rades and Deals in the Reichstag. Berlin, July 12 .- The present week is one of political trades and deals. Govern hent agents are scurrying hither and thither to rally the Parliamentary forces, Members of all parties except the Social Democrats and Richter Radicals are in daily conference with the representatives of the Chancellor. All the customary appeals to patriotism, party and class inter-

ests, and individual ambitions are being made. To-morrow the vote on the second reading of the Army Bill will be taken. The size of the Government majority is still in doubt; in fact, a few members on the Extreme Left profess to doubt that there will be any Government majority. The strength of the Government coalition is undetermined, and must remain so until the results of the incessant lobbying of the next few days shall become known. Rembrandt Etchings for Sale. LONDON, July 12 .- The sale of the cele brated Holford collection of prints and drawings will extend for four days. Holdrawings will extend for four days. Holford's collection of Rembrandt etchings is
probably the finest in the world. It
includes the first states of the famous
hundred guilder print, "Christ Healing the
Sick," of "Rembrandt with Saber," and of
"Ephraim Bonus with Black Ring," which
has lately been valued at \$5,000. Of the
hundred guilder print only seven first
states exist, and the Holford impression is
the only one that will ever be offered for sale.
Of the others, one is in the British Museum,
one in Amsterdam, one in Vienna, one (the
late Duke of Buccleuch's) in Berlin, one in

Mr. Gavin B. Clark, Radical, supported Mr. Sexton in his attempt to get the House to pronounce Chairman Mellor's action arbitrary, and in excess of his authority. Mr. Clark aso gave notice that he would introduce a motion to reduce by £1,000 the amount of the salary paid to the chairman. In this motion Mr. Clark, it is said, will be supported by the other Radical members whose aim it is to compel Mr. Mellor to retire.

ALMOST ANOTHER CATASTROPHE. While celebrating the arrival of the White celebrating the arrival of the Viking ship to-day, an accident occurred that came near proving the second horror of the week. The small pleasure steamer Imperial, which plies between the pier and Lincoln Park, was at its dock, having just taken aboard some 40 or more people for a north-bound trip. Just as the Imperial was about to steam out the big steamboat Arthur Orr, which had participated in the lake parade, came rapidly in behind.

Either no signal was given to slow up or the engineer mistock his orders, for the big boat crashed full in on the little one, driving it into the landing for a distance of over 30 feet, with a force that made the crunching of the timbers audible a couple of blocks away. The pier at the time was rowded with people, and their escape was little short of a miracle.

One man, name unknown, was caught between the boat and the timbers and his lower limbs were crushed almost to a jelly. Several others received contusions. Heinrich Hanson, Mrs. A. Natal and W. Fredericson, all middle-aged people, were thrown into the water, but were rescued. g ship to-day, an accident occurred that

THE WORLD OF LONDON

Chronicled and Criticised by Mr. Edmund Yates.

Residence of the Duke of York-How Princess Beatrice Travels—Diplo-matic Changes—Colonel Man -The Lord Mayor's

LONDON, July 12. - Some very foolish and London, July 12.—Some very foolish and absurd statements in connection with the royal wedding have been going the round of the papers. One exceptionally silly fiction is the tale that the Queen has provided in a substantial manner for keeping up the household of the Duke and Duchess of York, who, moreover, will be free to use suites of rooms in various palaces. There is no truth in this story. It is no part of the Queen's business to provide for the Duke and Duchess of York, whose household will be sufficiently kept up on an income of £22,000 a year, which it is said they are to receive out of the annual Parliamentary grant of £36,000 a year for the children of the Prince and Princess of Wales. The Duke and Duchess are to live at St. James' Palace when in town, and the Wales. The Duke and Duchess are to five at St. James' Palace when in town, and the Villa Sandringham is to be their usual residence in the country. The paragraph, which originated with a romancing American journal, and which has been extensively copied by our papers, states that the Prince Consort's life was insured for £1,000. Which the Queen has now in her pos-Prince Consort's life was insured for £1,000-000, which the Queen has now in her possession, and her life again is insured very largely for the benefit of her younger children, notably Princess Beatrice. This is a farrage of nonsense. The Prince Consort's life was not insured for a farthing, nor is the Queen's, except so far as it is insured by persons who have put her Majesty's life in leases, and other outside speculators. It is also utterly untrue that Emperor Frederick's life was insured for £800,000. erick's life was insured for £800,000.

erick's life was insured for £800,000.

THE LORD MAYOR'S INCOME.

People imagine that the Lord Mayor's allowance of £10,000 a year is very handsome, but it is notorious that every chief magistrate of modern times finds it only half sufficient for the numerous duties of the nation. The present Lord Mayor, for instance, has so it is said expended close the nation. The present Lord Mayor, for instance, has, so it is said expended close upon £1,000 out of his own pocket in decorating and illuminating the Mansion House and in the entertainment of rich and poor at the celebration of the royal wed-

RETURN OF COL. MAN.

Col. Man, of the Gordon Highlanders, who was Chinese Gordon's and Valentine Baker's trusted lieutenant, has just returned home from Trinidad, where he has been commanding the local forces for some time past. The Trinidad Government is pursuing a policy of rigid economy just now, and it is uncertain whether Col. Man will return to his post. Judging by the way in which he is spoken of by the local press, this able and distinguished soldier's loss to the colony would be irreparable; but the Colonial Office is not likely to allow him to remain long idle. For men of his stamp are not see common that they can be semployed to the advantage of the public service.

This sum represents the yearly difference between the value of food and the money technically known as "saving" paid for it to the men. It is legally the men's property, and neither the Treasury or the Admiralty have the slightest right to it. Sir Thomas says that during the Toyears he has been connected slightest right to it. Sir I nomas says that during the 70 years he has been connected with the navy £1,767,500 has thus been misapplied. If this money were annually paid into the royal naval fund it would soon become strong enough to deal with such cases as the Victoria's widows and orphans without ending the hat round.

ROYAL TRAVELING ARRANGEMENTS. An evening journal, in a blundering dis-ertation on the Queen's traveling arrangesertation on the Queen's traveling arrangements, states that no special accommodations are ever provided for Princess Beatrice. As a matter of fact Princess Beatrice invariably travels in the same saloon with the Queen, and her Majerty's night carriage, which is fitted up in compartments as a bedroom and dressing-room, contains a second bed, which is always occupied by the princess. Several continental journals have lately announced that the urnals have lately announced that the usen travels free over all the railways in Great Britain, while the expenses of the members of the royal family are paid by the Treasury. Of course this is all rubbish. The Queen pays her own expenses, which average £6,000 a year for home journeys alone, and the royal family pay their fares just like ordinary passengers.

The Street Railway Case Decided by the Privy Council in Favor of the City.

TORONTO, July 12.—When Toronto took over the old street railway company's plant at a valuation, Senator Frank Smith and his partner put in a claim for the perpetual franchise they considered they held. The arbitrators decided that they only had a 30-years' concession, and refused to allow them a cent for the franchise, which at their calculation was worth from \$5,000.000 to \$7,000,000. The old company fought the case through every court in Canada and were beaten. They carried it to the Privy Council in England, and there the case came up before the law lords to-day. Hon. S. H. Accorded Visiting Christian Endeavorers by the Local Union.

A Great Gathering in St. Andrew's Church.

Stirring Addresses by Bishop Fallows, of Chicago, and Dr. Rondthaler, of Indianapolis-The Visitors Heard Frem - in Love With London.

It was warm last night, and Christian Endeavor enthusiasm jerked the thermometer in St. Andrew's Church up several degrees. Atmospheric conditions, however, did not prevent the young people from packing the big edifice to welcome their visiting brothers and sisters from over the boarder. The 25 or 30 Endeavorers from Wisconsin, Arkansas, Indiana, and Minnesota, who were invited to stop over in London, en route home from the Montreal convention, will never regret accepting it, if what they say be true. They were royally treated by local members, and in the afternoon driven around the city in hacks. Their praises of the beauty and hospitality of the Forest City made their entertainers blush with pardonable pride. Last night they attended St. Andrew's in a body. On the platform sat Rev. J. A. Murray (chairman), Rev. M. P. Talling, ex-President Clarke, of the local union, Canon Richardsou, Rev. Ira Smith, and two distinguished visitors, Bishop Fallows, of Chicago, and Rev. Dr. Rondthaler, of Indianapolis. The choir opened with several of those inspiring Endeavor hymns. Mr. Clarke followed with a scripture reading, and Ira Smith with prayer.

THE CHAIRMAN, n his usual felicitous manner, introduced in his usual felicitous manner, introduced the speakers as two distinguished clergymen from the other side, while scattered among the audience were representatives from very strong and energetic societies in the great American Republic. In the name of the Christian Endeavorers of London he heartily welcomed them to this beautiful city in the British part of the country. "We are patriotic here as you are on the other side, but in Christian Endeavor we acknowledge no geographical lines." (Applause.) The first speaker would be Bishop Fallows, from the little village of Chicago. Fallows, from the little village of Chicago.

He found cut this was a canon—Canon Richardson, of London. (Laughter.) He finally managed to come into collision with the canon, and it was through his invitation that he and his friends were in London. (Applause.)

The doctor dealt cloquently on the blessings of Christian Endeavor work in broadening and liberalizing every denomination, and casually gave some humorabus threst at doctrinal differences. "My Baptist friend," said he, "would not allow me to sit at his communion table, but I may go into the pulpit and preclaim the word of God. If I go into an Episcopalian church, the rector or canon or curate wouldn't let me go into the pulpit, but I may kneel down at the communion rail with him. (Laughter.) In the Congregational Church I am free to do what I please, In the Methodist Church they will let me do everything buttake up the collection. (Laughter.) At the invitation of the doctor a number of the visiting delegates spoke briefly.

Mrs. Raymond Reid, a member of the pressin Indiana, praised Canadian hospitality, and remarked that she had been a student at Hellmuth College here. The young people must have Christ in their young people must have Christ in their hearts and look on him as a personal

A lady delegate from Milwaukee, representing the largest society in Wisconsin said that the thing that most impressed her at the convention was the necessity of personal work. They must lead people to Christ.

An Arkansas young man said they were civilized now in his part. They had Christian Endeavor and electric cars. (Laughter.) They had forsaken bowie knives and were now carrying the weapons of Christ.
