of Greenbush, a sample stalk of the wheat crop of this season. It measured 2 ft. 10 in. Mr. Moore responded by sending him a stalk of wheat from the old homestead that measured 5 ft. 4 in. and accompanied it with an invitation to "come east where we can raise grain."

With a view to placing a check upon the commercial enterprise of boys and the cupid of unscrupulous junk dealers, Dundas county council has placed the following clause in a by-law framed for the licensing and regulation of junk dealers: "No purchase of any article of junk or second hand article shall be made by any licensed dealer or proprietor from any minor under the age of eighteen without such dealer having first received the verbal or written consent of the parent of such minor to such purchase."

Killed by Lightning.

On Friday last a telegram from Crystal City, Man., conveyed the sad news that Mr. Vernon Stewart, son of Mr. Henry Stewart, had been killed by lightning. He went to Manitoba last spring and was employed on a farm near Crystal City. His brother, Charles, was also in that section, being a resident of Deloraine. The interment took place there and on Sunday morning a memorial service was conducted in the Athens Methodist church. Deceased, who was about twenty years of age, had not long been a resident of Athens, but he was highly esteemed by his acquaintances and in their particularly sad bereavement the family have the heartfelt sympathy of all.

Home Improvement.

As superintendent of the House of Industry, Mr. Wm. Steacy has ever manifested a praiseworthy desire to improve and beautify the property, and in the latter direction he has been able to profitably utilize the labors of a class of inmates who would be of little use at farm work. His latest move has been to grade and macadamize the roadway leading to the House. The road-bed having been properly prepared, the crusher was engaged this week in breaking stone which was delivered directly from the machine and spread upon the road. This was finally rolled solid and smooth with Athens' sectional road-roller, making at once a drive-way over which the heaviest load or lightest carriage could pass with ease and comfort to the driver. The numerous permanent improvements being made are of such a character as will in a few years render beautiful and attractive the surroundings of the House, so that Athenians will have additional cause for pride and satisfaction that this worthy and important institution is located so near our borders.

Automatic couplers must be used on all railroad cars in New York state after August 1st.

One swallow may not make a summer, but one bullfrog makes a spring and one banana skin makes a fall.

Now doth the busy little fly improve its every chance upon bald craniums to light and execute a dance.

Rev. John D. Mowat, D.D., professor of Hebrew at Queen's University and a brother of Sir Oliver Mowat, is dead.

Miss S. E. Byers intends in a few days to remove her dress-making business to the second flat of the Mulvena block, next to the post office.

Mr. Thomas Stone, baker for M. H. Eyre, arrived in town this week. His family are expected to arrive from Hawkesbury in a few days.

Mr. Ham Hazelton, an employee in the Perth car shops, has suffered the loss of a thumb and two fingers. He is visiting his sister, Mrs. Charles Whaley.

On the 9th inst., after a lingering illness, Miss Bertha Klyne of Lombardy, niece of Mrs. M. Barber, Reid st., Athens, passed away at the early age of 23 years.

In the absence of some of their players, the Citizens' Band on Thursday last advised themselves of the services of Mr. Bert Sutherland of Brockville. He is a highly skilled cornetist.

The aspect of Manitoba has entirely changed since the rains of ten days ago and reliable men are now predicting that there will not be so much of an average crop as expected.

On account of the remarkable success of the graduates, the reputation of the Brockville Business College is constantly widening. Robbie McLarn has a position with A. A. Davis, Cheese Exporter, Brockville, and C. E. Phillips has a situation as stenographer in Winnipeg.

An exchange says: While we do not take much stock in the faith cure, yet cures effected by the laying on of hands are frequently met with. If laid on early and often they will cure boys of the cigarette habit. A good leather strap or hickory switch should be firmly held in the right hand when making the application.

The 12th of July celebration at Elgin was a great success, and the members of the local lodge of Orangemen, the Citizens' Band and others from Athens who spent the day there report a highly enjoyable time. The celebration at Lansdowne was also very well attended. The procession there was headed by the Lyndhurst Citizens' Band.

Mr. Sidney Moore left Athens this (Wednesday) morning for Smith's Falls, where he has purchased the Pergau bakery, and his family will follow him as soon as he can make necessary arrangements. For twenty-five years, Mr. Moore has conducted a baking business in Athens and by his industry, integrity, and uniform courtesy he has gained and held the regard of all our citizens. His removal with his estimable family is viewed with sincere regret, and they have the best wishes of all that success and happiness may attend their life at the Falls.

An interesting experiment in automobiles was made by the post office department in Toronto on Tuesday. The Montreal mail was sorted on the train instead of being sorted after arrival in Toronto. When the train reached Union station the mail was placed upon five automobiles, each of which started out for a branch office in the city. The result was that on the bulk of the letters a saving of three hours and fifteen minutes was effected. Letters which have heretofore not been delivered until 11.15 reached their destination not long after eight. This method will now be continued as part of the regular service in Toronto and Montreal in which latter city similar methods are in vogue.

Monday's Storm.

During the heavy thunder storm on Monday afternoon, lightning reached the earth in at least three places in the vicinity of Athens.

Miss Lucy Bullis, telegraph operator, is in a position to attest to the severity of the storm. From one of the first flashes, she received a shock that rendered her unconscious for some time. She was conveyed to the hostelry of Mr. N. D. McVeigh where she received all necessary attention, and is now again on duty, feeling little if any ill effects from her very close call.

An elm tree standing close to the residence of Mr. Erastus Livingston was struck, and an ash tree at the race course was also struck and set on fire. A peculiar feature of this latter occurrence was that notwithstanding the great downpour of rain that accompanied the lightning, and the numerous heavy showers of Monday night, the tree was still burning on Tuesday. When struck, the tree was apparently sound and in full leaf.

During the early part of the storm, B. W. Loverin of Greenbush had a valuable cow struck by the electric fluid and it lived only a couple of hours after the shock. Dr. Peat was called but the animal was dead when he arrived. An examination clearly showed that death was due to electric shock. The loss is partly covered by insurance.

THE CUP RACES.

The second race in the Motor cup series took place on Saturday evening and it was witnessed by a large attendance of spectators who thoroughly enjoyed the event. It was, of course, supposed that the winning lay between Holmes and Knowlton, who were easy winners of 1st and 2nd respectively at the first trial, but there was a little surprise in store for everybody. Messrs. Holmes and Knowlton started at the wire; Clark Mitchell, paced by W. Pinkerton, was given an advantage of one-sixth of a mile; and J. Chassels and Ed. Curry were given one third of a mile. Chassels dropped out in the third round, but his companion kept on kicking and it was soon evident that Ed was going to be, at least, in at the finish. It was a very pretty race. Holmes and Knowlton alternated in setting the pace, Mitchell, when overtaken, made no effort to maintain the lead, but dropped in behind Knowlton and Holmes and followed them closely to the finish. Ed, paced by Sam Manhardt, didn't lose any time on fancy calculations as to his proper relative position in the race, or the correct sequence of sprinting periods. He realized that he was leading the procession and was apparently content to split the atmosphere for himself so long as he could maintain that position. When he glided past the judges' stand, an easy winner, his victory was vociferously applauded. At no time was his leadership seriously questioned; indeed when he finished the last round his competitors had not greatly reduced the handicap. Knowlton, Holmes and Mitchell trailed closely in the order named as they entered the home-stretch on the last round. Then came the final rush for first position and Holmes pushed his way to the front and finished yards to spare, Knowlton next and then Mitchell.

The record by points now is—Holmes 9, Knowlton 7, Curry 5, Mitchell 5.

The third race took place on Tuesday evening and owing to the storm the result was very unsatisfactory. The entries were C. Mitchell, G. Holmes, E. Curry, L. Raisin, and W. Johnston. Curry, Raisin and Mitchell were given an advantage of 25 rods. They were paced by S. Manhardt and Holmes and Johnston were paced by W. Steacy. Raisin dropped out in the fourth round and Holmes and Johnston then wiped out the handicap and struck a fast gait for the finish. In the eighth round, the storm broke and the contest was finished by only Holmes and Johnston, the latter leading, in a perfect tempest of rain and wind.

Rev. R. W. Rayson, rector of All Saint's church, Kingston, died at Montreal a few days ago whether he had long been under an operation. He had long been a sufferer from lung trouble and spent last winter at Denver for the benefit of his health. He was at one time rector of the Anglican church at Lombardy, and for the past ten years, has been rector of All Saints, Kingston. He was 36 years of age and is survived by a wife and two young sons.

At a meeting of the directors of the Dairywomen's Association of Western Ontario, held at Milverton, it was stated that great improvements had been made during the year in the buildings and fittings of many of the factories. Special improvement is noted in the curing rooms, which are now in better condition to withstand the variations of the temperature. So far this season, in the western district, there has been no prosecution of patrons for adulteration. There have been cases which would have warranted legal proceedings, but the offenders have been warned and it is hoped that no further action will be necessary.

KENDALL'S SPAVIN CURE

Works thousands of cures annually. Endorsed by the best breeders and horsemen everywhere. Price, \$1.00 per bottle. As a liniment for family use it has no equal.

West Lons, Ontario, Can., Dec. 14, 1898.

DR. B. J. KENDALL CO.

Dear Sirs—A year ago I had a valuable horse which got lame. I took him to the Veterinary Bureau who pronounced it a case of Spavin and gave me little hope, although he applied a sharp blister. The next morning only worse and the horse became so lame that it could not stand up. After trying everything in my power I went to a neighbor and told him about the case. He gave me one of your bottles and I applied it carefully and was relieved to do the utmost in favor of my horse. He was cured and I am now riding him as usual. I have since applied it strictly according to directions. He has not completely cured without leaving a horse good and did some light work with him, which he has heard to my entire satisfaction he never showed any more lameness through the whole summer. I can recommend Kendall's Spavin Cure not only as an excellent, but a sure remedy to any case that it may concern. Yours truly, SAMUEL THITTEN.

Ask your druggist for Kendall's Spavin Cure, also "A Treatise on the Horse," the book free, or address
