

THE HERALD

WEDNESDAY, JUNE 16, 1886.

Points for the People.

THE nearer the day of election approaches the more seriously should the electors consider the motives by which they should be actuated in making a choice of representatives.

The Opposition are laboring hard to deceive the people of this country by making statements which they must know are without a shadow of foundation.

In the year 1879, the last year of the Davies Administration, the public expenditure was \$390,000. In 1885, the last year of Mr. Sullivan's Government, it was \$466,000.

Let us see how this great reduction has been effected. Has the amount expended on Education been reduced? The contrary is the fact; it has increased from \$65,550 in 1878 to \$109,316 in 1885.

How does the expenditure on Roads, Bridges and Ferries compare with that of the Davies Government? In 1878 the amount spent on roads was \$39,000; in 1885 it was \$19,031.

During the two years the Davies Government were in power, they drew from the pockets of the people, by taxes and payments into the Land Office, the enormous sum of \$230,348.

The Dominion Government have appointed a Commission of Civil Engineers to investigate the periodical floods at Montreal.

It is said that owing to the depressed condition of business a great number of the inhabitants of Newfoundland have gone to settle in different parts of Canada.

the people, the present Government have done more. They have caused the Dominion Government to assume certain obligations which of right belong to them, a matter which their predecessors in office never looked after.

To sum up; the present Government, by reducing the expenditure, have saved to the people of this country, during their term of office, the sum of \$679,000.

But they say the country is in debt. Yes, the country is a trifle in debt. We must remember, however, that when the present Government came into power the debt of the Province was over \$500,000.

EVERY elector should keep constantly before him the fact that he has a duty to perform towards his country and towards himself at the approaching election.

EARL GRANVILLE has introduced into the House of Lords a bill providing for the representation of the North West Territories in the Canadian Parliament.

On motion of Mr. Donald Mann, seconded by Mr. Edward Sharkey, the principle of the bill was agreed to.

THE Dominion Government have appointed a Commission of Civil Engineers to investigate the periodical floods at Montreal.

It is said that owing to the depressed condition of business a great number of the inhabitants of Newfoundland have gone to settle in different parts of Canada.

THE Dominion Government have appointed a Commission of Civil Engineers to investigate the periodical floods at Montreal.

the Island and, judging from reports thus far received, the Government Candidates are meeting with the greatest success, and the probability is that the Opposition ranks, already small, will be severely shattered when election day comes.

NOTWITHSTANDING the statements of the Patriot relative to the mission of the Island delegates to London, we find, from a despatch published in the Royal Gazette, and from correspondence shown us, that the matter of steam communication with the Mainland is considered of such importance by the Home Government, that papers relative thereto, have, by order of Her Majesty the Queen, been laid before both Houses of the Imperial Parliament.

It is said that Sir Richard Cartwright had the bumps of his cranium analyzed by a New York phrenologist, who was ignorant of the identity of his subject.

At a Convention of delegates, from the various polling divisions held in Souris on Wednesday last, 9th inst., John McLean and Charles McEachen, Esquires, were unanimously chosen as candidates to contest the first Electoral District of King's County, in the Liberal-Conservative interest at the coming election.

THE fishery question, as every elector must expect from the first, is beginning to be viewed even by the American fishermen themselves in that spirit of moderation and compromise which is the only way that a mutually satisfactory settlement can be brought about.

DURING the recent session of the Dominion Parliament, the Reformers at Ottawa had prepared fifty or sixty thousand campaign sheets to be sent by post to various parts of the country.

THE Dominion Government have appointed a Commission of Civil Engineers to investigate the periodical floods at Montreal.

George F. Owen and the Rev. Mr. Lawson, who happened to be present, with which communication of the Government was received by the meeting, these can be so doubt that the Dominion District will send two representatives to support the present Administration.

General News. A number of American Fishermen are seeking bait near Cape Island.

Halifax despatches of the 14th says: The fishing vessels now arriving in Provincial ports are bringing enormous catches of fish.

It is officially announced that Mr. Faure has been appointed Archbishop of a diocese, to include the dioceses of Montreal, St. Hyacinthe, Three Rivers and Nicolet.

Advices from Auckland, New Zealand, say there has been a volcanic eruption at Tararua, which was preceded by an earthquake. Many natives and Europeans perished.

Crowds of unemployed men are threatening bread riots at Conception Bay, Newfoundland. Looting has been reported to have taken place.

Recent Paris despatches say the tide is running strong in that city towards a fresh attempt on the part of the monarchists to overthrow the Government.

A canoe despatch of the 11th inst. says: The crew of a Yankee schooner were chased here yesterday; some left during the night and the rest early this morning.

W. D. Yule's glass works, in the east end of the city of Montreal, commenced the work of building, and on the 12th inst. the first stone was laid.

At the residence of the bride's father, on the 12th inst., the Rev. Dr. Knapp officiated at the wedding of Miss Stewart, of St. John's, to Mr. Stewart, of St. John's.
