THE HERALD.

FREDERICTON, MONDAY, FEB. 3, 1890.

PROVINCIAL FARMERS' ASSOCIATION

The recent session of the Provincial Farmers' Association was very interesting. Owing to the postponement and other circumstances which need not be detailed. although it may be mentioned that the prevailing influenza was the most prominent, the attendance of delegates was not as large as last year; but the papers ending June, 1889. As far back as 1873 and read were admirable and the discussions 1874 the exports exceeded those of last intelligent and thorough. The Lieuten-

success of the meeting great deal of good. It is noticeable that 1882, 1883 and 1884. This is hardly satisfrom year to year the discussions take a factory although the tendency of the last more definite and practical form, showing few years has been in the direction of inthat habits of close observation are being developed. Among the subjects considered were dairying, the association strongly favoring the co-operative method, fruit culture and the provincial oat crop. The observations made by the writers and of three millions in the trade with the speakers on fruit were very much to the United States over that of the previous of his marriage is unquestioned, and it point and ought to have been heard by a greater number of people. In respect to that with Great Britain. It is worth oats the point considered was the inferior quality of the crop as marketed, attention trade that whereas in 1873 Canada did busi-Ontario and Prince Edwards Island, which by reason of their superior quality find a sale at a price considerably in advance of those brought by home raised grain.

A synopsis of the report of the proceedings is given elsewhere and the papers read will be published in full in the report of the Secretary for Agriculture.

AN ONTARIO SENSATION.

The sensation of the hour in Ontario is the quarrel between the Mail and the or 25 per cent. Empire. A week or two ago the Globe, of Toronto, published a despatch to the had furnished the United States senate committee on relations with Canada with if reciprocity was withheld annexation would follow very promptly. The Empire then took the matter up, sent one of its staff to Washington, and having obtained a good deal of testimony, relevant and otherwise, denounced the Mail and its editor so on. The Mail and its editor have consequently taken criminal proceedings for libel. There is behind all this much that lately it broke with Sir John Macdonald, money behind it and it withstood the loss | country. of subscribers. Then it began the so-called boom again. The Empire was avowedly started as the conservative organ to take the place of the Mail; but though heavily backed by the party leaders it has not been as successful in this respect as was real or professed independence proved a very taking card. On the disclosure of the latter's course in regard to reciprocity the Empire doubtless saw its opportunity to hit its rival a heavy blow and hence the quarrel. Another feature of the case is that already suggested, namely the fact that the Mail has hitherto acted in harmony with the conservative opposition in the Ontario legislature, and with Mr. Dalton McCarthy, leader of the Equal Rights party and hitherto a prominent conservative. Only a few weeks ago an attempt was made to oust Mr. Meredith from the leadership of the Ontario op- decision of the government it is premature position. It failed, but has not been forgotten. Then Mr. McCarthy is gradually finding the breach between him and his conservative friends widening. He has rebe influenced in any degree by what ed a happy speech from the Attorney General hand a hundred summers with the past year of led to the admission by his lordship's signed from the Empire directorate. There | De Influenced III any des were those who imagined that the breach between the Mail and Sir John Macdonald was simply for the purpose of giving that newspaper a freer hand in Ontario politics than it would have if it continued a straight Federal government organ; but

The bearing of this upon the larger politics of the dominion is not uninteresting or unimportant. Hitherto the Empire and those papers which took their annexationist in disguise. They are now compelled to take the directly contrary position, and the result will be that it will be possible hereafter to discuss the future trade relations of the two countries without having to answer charges of disloyalty. This is a decided gain.

this proposition is no longer tenable.

THE TREND OF CANADIAN SENTIMENT.

Francis Wayland Glen, for some time a member of the Canadian Parliament, has contributed to the New York Press a somewhat lengthy letter in which he deals with the tendency of public sentiment in Canada, and this he professes to believe is strongly in favor of annexation. Mr. Glen has many excellent things to say about Canadians, their institutions and their country, but he is clearly at sea in this matter. It cannot be denied that about the cities of the Dominion are to be found more or less annexationists of a more or thing as an annexationist party. Many of those who are called annexationists are not properly so classed. It does not follow that because a person admits annexation to have its advantages that he is therefore in favor of it: but the ordinary American observer is ready to hail as anxious for the change everybody who will even Cassius and York the "envious Casca." discuss the subject. The fact that he does not rail against it is construed to imply

annexation talk but it is a small and un- McKeown. Verily politics makes strange influential faction. There is nothing like a | bedfellows. H. T. Stevens, a copperpopular feeling for the change in that pro- fastened Tory, comes to Fredericton and vince, while in the other provinces it would is closeted for hours with Mr. Gregory be impossible to find a prominent public soi disant Liberal champion of York. The like a race horse until noon of the following draw the handsome sum of \$3,000, the man who would commit himself to an great Liberal purists of St. John bury the day, when a heavy snow storm set in, seriopen declaration in favor of political oil can and shake hands with the dread-

regarded by anything like a majority as the probable outcome of existing conditions. As things are going independence most come. The unconscious tending of the public mind is in this direction and it is the natural outgrowth of the development of the country. It is not of the development of the country. It is not only possible, but quite probable that this only possible, but quite probable that this tendency may be the result, the colonial days be a passed never to return. Imperial have passed never to return. Imperial accepted with confidence. Frederation makes no progress in Canada. The great majority of people will not stop to consider whether it has anything to few vague rumors relating to English his feet commencing to freeze.

to have anything to do with it. fresh one nearly every morning.

WHERE CANADA TRADES.

The trade and navigation returns for the year ending June 30, 1889, show the following to have been the trade of the Do-
