Now is time to get your SKATING BOOTS at J. M. Shaw's.

HUGE NUISANCE.—We have been requested to call attention to the custom indulged in by some people of having their teams across the sidewalks. The practice is bad enough in the dry weather, but when it is going down into the gutter filled six inches or a foot deep with slush, but at night it is criminal. During the last week several persons have come into collision with wagons across the sidewalks, and had been mangled and walking fast they might have been seriously injured. There are lots of posts and trees in the road, and if not enough the town should provide more. A word to the intelligent should suffice.

POWERS COATING.—A strong coating on your board may secure the same at Miss Henry Brown's, Wolfville where large and well furnished rooms with good board are available for any figure.

PREDICTION.—Our prophet observed a flock of geese this week flying in the shape of the word **WORLDS**. He predicts that this signifies that the world is to last for 15 years longer. It may mean 1500 years but he is not quite sure.
