CLOSING EXERCISES HELD AT WESTERN CANADA COLLEGE

Principal Dr. MacRae States That Building Will Be Started At An Early Date on the New Site; Manual Training Work To Be Instituted

GOVERNORS MAY FOUND SEVERAL SCHOLARSHIPS

Prizes Distributed To the Various Winners in the Several Forms of College by D. Bone, Who Presided; Two Members of Staff Are Leaving

WESTERN Canada College closing exercises took place yesterday afternoon, and a large and distinguished gathering of parents of the boys and friends of the college was present for the occasion. T. Bone presided over the gathering in place of James Muir, K.C., the president of the board of governors. The various prizes won during the year were presented to the boys by Mr. Bone, and hearty applause greeted each one on his way to the platform to receive the honor which he had won.

A feature of the program was the heartiness with which the boys made presentations to two of the masters of the college who are leaving at the present time. Handsome gifts were given by the boys to J. E. McLeod, who returns to Nova Scotia, and Mr. Holt, who is going to Toronto. During their stay in Calgary they have made many friends among the boys who have been at the college under their care.

Another matter of interest was the presence of the representatives of other institutions in the city and happy and inspiring addresses were given by Rev. Dr. Kerby of Mount Royal, Mayor Sinnott and Dr. Scott. All three addressed their remarks especially to the boys and showed that much more was to be learnt during the school days than was apparent on the surface. They also commented favorably on the work which was being done at the Western Canada college and made many complimentary remarks about the work which was being carried out by Dr. McRae.

New Buildings Soon

Principal Dr. McRae in his address referred to several extensions of the work which are to be undertaken at an early date. The board of governors has at present time under consideration the matter of founding a number of scholarships for boys and is also considering the question of starting a bench for manual training. Their decision on both these points will be reached within a few weeks.

Dr. McRae also announced that the governors meant to start building on the new grounds which have been secured at an early date. This would mean more commodious quarters for the carrying on of the work of the college. He stated that during the years of its existence the college had connected with it over 1,000 boys and these had gone forth into different parts of the West and were keeping up the traditions of the college in a fine way in every walk of life. Referring to the work of the year he said that the work of the college had done excellent work and progress all along the line had been satisfactory. Outside of college many boys of the college former pupils had taken excellent places in university and college examinations and at the Royal University College at Ringette. This very year, too, one of the boys of the school had carried off the second prize in the Daughters of the Empire essay contest.

List of Prize Winners

The programme which was given included solos by G. E. Holt and Miss Parkin, a piano solo by F. McCullough and a solo solo by J. MacPherson. After lecture was the presentation of a gift from the boys to Mr. Lane, who coached the lacrosse team which came out victorious in the city championship. To Check the Hindu.

Washington, June 20.—To check further complications on Pacific coast questions by unrestrained admission of Japanese and the Malay races of Asia to continental United States from the American insular possessions, Secretary of Labor Wilson, on recommendation of Commissioner General of Immigration Caminetti, yesterday made a far-reaching amendment to the immigration regulations.

The modification authorizes immigration officials at mainland ports "to refuse admission to aliens coming from insular possessions, unless it should appear that at the time of entry thereto they were not members of the excluded classes or likely to become public charges."

This action was the outcome of the cases of the three Hindus who arrived at San Francisco from the Philippines and were detained on the ground that they might become public charges. The circumstances in this case, however, caused Secretary Wilson to order the admission of the Hindus yesterday.

Several thousand Hindus are in the Philippines and a large number in Hawaii. It has been the practice to open the door of the United States proper to these races upon the presentation of certificates showing they were examined and passed at an American insular port of entry.

The regulations are now amended to empower immigration authorities on the mainland to pass upon the eligibility of Hindus coming from the insular possessions.

Sheer Organized Lunacy

London, June 20.—Chancellor Lloyd George, in a magazine article, predicts the advent of votes for women householders and the wives of electors as soon as the militant suffragettes "recover their senses." He denounces militancy as "sheer organized lunacy."

HARVESTER COMPANY BORROWED MANY MILLIONS

Perkins Says Company Used $140,000,000 in Its European Operations

Chicago, June 20.—When George W. Perkins, former partner of the late J. P. Morgan, took the witness stand for the defense in the International Harvester company anti-trust hearing yesterday, he was warned by Attorney Grosvenor, representing the government, that the conditions under which h otestified did not give him immunity from possible prosecution.

"You have been subpoenaed by Edgar A. Bancroft, of the International Harvester company," said Attorney Grosvenor. "Both are defendants in this suit. Out of 1,200 witnesses you are the first to be subpoenaed. In view of this state of affairs I wish to inform you that your testimony here does not give you immunity from prosecution."

"In reply I will say I was very much surprised I was not subpoenaed by the government of its own volition," said Mr. Perkins.

"But you realize your testimony here is of your own volition and entitles you to no immunity," persisted the government lawyer.

"I realize that the government has been very discourteous to me thus far," responded the witness warmly, and Attorney McHugh, of the defense, began direct examination.

Mr. Perkins, in the course of his examination, said he had lived in the west enough to familiarize himself with it, and had observed agricultural conditions in this country and in Europe. He said he had observed that the United States methods were vastly inadvance of European methods.

"I was trying t opurchase two or three companies outright," sai dMr. Perkins. "I wanted to get into the foreign field strong. Whether it was one company or a dozen made no difference. The point was, we had to have immense capital. We had to have capital to educate the people to use the machines before any of them were purchased. In th etime we have been in Europe we have borrowed $140,000,000 so we could extend credit to the farmers who have been unable to purchase their machines outright. The only way of breaking away from the century-old methods of harvesting was in the purchase of the machinery. It was a forward step in civilization for them.

In 1902, when the companies were combined, their foreign sales were $8,000,000. Last year they were $50,000,000 and would have been $100,000,000 if it had not been for this government's hostile legal attitude toward us and its constant interference with us."

Mr. Perkins probably will be on the stand the greater part of today.

B. C. MASONS ELECT THEIR OFFICERS

New Westminster, June 20—The annual convention of the Masonic grand lodge of British Columbia, in session here elected the following officers:

Grand master, Wm. Henderson, Victoria; deputy grand master, Jas. Stark, Vancouver; senior grand warden, Wm. D. T. Mars, Vancouver; junior grand master, Wm. Astley, Vancouver; grand treasurer, H. H. Watson, M.L.A., Vancouver; grand secretary, Dr. W. A. Dewolf Smith, New Westminster; grand tyler, Theodore Meichelli, Vancouver.

Spy Brought Many to Gallows.

Berlin, June 20.—Ozel, the notorious Russian revolutionist and member of the second douma, was a police spy who brought a large number of Lettish Socialists to the gallows, according to a dispatch received here from St. Petersburg by the Tageblatt. A Lettish Liberal organ in Riga, which Ozel represented in the douma, makes this categorical statement. Ozel was an inflammatory orator in the douma. His apartments were the meeting place of revolutionists with soldiers of the St. Petersburg garrison. The plan to make an attempt on the Russian emperor and overthrow the government was drawn up there and upon this Premier Stolypin justified his dissolution of the second douma. Ozel fled to America during the historic session when the douma debated Stolypin's demand for permission to arrest 36 Socialist deputies.

PRESIDENT HAS BEEN GIVEN WIDE POWERS IN TARIFF BILL

Washington, June 20.—An amendment to the Underwood Tariff bill adopted yesterday by the majority members of the senate finance committee would give the president of the United States authority to spend certain sums in the proposed law and to proclaim special rates against nations which discriminate against products of the United States. The amendment is appended to the clause giving the president authority to negotiate reciprocity amendments with other nations and in some respects resembles the maximum and minimum clause of the Payne-Aldrich tariff law, eliminated in the house bill. In substance, the amendment would provide that when any nation discriminates against the products of the United States or imposes restrictions against United States exports or does not, in the opinion of th spresident, reciprocate in trade relations, the president may, by proclamation, suspend certain rates and put in effect other rates.

After re-opening consideration of the

CHILDHOOD DANGERS.

No symptoms that indicate any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ones averted. The Tablets are guaranteed absolutely safe and can be given to the new-born babe as well as the growing child. Thousands of mothers use no other medicine for their little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

print paper schedule yesterday the committee voted to reconsider its former action and struck out its amendment adding the countervailing provisions of the Canadian reciprocity law. As the bill goes to the caucus the Underwood provision remains undisturbed, print paper valued at more than 3 and a half cents a pound, going on the unrestricted free list.

The committee now has disposed of all the schedules and administrative features of the bill and tomorrow will turn them over to the caucus. It worked until a late hour tonight on the income tax, which will be reported to the caucus as soon as possible.

The Democratic senatorial caucus began work on the bill today.
