per lb. by the sack.

Whole Wheat Flour, brls. & 1-2 brls.
New Spanish Potatoes,
Wine Sapp. APPLES.

T. J. EDENS

Note From Dr. Wakefield

Editor Evening Telegram.

Dear Sir,—Some time ago the question was raised in your paper as to my reasons for warning the public in my lectures against the use of patent medicines. I thereupon stated that I would gladly give my reasons, but that I must be granted time to obtain information of certain details.

Delay after delay has ensued, caused first of all by press of work, and secondly by sickness, lately followed by a most urgent call to the north which kept me three weeks. Now I have to leave for Britain. I am not however backing down in any way from the position I have taken up in the matter, it is only extreme stress of circumstances which has prevented me from laying my case before the public, and I hope to ventilate the matter further on my return.

Thanking you for allowing me to explain the position to any who may have been wondering at my silence. I am,

Yours sincerely,
A. W. WAKEFIELD.
St. John's, June 21, 1912.

[A letter of a similar tenor appeared in the Daily News of Saturday. It will be observed that the letter bears the impress that it was written in the city on Friday last. On Monday it was found in our box at the East End Post Office. It was not there on Saturday afternoon when the box was emptied. The stamps impressed by the Post Office on the front of the envelope bear date June 21st. On the back of the envelope the East End stamp bears date June 23rd. From this it will be seen that it was received by the P. O. on Friday and took two days to get from one P. O. to the other in the city and arrived in our hand two days after a letter probably posted at the same time had appeared in the Daily News. We direct the attention of the P. M. G. to this matter.—Ed.]

the people's sing a song, and merry as a marriage bell the world would roll along! If all the loafing Jims and Jakes who on the corners stand, would fix themselves with hoes and rakes and cultivate the land, a million wives who wash and scrub and carry in the wood, might say farewell to mop and tub, and live as matrons should. And ragged children, short of scads, their cheeks by famine thinned, might live in comfort if their dads would just cut out the wind. If all the men who take a horn some unmy times a day, would just pass up J. Barleycorn and walk the sober way, sidestep the joints where lager foams to tempt the thirsty boy, then in a million darkened homes the wives would weep for joy!

Light, Warmth and Food.

These three words embrace the most urgent necessities of Life, and it is an extraordinary thing that in each case our thoughts turn to Gas; this, after all, is but natural. We want Light, Gas gives us the best, cheapest and healthiest artificial light known. Again, we want Warmth, and the gas fire is at hand to give it in its best form; and, lastly, we must have Food, and here the gas cooker never fails us. All this is absolutely true, as we have shown over and over again.

If, however, any of our customers are in the least doubtful on any of these points, we cordially invite them to consult us. In the meantime, our advice is to get good burners and buy mantles of well-known makes, to use modern gas fires and cookers, and, above all, to keep your gas appliances (whether old or new) in good order. For in this is the true secret of efficiency and complete satisfaction.

Footers to Visit Here.

We understand that the Football League are now making arrangements for a visit of the Bell Island footers to play a series of football matches with a picked team from the city. Those who have witnessed the games on the Island say that our boys will need considerable practice in order to compete favourably with the visitors. We hear that the proposed visit will be made the second week in August.

SEVENTY BERGS OFF BELL ISLAND.—According to a message received yesterday afternoon by the Marine and Fisheries Department they were seventy icebergs sighted off Bell Island, some of which were very large and dangerous to shipping.

IF

If all the noisy candidates who toot the brazen horn—if all these a n d kindred skates were busy plowing corn, we wouldn't need to fuss and fret about the nation's good prosperity, as never yet, would rule our neighborhood. It tariff tinkers and the like would drop their futile loads, and work with hovels on the pike, we'd have the finest roads! Then every town would prosper well.

A Little Talk About BUTTER.

In buying BUTTER there are just two things which have weight with the consumer—PRICE and QUALITY. Poor butter is expensive at any price. For a good article everybody is willing to pay a fair price. Our prices are not simply reasonable, they are extremely low. Our qualities are not merely fair, they are absolutely the BEST.

Colonel Roosevelt left for New York this afternoon. A crowd gathered at the station to cheer him. As the train pulled out, he shouted, "I am in the fight to win."

Special to Evening Telegram.
PORT ARTHUR, Ont. June 24.

That Britain's naval strength is the only factor which prevents war between Germany and Britain, was the statement made here to-day by James Vickers, of the firm which makes nearly all Britain's Dreadnoughts and heavy ordnance. This, coupled with the declaration that the relations between the two countries are undoubtedly strained, made it probable that war would never be, so long as Britain maintained her present policy of two power strength. Vickers is here with the British manufacturers, touring Canada.

Special Evening Telegram.
LONDON, June 25.

Lloyd George stated in the Commons that there were two contingencies regarding the disposal of the £6,500,000 surplus. The first was whether the coal strike could cause a loss of revenue in consequence of decreased consumption. He was now able to say that such was the buoyancy of trade that the estimates of revenue would be well within the mark. The other contingency was the possible increase of the demands of the Admiralty. Churchill had already stated that he based his estimates upon the assumption that the German Naval law would remain unaltered. There was a bill before the Reichstag at that time providing for considerable additions. That Bill was now an Act. There was no longer a contingency but a fact. In due course Churchill would submit supplementary estimates. He did not desire to anticipate his statement, but referred to it as necessary to explain the financial statement he was making to the House. This year Churchill's demand would not exceed £1,000,000. The heaviest charges would fall in subsequent years. A balance of £5,500,000 would, therefore, be left not disposed of.

Gas is Coal With the Trouble Taken Out.

Gas is really nothing more than coal only with gas you have the coal less the dirt, ashes and smoke. These have been taken out by the Gas Company. The weight, too, has been taken out, for when you use gas you don't have to carry it up from the cellar in buckets, straining your back in the attempt. All of the drudgery has been removed. The gas company has taken everything out of the coal but the heat—and that's the one thing you want. This they deliver to you right to the burner of your range. You only have to turn a tap and strike a match in order to have it.

If your mind is half made up to buy a GAS RANGE, remove the remaining doubt by thinking of last summer and the many days when your kitchen was like a burning furnace. The gas range never overheats the kitchen.

Phone to the gas company, or call at their showrooms and get full particulars.—June 20, t. u. th. st.

St. Bon's Win.

The B. I. S. and St. Bon's football teams played on St. George's Field last evening before a small gathering of spectators. The St. Bon's won by 3 goals to nil, two of which they scored in the first half and one in the second. The game was slow and ill-lit by very little interest. Mr. J. Meahan acted as referee.

Camping Out.

Young men this summer are camping out nightly in large numbers than ever before. On the Southside Hill several camps have been erected and quite a number at the margin of Beaver Pond off the Black Head Road, an ideal place, on Topsail Road, near Long Pond, Kenney's Pond and Mundy's Pond, quite a number are camping. The men take turns in cooking. They find the life a very healthy one.

A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at 6c. a box, or three for 15c. Mailed to any address. The Scoobell Drug Co., St. Catharines, Ont.

Avalon Lodge Installation.

Rev. Bro. Canon Bolt, M. A., was last night installed as W.M. of Avalon Lodge, A. F. and A.M., with the usual imposing ceremonies. The installation was conducted by the District Grand Master, R. W. Bro. J. A. Clift. He was assisted by Past D. D. G. M. Pilsent, D. G. M. Cowan and others. The brethren were present in large numbers and at the termination of proceedings an enjoyable time was spent in the banqueting room. Before leaving the newly installed W. M. received the grand honours and the felicitations of all present, including those of the Masters of Sister Lodges and installing officers. A splendid jewel the workmanship of Mr. T. J. Duley was presented the retiring master W. Bro. Jos. Nunns. The collection was for the Tasker Educational Fund. The officers for the year are: W. Bro. Rev. G. H. Bolt, M.A.—W.M. W. Bro. J. Nunns, P. M.—I.P.M. Bro. A. H. Salter—S. W. Bro. J. E. Hurst—J.W. Bro. Rev. Henry Uphill—Chaplain. Bro. E. M. LeMessurier—Treasurer. Bro. A. R. Woolgar—Secretary. Bro. R. W. Spry—S.D. Bro. A. Osmond—J.D. Bros. G. Taylor and W. F. Butler—Stewards. Bro. C. E. Hunt—I.G. Bro. Geo. Morris—Tyler.

An Appreciation.

On Wednesday evening, June 19th, at Botwood, the Rev. W. J. and Mrs. Morris being absent from the Parsonage for a short time, found on returning that the members of the Ladies Aid Society had taken full charge. The table had been spread and was loaded with various kinds of good things which had accumulated with fairlike swiftness. Mrs. Baird, Secretary of the Aid on behalf of the members then presented Mrs. Morris with a very handsome eight-day clock and the following address:—
Dear Mrs. Morris:—

We as members of the Ladies Aid are presenting you with this little gift not because of its value, but to show you that we have very heartily appreciated your presence with us. Your place in the Methodist Church of Botwood will be exceedingly hard to fill. As President of the Ladies Aid your untiring and persistent efforts against difficulties were always inspiring to the members of the Aid and counted largely for its success.

As you will soon be leaving us for a new sphere of work we wish both you and Mrs. Morris every success. When you leave you take with you our warmest and best feelings, and sincerely hope that you both may be spared for many years to work in the Master's vineyard.

Signed:
B. BAIRD, Secretary;
L. JEWER, Vice-President;
V. ANTLE,
M. DEAN,
M. J. HUTCHINGS,
M. A. ROBERTS,
C. DEAN,
E. MERCER,
H. WHITEWAY.

REPLY.
Dear Friends:—

The presentation of your gift as of your address for which I thank you, was completely taken by surprise. If I have done anything worthy of your commendation it has been due entirely to your kind assistance and the crowning blessing of our Heavenly Father.

In the future days to come I hope to return in the mirror of memory a reflection of the many happy hours we have spent together and can assure you for all time a warm place in my heart's affection.

In our new sphere of toil in the Master's Vineyard we shall ever work for the Glory of God and the good of humanity. Mr. Morris joins with me in wishing you future success in your work and express the hope that the earnestness which has characterized your efforts in the past will be vindicated in the future.

Yours, very sincerely,
SUSIE MORRIS.
