

Peace Treaty Ratified By Austrians.

Big Blaze in Atlanta, Ga.--Finland Will Not Discuss Peace With Bolsheviki.

THE STRIKE SITUATION.
CHICAGO, Ill., Nov. 7. New restrictions on use of soft coal were announced to-day, the sixth day of the miners strike. In some localities orders were more drastic than during the war, but the general situation showed little change. While the production in West Virginia and Colorado was reported to be increasing since yesterday, there was no noticeable change in the ranks of four hundred and twenty-five thousand striking miners.

five, the Senate early this morning rejected the amendment of Senator Ross, Halifax, providing for postponement of consideration of Grand Trunk Bill until next session. The second reading was then carried on same division.

WASHINGTON, Nov. 7. President Wilson to-day told Senator Hitchcock, of Nebraska, administration leader in the Senate Treaty fight, that he would be entirely satisfied with any reservations supported by the League of Nations Covenant and were designed for the purpose of interpreting the terms of the Treaty.

GERMAN SCHOOLS TO CONTINUE.
WARSAW, Nov. 7. The Polish Government, in conformity with the terms of the Peace Treaty, has consented to the continuance of German schools in the former Prussian part of Poland, in which the German population may continue their studies.

WILL WELCOME PRINCE.
LONDON, Nov. 7. The proposal, it is understood of the Canadian community here is to give the Prince of Wales a formal welcome home in recognition of his remarkable tour of the Dominion. The English newspapers give the Prince's speech at Toronto considerable prominence.

AUTOS FORBIDDEN.
DUBLIN, Nov. 7. A proclamation has been issued by the Commander-in-Chief of the Forces forbidding the owning or keeping of an automobile or motor cycle in Ireland, except by special permission. The order will become operative on November 15th.

THE COAL STRIKE SITUATION.
WASHINGTON, Nov. 7. An eleventh hour effort by Samuel Gompers to settle the coal strike, was met to-night by emphatic declarations from the Government that injunction proceedings would be dismissed the instant the strike order was withdrawn and not before. This final decision was given to Mr. Gompers heading a delegation of high labor officials at the close of the third conference of the day with Attorney General Palmer and after Mr. Gompers had talked over the telephone with John L. Lewis, acting head of the United Mine Workers of America.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—Remember this!
Genuine "Bayer Tablets of Aspirin" are now made in America by an American Company. No German interest whatever, all rights being purchased from the United States Government.
During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for pain generally.
Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.
Aspirin is the trade mark (Newfoundland Registration No. 761), of Bayer Manufacture of Monoceticacid-diester of Salicylicacid.

SWEDEN'S REPLY.

PEACE TERMS MUST STAND.
PARIS, Nov. 7. In a covering letter of the Allied reply to the Bulgarian delegation representations regarding police terms presented by Bulgaria, it is pointed out that the Bulgarian people cannot be freed from responsibility, and that therefore the decisions of the Peace Conference which have been made upon mature reflection cannot be materially changed. Conditions of peace terms as they were handed to the Bulgarian delegation, the letter sets forth, were not inspired by any idea of vengeance, and the Allies do not intend to make Bulgaria pay for all her past mistakes. They wish only to establish peace, just and lasting and fertile. It is declared, and they remind Bulgaria in this connection that they guarantee her an outlet to the Aegean Sea.

British May Put Tax On All War Profits.

Lord Beaverbrook's Scheme Finds Many Influential Supporters.
British capital is faced with the possibility of a tax on all profits made during the war. The plan has the support of many influential leaders of public opinion; lords and labor men alike are pleading for increased taxation to meet the growing deficit in the nation's finances, and though the plan for a tax on war profits does not find universal approval by any means, it has been seriously regarded by many as the only solution of the problems the Chancellor of the Exchequer must face shortly.
Lord Beaverbrook is sponsor for the proposal to tax war profits and thinks it would bring in more than a million pounds to the British treasury. His scheme is:
"There should be a valuation of the total increase, if any, of the wealth of an individual between August, 1914, and the present year, and the difference, as being due directly to the war, should in justice accrue to the Exchequer."
How Government expenditures exceed the revenue is shown by a statement contained in a copyright cable to the Toronto Globe, which gives expenditure to October 31 as £794,682,389; revenue, £482,481,978; deficit to date, £312,200,691.
The Times calls on the Government for courageous action to increase the country's revenue, and in the event of inaction asks for the Government's resignation.
The Daily Mail thinks that British capital is leaving the country and is being sent to the United States and Canada, there to be invested in great holding companies under a scheme that relieves the British capitalist of a large part of his taxes.—Financial Post.

Whiskey Invasion.
U.S. SUPPLIES ADDING TO BONDED STORES CONGESTION.

The Kentucky whiskey which has already reached this country is but the forerunner of a great quantity to come. It has, I am told, a peculiar woody flavour.

A telegram from a northern port states that "all available bonded space is taken up with American whiskey." The steamship Trelvon, from New York, has brought forty barrels into Hull, and that is typical of entries in many manifests. Much of it is on account of brewers, for their tied-house supplies.

A whiskey merchant writes to The Daily Mail to point out that this imported whiskey will not increase the available supply so long as the present restrictions on clearances from bond are maintained. These are 75 per cent of the 1916 clearances, which was not an active year.

He adds: "One of the main reasons for the scarcity of whiskey on sale to the public is that as merchants find it more profitable to sell brandy or foreign gin, the prices of which have not been controlled, a large proportion of the spirits they are entitled to clear is taken by them in the form of foreign spirits, and the amount of whiskey they are entitled to sell is thus reduced correspondingly."
"There is plenty of Scotch whiskey

the scarcity of good French burgundies?"
I am officially informed that United States consular officials have been ordered to pass no invoices for Scotch whiskey or other foreign spirits which exporters desire to send to the U. S.—Daily Mail.
