The Evening Chit-Chat

By RUTH CAMERON

A group of us, of which a newspaper artist was one, were discussing things journalistic the other day and the conversation turned upon the work of several of his brother artists.

With each one who was named he had some fault to find.

The technique of the first was "rotten."

The faces that the second drew had no expression.

The third had no sense of motion.

The fourth was a fairly decent draughtsman, but didn't have a real snappy idea once a month.

And so on.

Now, all these criticisms may have been absolutely fair and just. I am not enough of an artist to judge whether they were or not.

But even if they were absolutely merited, that could not prevent the instinctive feeling that swept over all of us that this man was jealous of the men he criticised.

Never run down the achievements of anyone in the same line of work that you are.

It doesn't pay.

If you must show your critical ability, show it in regard to some kind of work that you do not do, for otherwise, no matter how justifiable your criticisms may be, you will always run the risk of arousing in your hearers the antagonistic feeling, "He is jealous!"

The feeling may be entirely unjust and unfounded. I grant that. But unjust or not, it is a feeling that it pays to avoid, for it can be done so easily as by keeping one's mouth shut at the proper time.

A young teacher came to me the other day highly indignant.

"Some of the folks from my home town," she announced, "asked me what I thought of Ruth as a teacher. I don't like her methods at all, so I just said so, and explained where I thought she was wrong, and now I hear I am terribly jealous of Ruth's success. Now, isn't that unjust when they asked me themselves?"

"Yes," I admitted, "unjust, but inevitable."

"What else could I have said but what I thought, when they came and asked me?" indignantly.

"Isn't Ruth good in some things?" I asked.

"Yes, but I TOLD them her good points," hotly.

"Well, couldn't you have stopped there?"

"But that wouldn't have been telling the whole truth," argumentatively.

"Need one always tell everything one knows and thinks, in order to be truthful?"

"No-o," thoughtfully. "I suppose not, but I WASN'T jealous. They asked what I thought and I told them."

That's the way we all feel when we try to be honest critics of our fellow workers.

But that also is the way we are all apt to get judged.

And I don't think it pays.

If it ever becomes necessary to judge a brother workman's output for someone who desires to know its value with a view to purchase, one must, of course, speak or defects as well as merits.

But under any other conditions it seems to me it is far better from a purely utilitarian, as well as a moral standpoint to speak what good one can and then lock one's lips.

Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc.

Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

The Cornwall's Visit.

The H. M. S. Cornwall arrived here this morning, and will leave for Plymouth to-morrow week. The big warship which was here last in October, 1908, has on board 63 cadets from the Naval College of Dartmouth, and has a crew of 580 officers and men. Her Commander is A. Cochran; Captain, J. Ley; 1st Lieut., Talbot Ponsonby; Navigator, Mr. McLeod; and Torpedo Lieut., Tiltard. Her cruise has been a long one. She left England on January 19th last and proceeded to Gibraltar, thence to Cannes, Naples, Plaeta, Greece, Corfu, Algiers, Alexandria, back to Gibraltar, across to Bermuda, Halifax and St. George's. She left the latter place Saturday night and had a fair run down. To-day a telephone connection was made with the city. The Commander visited His Excellency Sir Ralph Williams this forenoon. Private Secretary Fitzherbert at noon returned the visit on behalf of His Excellency.

Injured on the Railway

Thomas Carew, of Witley Bay, arrived by train to-day from the Bonaville Branch, having been made lame in an accident while working on the railway. He fell off a bank and his knee was so seriously hurt by coming in contact with a rock that he was unable to walk on that leg ever since; he also broke his thumb.

Cricket.

It has been suggested to us by several lovers of cricket that it would be a good idea of a city team would organize a match with a team from H. M. S. Cornwall. No doubt there are many good wielders of the willow on board, and a team could be easily made up on shore from the cricketers who constituted the Shamrock and Avalon teams. Mr. P. Myler is invited to make a move in the direction. If he will communicate with Mr. Godfrey or Mr. Franklin on board he will likely receive encouragement on the question.

POLICE COURT NEWS.

In the police court to-day two drunks were discharged and a drunk in charge of a horse was fined \$5 or 14 days.

The man alluded to in another column and charged with assaulting Bridie Baker, of the South Side, a couple of days ago, pleaded not guilty. He is represented by Mr. Higgins and was released on giving two sureties in \$50 each to appear when called upon within the next 8 days.

Harbor Grace Dissatisfied.

A good deal of dissatisfaction is being expressed by our business men and other citizens that the s.s. Prospero does not call here on her way to and from the north. They say the Premier promised that she should, and point out what a great convenience it would be, not only to Harbor Grace but more or less all the Bay. Not speaking at all of the claim this town and neighborhood have of being afforded a chance to build up trade with the northern settlements, they say that for instance, if her departure from St. John's were delayed from 10 a.m. until noon, she would arrive here to take on board passengers from the afternoon's train. In that case, passengers even from Placentia could leave home the same day and connect with the steamer here instead of having to go to St. John's the day before. The whole Bay would be inconvenienced. We trust the Government will see that this justice is done the Bay.

The news has reached here from the roundabout way of the Labrador that it is the intention to remove the Marconi station at American Harbor to another place. Those interested in the former locality, which includes a large number of fishermen of this town and bay, declare this change will affect them injuriously, and complain of its being done, as it were, on the quiet, before their voice can be raised—scattered as they are—in protest. They say instead of depriving us of the convenience, why not establish another one at Grady—Harbor Grace Standard.

C.C.C. Parade.

The C. C. C., commanded by Lieut.-Col. Greene, paraded to last Mass in the R. C. Cathedral yesterday. There was a big muster and the lads looked well as they marched through the streets. Their fine band gave several excellent quick-steps on the route. Mass was celebrated by the Corps Chaplain, Rev. Fr. Sheehan. On returning to the armoury Lieut. J. Meehan of B. Co. was promoted to the rank of Captain, and Lieut. A. O'Brien to the captaincy of A. Co.

OLD TEMPERANCE MEDALS.

Master John Byrrol son of T. Byrne, H.M.C., picked up an old temperance medal in the ruins of Fort William last week. It is a curio and is now in the possession of Mr. P. J. O'Neill. On one side is engraved a plow, fishing boat and fish, and on the other "Newfoundland Temperance Society, M. A. Fleming, Vicar General." This shows that a Roman Catholic Temperance Society was in being fully 50 years ago, and that the Spiritual Director was Father Fleming, afterwards the second Roman Catholic Bishop of St. John's.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

HOUSEHOLD NOTES.

It is said that if common table salt be added to gasoline, spots can be cleaned on silks or other delicate fabrics without leaving a ring.

Tan colored linens should never be put into bluing water when washed. In washing blue linens, always add a little vinegar to the last rinsing.

When hot cloths are needed, either for household or medical purposes, instead of wringing them out of boiling water, heat them in the steamer.

Half an egg shell with a hole in the end make a useful little funnel. It will be more desirable if the shell is slightly browned in the stove.

To stiffen ribbons put a table spoonful of sugar in about a cupful of water and rinse the ribbons in it. When pressed they will be even stiffer than new.

To remove iodine stains, wet in cold water or milk, cover with cornstarch and let stand until all stains disappear, changing cornstarch if necessary.

Oftentimes when moving a piece of furniture, especially if it is heavy, the matting will receive an ugly tear. Darn the matting with raffia in colors to correspond.

Cream of tartar will remove rust from dresses. Boil the dress for about one hour in three gallons of water, with one tablespoonful of cream of tartar for each gallon.

To clean walls take about four handfuls of flour, mix with water into quite a stiff dough and proceed to rub the walls, when all dust and dirt will be removed.

If the broom used for brushing the rugs is plunged into salt water and then shaken free of superfluous moisture, the rugs will be brighter than if swept with a dry broom.

Palms and other plants often suffer from dust. They should be washed with a sponge at least once a week and the more fragile kind should be sprayed with lukewarm water.

Instead of using water with soap ammonia or kerosene, try using denatured alcohol for cleaning windows. Moisten one cloth with the alcohol and polish immediately with a dry one.

If a porcelain baking dish becomes discolored on the inside, fill it with buttermilk and let stand for two or three days. The acid in the milk will remove all semblance of stain.

A boiled custard sometimes separates because it is overcooked. Next time this happens, beat the custard very hard with an egg beater, and you will be rewarded by having it smooth and creamy.

If a new wick to a coal oil lamp is thoroughly saturated with good vinegar and then perfectly dried before being placed in the lamp, the lamp will never smell badly, no matter how low it is turned.

Clean brass as usual, rub it over with a cloth dipped in vasaline and afterwards polish with a dry duster. This will keep it from getting tarnish.
