

## Minister Speaks to Mothers

Tells His Wife's Experience for the Sake of Other Sufferers.

The following letter has been sent to Dr. T. A. Sloum, Ltd., for publication.

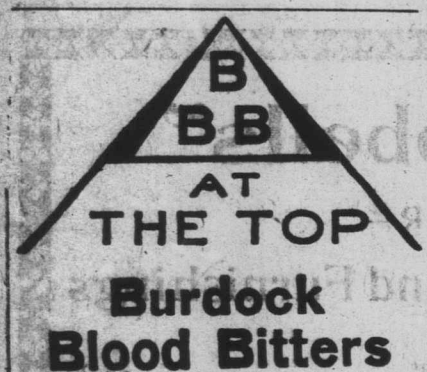

Dr. T. A. Sloum, Limited—Dear Sir: Within the last two years my wife (who is of a delicate constitution) has had two severe attacks of la grippe, both of which have been speedily corrected by the use of your medicine. It is a relief to me to know that you have a medicine that is so effective in the treatment of your patients that as a result of the use of your medicine, my wife has been able to resume her normal life and is now as healthy as ever.

For some time past, my wife has been suffering from a chronic condition of the stomach and bowels, and as a result of this, she has been unable to take any food. I have tried many different remedies, but none have been of any avail. I have now tried your medicine, and I am glad to say that it has been of great benefit to her. She is now able to take food and is feeling much better.

Yours sincerely, Rev. J. J. Rice, St. John's, N. B.

## CABINET SPURNS BISHOP'S PROPOSAL

M. Clémenceau Calls Suggestion of Church Leases an "Insolent Ultimatum"

Paris, Feb. 1.—That the Cabinet will not accept the proposition which the bishops, with the approval of the Pope, submitted for a modus vivendi on the basis of a virtual lease of the churches in perpetuity to the parish priests by the mayors was made known by M. Clémenceau, Premier, in the Chamber of Deputies this evening.

During debate on the public meetings bill, which was finally passed, 550 to 5, the Premier called the bishop's declaration "an insolent ultimatum." Continuing he said: "If the episcopate considers this a basis for negotiation we do not respond. The bishop will not obtain anything beyond the common law. We will not concede anything, but we will hold the line of battle with unexhausted resources."

Previous to this declaration there was an exciting incident which resulted in M. Briand threatening to resign. M. Clémenceau, during a reply to criticisms by M. Jaures on what he termed the "present imbroglio," admitted that incoherence existed, but said that he (the Premier), although not responsible therefor, intended to stand by his colleagues. M. Briand thereupon retired to the lobby, determined to give up his portfolio, as he thought the Premier's remarks referred to himself. After repeated efforts by his colleagues M. Briand consented to reconsider his decision and finally returned to the Chamber with M. Clémenceau.

The Premier expressed regrets from the tribune for what he called a slip of the tongue, and declared that he regretted M. Briand as indispensable for carrying out of the reform undertaken by the Government.

**DRASTIC PROVISIONS OF BILL.** The Public Meetings bill consists of four sections. The first authorizes meeting without previous declaration of intention; the second appeals the restrictions contained in the acts of 1883, 1905 and 1907; the third instructs the Mayors of France to place the existing meeting places at the disposal of the public, and the fourth holds the organizers of meetings responsible for damage. This law will become operative as soon as it passes the Senate.

The attitude of the extreme radicals who are incensed at the peremptory tone of the bishop's communication and at the despatches from Rome representing the Vatican as being determined unless the bishop's proposition is immediately accepted, to order the parish priests to leave their churches and suspend public worship, greatly embarrasses the moderates.

The latter believe that the Government, having accomplished the separation of Church and State, can afford to accept any definite solution of the difficulties in the interest of peace.

**MONCTON WILL ENFORCE THE SCOTT ACT.**

New Chairman Of Police Committee Gives His Orders To The Force

Moncton, Feb. 2.—There is likely to be a pretty brisk movement in local Scott Act enforcement before many weeks have passed. The new police committee, of which Percy Crandall, a strong temperance advocate, is the chairman, met last night in conjunction with Chief of Police Chappell.

Chairman Crandall said he wished to put himself on record at the beginning as saying he wished to have the Canadian Temperance Act enforced the same as any other law and that if there were any obstacles or hindrances in the way of the work of the police, the committee would do the best they could to remove them.

Mr. Chappell said the police had never had any even footing to work on in enforcing the Canada Temperance Act, and Mr. Crandall said he believed he would have the whole council at his back in the endeavor to enforce the act.

**A Storehouse for Poisons.**

You may not think so, but that is what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poisons on the body and health of the system. Dr. Hamilton's Mandates and Butternut Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandates and Butternut Pills, 25c at all dealers.

**BURNED TO DEATH BY TURENTINE EXPLOSION.**

Sad Death of a Fraserville Woman at Her Home.

Riviere du Loup, Feb. 2.—Mrs. Emile Caron, of Fraserville, met a tragic death early in the week at her home there as the result of an accident.

Mrs. Caron who was only a young woman, was preparing syrup of turpentine for her husband, when the liquid exploded as a result of the woman going near the stove. Mrs. Caron's clothing became ignited at once and running out of the door she threw herself into a snowbank to extinguish the flames. Neighbors came to her assistance, but the victim was so badly burned she died during the day. She leaves a five months' old child.

## ST JOHN MAN IN TROUBLE IN MAINE

Augusta, Me. Feb. 2.—Charged with unlawfully importing into the United States an alien who was suffering with a dangerous and contagious disease, Wm. Copen of St. John, N. B., was arraigned before Commissioner Burleigh today and held for the February term of the United States District Court, at Portland. The person imported was Solomon Kobolensky, a Russian Jew, and the disease with which he is afflicted is trachoma. Copen was arrested at Calais by United States Deputy Hasty. The penalty for conviction is a fine of \$1000 and five years imprisonment.

The officers allege that Copen took the immigrant by train from St. John where he recently arrived from England, to St. Stephen, N. B., and from there they walked across the line to Calais, a distance of four or five miles. Boston is understood to have been the intended destination. Kobolensky was sent back to St. John and probably will be deported. As Copen pleaded guilty, a preliminary was not held.—Ex.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opium, chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure contains have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by A. McG. McDonald.

## Winnipeg, Jan. 31.—It is announced by the immigration officials that sixty thousand laborers will be required during the coming season for railway work in the west.

The following are details of the requirements of the various companies:—MacKenzie & Mann, 10,000; Foley, Larson & Co., 8,000; J. D. McArthur, 7,000; MacDonald MacMillan Co., 3,800; Canadian White Company, 15,000; Canadian Pacific Railway, construction department, 10,000; track maintenance, surfacing and ballasting, 20,000, or a total of 59,500 men. To supply this large demand for laborers there are many thousands of men, both in the city and in the country districts, who have been engaged in previous years on railway construction and who anticipate going to work for contractors state they are depending on the incoming immigrants to a larger extent than in any previous year.

**KING AND QUEEN VISIT PARIS**

London, Feb. 2.—King Edward and Queen Alexandra left London for Paris this morning, travelling incognito as the Duke and Duchess of Lancaster. This is the Queen's first visit to Paris since 1889, when as Princess of Wales she visited the exhibition. As their majesties desire the trip to France to be as private as possible, there was almost absence of ceremony in their departure.

**THE CAPITAL STOCK OF HILLSBORO**

The capital stock is fixed at \$300,000, of which, however, the present issue will amount to \$17,000. It is the intention of the new company to proceed as soon as the frost is out of the ground with the construction of a factory near Hillsboro. A good site has been secured, and the district in which operations will be carried on is well wooded. Mr. Gross who for some years has held a responsible position with R. G. Haley will manage the business, and this will, of course, necessitate his removal to Albert County. The new mill will have a capacity of 1,000,000 feet of logs per year, all of which will be made into hardwood flooring for which there is a ready market. The output of the mill will be increased next year if deemed advisable.

**For Rheumatic Sufferers.**

The quick relief from pain afforded by applying Chamberlain's Pain Balm makes it a favorite with sufferers from rheumatism, sciatica, lame back, lumbago, and deep seated and muscular pains. For sale by all druggists.

**APPLICATION TO WIND UP BOOM CO**

The application of J. A. and J. F. Winslow in the matter of the winding up of the Fredericton Boom Company, set down for hearing this morning, before the Chief Justice, was postponed until Tuesday next, when it will be taken up at St. John at 2 30 o'clock.

In the Supreme Court this morning the case of Lynch vs. the William Richards Co., was opened Mr. Barry moving to increase the plaintiff's verdict. Mr. Powell contra. This case was still before the court on adjournment at noon.

Concerning the application of the Messrs. Winslow, President Randolph of the Fredericton Boom Company, said that any impression to the effect that there was any difference existing between the directors and the Messrs. Winslow were quite erroneous so far as he knew. It was simply a matter for the court to decide whether liquidators would be appointed as applied for by the Messrs. Winslow or whether he, as President of the Boom Company, should go ahead under the resolution of the directors and apply for the appointment of a curator. It was a question as to which act governed the case.—Gleaner 2nd.

## What the leading Medical Journal of the world has to say about FERROL.

After making a thorough test of FERROL in its own laboratory the London (England) Lancet published an article from which the following is taken:

**FERROL**

"This is a successful combination of the well-known valuable remedies, Cod Liver Oil, Iron and Phosphorus. The formula is no secret, and our analysis showed the presence and amount of constituents as described. The preparation is a good one and of distinct therapeutic value. The association of an easily assimilable oil, in a fine state of division, with a phosphatic salt of iron which does not disturb the digestive functions and which is easily tolerated, determines its success as a food and tonic in wasting diseases."

What the London Lancet recommends as a food and a tonic in all wasting diseases must have very special qualities.

No higher endorsement is possible. The results following the use of FERROL for the past ten years have proved that this endorsement is well deserved.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.
