The World Over.

A \$30,000,000 embezzlement has just en discovered in the Austrian war office.

The wheat harvest has commenced in Tennessee, Kentucky and Southern Illinois, and the product in those States will be 'erry large.

A*great hall storm occurred at Woodstock on Sunday. Much damage was done. Over 700 panse were broken in the windows of the Baptist College.

Goesh't know.

Sir Thomas Gladstone, elder brother of
the Premier, was one of a delegation who
waited upon the Earl of Derby to urge
the House of Lords to reject the Irish
Church Bill. He represented the Scotch
constitutionalists. The Yagrant Act came into force on Monday, and it is rentioned that a few gentlemen having no visible means of support have suddenly left Tronto, because, you see, investigation of their circumstances might lead to unpleasant-

The Washington National Intelligen-cer, at one time the leading newspaper in the United States, has ceased to exist It was started in the year 1808, and had been issued as a dally since 1813. One of its editors, Mr. Seaton, was Mayor of Washington for twelve years.

Washington for twelve years.

It is pleasant to hear of continued musical activity in Scotland, where until lately, the art was so little cultivated. Bigotry, too, is giving way before advancing civilization. Witness a recent performance by the Dundee Amateur Choral Union of Mozart's "Requiem," with the original text, and Shubert's "Song of Miriam," both efficiently rendered.

The new oxyhdrogen light discovered by Dr. Motay has delighted the chemists, and can be supplied for half the cost of the present illumination. A few weeks will decide the matter. Meantime everything seems to show that the world is benefited by another chemical discovery—one that may yet lead to some important changes in our social system of economics.

of economics.

The New York Times says: "During the present heated term, several persons have been prostrated in the streets by the mays of the sun, and three of these have died from the effects of the stroke," The people of New York must have very different sort of weather from that which has prevailed here. We should like to see a specimen of "the heated term," for we have had but two or three moderately warm lays for a month.

A cotemporary says of the fashionable watering places: They have now become

A colemporary says of the fashionable watering places: They have now become nothing more nor less than the grand show cases of society, where our women fock every summer to display their dresses and their diamonds, the men to exhibit their horses and their waggons, and all to strive in a brainless and ruinous rivalry of vulgar magnificence. This exhibition is not confined to watering places; it is conspicuous in cities, at Saratoga, or Newport.

The Cypness of Somma.— This tree

places; it is completions in cities, at Saratoga, or Newport.

THE CYPRESS OF SOMMA.— This tree in Lombardy, Italy, is said to be the indicat tree in Europe. It is said to have been in existence at the time of Julius (Cosar, 42 years before Christ, and is therefore 1,911 old. Napoleon, when devising his plan for a great road over the Simplon, diverged from a straight line to avoid injuring this tree. It is 106 feet high and 20 feet in circumference, or about one-third the size of the greatest trees in the Calaveras Grove in California MAIL STOLEN,—Two mail-bags which had been made up at the Kingston Post Office werp stolen from the Grand Trunk of the design of the deep tree of the most cost to the control of the deep tree of the most cost to th

he contents. The letters had no money of the contents of the bags were subsequently recorded.

Goderich Correspondence.

Since my last the leng looked for dredge has come, and Goderieh prospects were bright for a moment; but our hopes were short lived, for just as it was ready to work an order came from somewhere for it not to begin, and it was in consequence fastened up, and the hands at dismissed. Various surmises are affoat as to the cause of the stoppage. Knowing ones say that the Grank Trunk has trodden on John A's toes, and that the harbour of refuge is looking further east than Chantry Island. Perhaps the energy displayed by the W. G. & Bruce Rallway company is opening the eyes of the Grank Trunk to the fact that if the new road is completed before the harbour of refuge is permanently established at Goderich we will lose it, and thus part of their railway become not worth the steen on which it rests. Besides they will almost, if not altogether, lose the western trade, for if a sufficient harbour is once established at Southampton the effect of it may be easily forseen. The Buffalo & Lake Huron Road from being a good paying institution will at once become a local affair, and not one of the outlets tor the produce of the mighty west, as it has been for a number of years.

Since seeding was finished grain of

outlets tor the produce of the mighty west, as it has been for a number of years.

Since seeding was finished grain of every description has been pouring into the town, but for all the prices are tending downwards. Wool is the only article that has taken a rise, and the highest price now paid for it is 35 cents. A few choice lots have gone as high as 40 cents. Wood and hemlock bark which erstwhile formed one of the principal items of our summer trade, seem to have vanished. Trade is exceedingly dull, and the universal cry is, "nothing doing; and no money."

Our surplus stock of salt has found a market at renumerative prices, consequently all the works will shortly commence operations again. From all quarters reports come that the crops never looked better, or promised greater abundance than at present. On Monday last Mr. George Jessup, a worthy and most esteemed member of the Masonic Fraternity was buried with the honors of the Order. He had been nearly three years master of the Union Lodge in this town. He was only thirty years old when he died, and leaves a wife and eight children to mourn his loss.

As John Story, tinsmith, and one of his apprentices were digging a tank they came upon a veritable pot of gold and silver, containing \$81. There were three \$20 gold pieces bearing date 1854, and the rest was silver. The finders divided the cash.

the rest was silver. The finders divided the cash.

Yesterday being St. John's day was duly honored by the Masonic body, who observed it as a holiday. Union Lodge, No. 490, met at high noon and installed the following officers: Bro H Reid, W M; Bro A Johnston, S W; Bro D Fergusson, J W; Bro A Sands, T; Bro W Dickson, S; Bro G Lious, S D; Bro A Kenner, J D; Bro A Beck, J G; Bro T Huckstep, Ty.

Thuckstep, Ty.

The Maitland Lodge installed the following officers: Bro J F Jones, W M; Bro W B Squiers, S; Bro E Hosker, T; Bro H Gardner, S W; Bro E Clefford, J W; Bro J Frederick, S D; Bro B Hazlehurst, Ty.

After work they and some of their brethren who had been invited from Lucknow and Clifton sought the Maitland Hotel where a handsome off their brethren who had been invited from Lucknow and Clifton sought the Maitland Hotel where a handsome spread had been prepared.

On Wednesday one of our fishing boats while on its way to the fishing ground was suddenly overtaken by a sharp quall, and in a moment it was upset and all hands swimming for lite. Fortunately another boat saw the accident and picked up the crew. All the nets were lost, but the Silver Spray brought the boat in.

Goderich, June 25th, 1869.

Chinese funerals are marked by the most costly ceremonies and the lavish expenditure of money. For days before the burial the body is surrounded by candles, incense, and food. Numerous priests chant prayers around the remains for the departed spirit. Coffins are made of the most costly material, and wrought; inlaid, and trimmed in the most elaborate manner. Troops of women clothed in white garments proceed in procession to

espatches to the Evening Mercury

LONDON, June 20.—Telegraphic advices have been received from the steamship Great Eastern, up to Monday, noon. At that time she was in latitude 58, E. L. 22; longitude 25, E. L. 11; having run 883 knots from Brest, and paid out 315 knots of cable. The signals were good. All well.

The Star to-day, commenting on the reported departure from New York of Col. Ryan's expedition for Cuba, brings the circumstance to bear upon the question of the claims now pending between the United States and Great Britain. It says: We are interested in the conduct of the United States Government in this matter. America now stands in relation says: We are interested in the conduct of the United States Government in this matter. America now stands in relation to Cuba exactly as England stood in relation to the Southern Confederacy. Her neutrality laws must be thoroughly and effectively enforced, or she will lose the hold she has gained on public opinion, which ensures a fair consideration of the Alabama claims. The Alabama escaped unarmed, with an ordinary merchantman's crew on board, and we are justly held to have incurred a high degree of responsibility for the consequence. The departure of a party of 800 men from New York harbour, as iar as can be judged from present accounts of the affair, appears to be an infraction of neutrality just as flagrant as the escape of the Alabama, and one that could be much more easily prevented.

DCalla, June 29.—A meeting was held.

just as flagrant as the escape of the Alabama, and one that could be much more easily prevented.

Durain, June 29.—A meeting was held in this city last night to urge upon the Government the release of the Fenian prisoners. Nearly 4,000 people were present. Mr. Butt, a prominent lawyer, made a speech, in the course of which hesaid the motto of all true frishmen ought to be, "Bide your time, trust in God, and keep your powder dry." If the English Government persisted in keeping these men incarcerated, all its professions of conciliation would be useless. Mr. Williams of Dungarvan, made an impassioned speech. He declared that the Fenian prisoners would not accept mercy; they demanded justice from the Ministers. If the latter refused it, let the blood be upon their own heads. He would not, however, advocate a resort to the sword, for that doctrine was now out of time.

American Despatches

tion--News from St. Domingo --Another Aerial Ship-- The Fenians in Session.

New York, June 30th. — It is now as-certained beyond a doubt that an expedi-tion consisting of 400 men destined for Cuba sailed from this port on Saturday

tion consisting of 490 men destined for Cuba sailed from this port on Saturday night.

Advices from St. Domingo up to the 8th inst. give particulars of the unsuccessful bombardment of Puerto Platte by the Telegrafe under Gen. Luberon. The bombardment was kept up for six days, but owing to the distance at which the Telegrafe was stationed, not much damage was done, Her officers and crew are to be treated as pirates when captured. San Francisco, June 29th. — Recent stracessful experiments have been made in the sity with the working model of a cerial navigation machine. It not only ascended in the air, but was propelled in any required direction by machinery. It is capable of carrying eight or 10 persons, and is constructed for the purpose of making a trip to New York. The inventor is confident the trip can be made in twenty-four hours.

Ohicago, June 30th. — The Senate of the Fenian Brotherhood is in session here. It is understood they are preparing a programme of action on the Alabama claims as far as they effect the Irish question.

A Parliamentary Incident

Immediately after the vote was taken on the item on the Supply Bill, to in-crease the salary of the new Warden of the Penitentiary, which resulted adverse-ly to Sir John A. Macdonald's pet scheme Station, at that city, early on Monday mornings, where they had been left to await the early train. It appears that during the previous day the nuts had been removed from the staples of the bags, so that there was no difficulty in withdrawing them, and thus getting at the contents. The letters had no money in them, but were all opened. The content of the bags were subsequently recovered.

INTITIOURMENTS IN WALKERTON.
Among the improvements going on at Walkerton, are a new Registry office of Walkerton, are a new Registry office of the work in the work is to be content. The provision of the provi
