IT IS A LIVER PILL.—Many of the allments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation, though gentle, is effective, and the most delicate can use them.

MUST TAKE SAME TREATMENT

AS BOERS. Americans who fight in the Boer armies and are or hav been made prisoners by the British, will have to endure captivity until the close of the South African war. Britain has declined to comply with the request of United States Government to release an American now confined in the Island of Ceylon. The test case was that of a naturalized American named Morgan, who claims residence in Virginia. Alfred Milner, the British high commissioner in South Africa, disapproves of the release of foreigners who fought for the Boers. He has announced that a person who serves as a belligerent with the Boer forces loses his nationality, and must be treated as an enemy. This view is concurred in by the legal officers of the United States State

Department. The department is satisfied, from investigation made by American con-suls and the British authorities, that all reports that the British are illtreating their prisoners are without foundation. The only hardship that Americans captured in South Africa will have to undergo will be that of confinement until hostilities cease. PAY TOO SMALL.

The Air at Least Temporarily Cleared.

All Sections of the Party Represented—Resolutions of Confidence in Sir Campbell-Bannerman Passed.

London, July 9.-The much-discussed meeting of Liberals called by Sir Henry Campbell-Bannerman, the Liberal leader in the House of Commons, with the object of ascertaining whether he still retains the confidence of the party, was held at the reform club this afternoon, and resulted in the adoption of a vote of confidence in the leader of the opposition. All sections of the Liberal party attended. The Liberal Imperialists, headed by H. H. Asquith, were there almost to a man; but Sir Henry Campbell-Bannerman and Sir William Vernon Harcourt were the only two who received any marked recognition on entering. greeted them with cries of "How's your friend Kruger?"

A CONCILIATORY SPEECH. Sir Henry made a conciliatory The Imperialists showed that they

would not be associated with any anti-national policy, but the gathering was harmonious, and seems to have resulted in a temporary clearing of the air. During the course of his speech Sir

Henry Campbell-Bannerman met the Imperialists so far as to say the war must be brought to a victorious conclusion, but he thought the Liberals ought to insist on amnesty in the settlement. While the country had the sword in one hand it ought to have the olive branch in the other and show a disposition to come to terms with an enemy that had fought so bravely. MR. ASQUITH'S REPLY.

Mr. Asquith expressed the highest appreciation of the qualities of Sir Henry Campbell-Bannerman, but at the same time he regretted that the Liberal leader in the house had not been more outspoken in a policy of honest difference, rather than in impossible attempt to reconcile differences. He urged that those taking the views which he himself held should be free to express their opinions with-in the pale of the party.

IT HAS MANY OFFICES.—Before the German soldier starts on a long march he rubs his feet with tallow, for his first care is to keep his feet in good condition. If he knew that Dr. Thomas' Eclectric Oil would be of much better service he would throw away his tallow and pack a few bottles of the Oil in his knapsack. There is nothing like it.
