COLLISION AT BRANTFORD.

96 Sheep Killed In Early Morning Wreck-Rolling Stock Damaged. Brantford, Nov. 2.-About 4 o'clock pesterday morning the regular east-bound freight from London crashed in-to a westbound special freight from Stratford, which was standing on the main line, near Niagara street subway,

main line, near Niagara street subway, in this city.

The standing train, to which a yard engine had been attached, was just about to pull out when the London train swept round the curve, and, despite the flag signals which were given, was unable to pull up and struck the yard engine with full force. The tender of the former was hurled over the embankment. The train tore over the subway, piling the yard engine on top of the London engine.

A caboose was smashed to splinters, and several cars were telescoped, two of them being loaded with ninety-eight sheep, ninety-six of which were killed outright. The other two escaped injury. Fire broke out in the debris, the flames not being extinguished for two hours.

The engineer of the London train, whose name the company refuse to divulge, was slightly injured.

Woman's Trials.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her Jonely lot? The absence of this link to bind marital life together, the absence of this one piedge to mutual affection is a common disappointment, Many unfortunate couples become estranged thereby. Even if they do not drift spart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should he made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervounsess and debility. Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remetty put up for sale through druggists, especially for woman's use. The ingredients are printed in plain English, on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his paths taking. Dr. Pierce takes his paths.

that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which he "Favortie Prescription" is made will bear the most careful examination.

Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

Bonds All Taken Up

Toronto, Nov. 2.—Hon, Mr. Matheson is becoming distressingly familiar with his own signature these days. INTERNATIONAL S. S. LESSON FOR TO-MORROW. The Lora's Supper-Matt. 26, 17-30. Read Mark 14, 12-26.

Golden Text-This do in remem-obrance of me.-I. Cor. 11, 24.

The last stroke of God's judgment, when delivering His people Israel from Egyptian slavery, was the visitation of the death angel to every house and the sudden death in that house and the sudden death in that night of the first born son in every family whose home was not shelter-ed by the blood of the God-appointed lamb. This meant grace to Israel, but death to Egypt.

The Jewish Passover was ordain-

The Jewish Passover was ordained to commemorale this trigic ereat. Now the stroke of God's justice against sin and for the delivery of God's elect from its slavery was about to fall on God's own well beloved Son—it pleased the Lord to bruise Him—that whosoever will might accept the atoning blood of the Lamb of God—that taketh away the sin of the world—and be saved. As they used hyssop to sprinkle the the blood outwardly, so we use or exercise faith to sprinkle the blood of Jesus Christ inwardly on our hearts. Our Lord, for the last time, in commemorating with His disciples the old deliverance, introduced the first supper of the new and present the first supper of the new and present dispensation. He directed His disciples where to prepare this passover meal—verses 17-19. In the course of it He declared, to their

over meal—verses 17-19. In the course of it He declared, to their amazement, that there was a traitor among them, and solemnly warned them of the greatness of his sin—verses 20-25. Judas is the black sheep, as in our list lesson.

Towards its close He give His disciples the unleavened bread and the wine, to use henceforth as symbols of His broken body and shed blood, and in commemoration of His death of atonement—verses 26-27—and not only so, but when we partake of the outward symbols employed, it implies our purpose to accept and particke of the inward reality, the Christ within as well as the Christ of Calvary.

The passover came down through the long ages, pointing back to deliverance from bondage in Egypt, and forward to the coming of a greater deliverer than Moses, and Christ Himself changed it into this memorial, which looks back to His death and forward to His coming again in His literal kingdom and glory, to reign as Son of Divid and Son of God.

Catarrh of the Kidneys Not Always Recognized.

A Cold Settled in Kidneys, Causing Serious Trouble-Pe-ru-na Restores Health. CATARRH of the kidneys is a very

much neglected disease.

It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

The slight backaches, the feelings of

assitude, and other warning symptom of kidney disease are overlooked

They are not serious enough to detain the patient from his regular work. Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body. In the kidneys it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious

ailments, if not fatal.

The thing to be done, when catarrb of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peruna. It reaches catarrh, no matter PERU-NA FCR where it may be located in the body—whether in the more exposed membranes of the mose and throat, or whether in the remotest part of the
