THE MARKETS.

THE LOCAL MARKET. London, Monday, Jan. 12.

The piercing winds and the bad condition of the roads, which are badly drifted in a number of places leading to the city, made the market almost deserted here

One load of hay sold at \$8 per ton; it was of poor quality.

A carload of live hogs were purchased here by Mr. D. McIntyre, for which he paid \$5.65 to \$5.70 per 10 pounds.

AMERICAN MARKETS

Locomotive Works for Toronto. Toronto, Jan. 12.-Frederic Nicholls, of Montreal, general manager of the Canada Foundry Company, who is here, says: "The directors of the company are at present having plans prepared for a gene al extension of the works at Toronto Junction. Up to the present time we have had 30 acres of land in the township, but in order to render the contemplated improvements possible, 30 more acres have been secured within the city limits adjoining. This will give the company a frontage of half a mile on the G and Trunk and half that distance on the Canadian Pacific Railways." Mr. Nicholls was not prepared to say anything definite regarding the extent of the new works, or when construction operations would commence.

FOR EIGHT

Postman Johnson Had Catarrh --- Used Catarrh Remedies, Snuffs, Washes and Sarsaparillas, But Got Only Temporary Relief.

Then One Happy Day He Tried the Life-Giving Powley's Liquified Ozone—Seven **Bottles Made Him a** Well Man.

Now He Eats Well and Sleeps Well and Pronounces Ozone the Most Perfect Blood Purifier Sold.

That the only way to cure catarrh is to get right at the seat of the trouble the Buffalo Forge Company intends to and reach it through the blood is proven by the experience of Postman M. F. Johnson, 395 Rivard street, Montreal. For eight or nine years he suffered from Catarrh of the head and can capitalists and about \$2,000,000 exstomach, but half a bottle of Powley's pended on it. I could cite a score, Liquified Ozone improved his condition and seven bottles effected a per- tural, grazing and timber lands

The following is Mr. Johnson's statement of his case: Mont eal, Feb. 8, 1902. The Ozone Company, Limited,

Toronto, Ont. Gentlemen,-I have been suffering for eight or nine years from Catarrh in the head and stomach, and have used all kinds of catarrh remedies, snuffs, washes and sarsaparilla, but they gave me only temporary relief. I saw your advertisement in the Montreal Herald and procured a bottle of Ozone and before it was half used I found it was doing me good and going to cure me, which it has done after using seven bottles. The pains in my head have all disappeared and the hawking and spitting in the morning is no more. I get good sound sleep now since taking Ozone and can eat my breakfast, something I could not do before using Ozone. I honestly believe that Ozone is

the best blood-purifying remedies on the market today, and anyone following the directions and instructions in your book will surely be cured of any ailment of the body. I remain, truly yours,
(Signed) M. F. JOHNSON,

395 Rivard street, Montreal, P. Q. Mr. Johnson Is Not the Only One.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system. Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"My health was poor and I suffered

much from hives and kidney trouble. After taking two bottles of Hood's Sarsaparilla I was cured. I regard this medicine as superior to all others." Mrs. JOSEPH HOL-Do You Want Cosy Furs? LINSHEAD, Harrison, Ontaric.

Hood's Sarsaparilla promises to curs and keeps the promise.

Halifax, and of which an American syndicate has taken 5,000 shares of stock at \$250 a share, a total of \$1,250,-000. This, it is understood, is largely owned in New York and Chicago, although a fair-sized block has been placed in Buffalo.

The bank has assets of more than \$20,000,000, a capital stock of \$2,000,000, fully paid, and a surplus of \$1,700,000. with branch offices in New York and Chicage," said Mr. Henderson. "Some of the stock is held in Buffalo, but not to any great extent as yet. Who holds this stock? Well, I am not at liberty to state that. "Few people in this country compre-

hend that Canada represents 30 cent. of the entire British Empire and one-fifteenth of the land area of the world, and few have any idea of the millions of United States money invested in her industries. Not only in agricultural and timber lands, but in nining and manufacturing, and some of the largest industries in Canada are practically owned by capital from the States. The Canadian Steel and Coal Company, capitalized at \$6,000,000 and owning 4,000 acres of iron mines and 3,000 acres of coal, is a New York State concern. The Federal Sugar Refining Company is owned in California, and the Toronto Abell Works is operated by big thrashing machine manufacturers in Michigan and Minnesota The Canadian Coral Marble Company, of Toronto, is backed by American capital, some of it from Buffalo, while the Northern Cereal Company, with \$2,000,000 capital, is largely owned by men in a similar line in Chicago and Cedar Rapids. A manufactory for building planes, at Toronto Junction, is owned by a Rochester concern, and employs 200 hands. I understand that put in operation a plant in Canada soon, but where I don't know.

"The most modern cold-storage plant in the world has just been built on Prince Edward Island by Ameriyes, a hundred other instances.
"Then the investments in agricul-

amount to many millions, but these are principally in the Northwest Territory. Then we return to the States in the shape of manufactured goods quite a large amount every year. Nearly \$1,000,000 worth of woodpuip went to your manufacturers last year and more than a quarter of a million in steel, half of the entire output. "But don't think I want to run down the United States. I think it is the greatest commercial country of the world, and has a wonderful future. As for Buffalo, I think the next ten years will see her, in population, wealth and commercial greatness, second to but very few of the cities of the United States. As a residence city she has no superior, and as a distributing center for raw material and manufactured articles has few equals."

THE STRIKE COMMISSION

Listen to Statements From the Coal Companies.

Delaware and Hudson Representative Testifies as to Wages Paid Men.

Philadelphia, Jan. 12.-The reports of the Delaware and Hudson Company, the first of the coal companies to present its side of the controversy with the anthracite mine workers to the strike commission, occupied both sessions yesterday of the commission. Three persons appeared before the arbitrators on behalf of the company. They were James H. Torrey, of Scranton, the company's principal counsel, in the absence of David Wilcox, the vice-president and general counsel of the company, who is ill; Charles C. Rose, of Scranton, superintendent of the mining department of the company, and Abel I. Culver, of New York, comptroller of the com-Mr. Torrey made an address indicat-

ing what the company intended to

Supt. Rose told of the conditions in and about the company's 24 collieries. and Comptroller Culver presented the wage statements and other statistics having a bearing on the issues before he commission. Chairman Gray, who is ill, was un-

able to be present, and General Wilson again presided. Commissioner E. W. Parker was absent from the afteron session, naving been called to his home in Washington by private busi-When Mr. Culver took the witness

stand he first presented two large volumes which contained a complete copy of the pay rolls, of the company. One of the wage state ents nished to the commission showed the percentage of men receiving certain wages. The statement showed that 6 per cent. of the company's men were receiving over \$1,000 a year, 3 per cent. \$900 to \$1,000, 6 per cent. \$800 to \$900, 6 per cent. \$760 to \$800, 13 per cent. 600 to \$700, 12 per cent. \$500 to \$600, 10 per cent. \$400 to \$500, 9 per cent. \$300 to \$400, 9 per cent. \$200. The commission requested the information in this form, and it was furnished, but Mr. Culver protested that it was not fair, unless a statement accompanied it showing how many days the men For instance, those who carned under \$200 a year worked on an

From the Mail and Empire, Toronto, Saturday, Jan. 3, 1903: ANOTHER GUSHER IN KENT.

Good Flow of Oil Struck in Raleigh Township.

Special to the Mail and Empire. Chatham, Ont., Jan. 2.- Another splendid oil well has been struck on the farm of Mr. Miller, lot 17, 13th concession, in the Ralegh oil fields. The new well is 500 feet down. It was shot yesterday, and a splendid flow of oil has been secured. This well is only a few hundred feet from "Gurd's Gusher," and is the second good one in the Raleigh oil fields. A number of other wells were shot yesterday, and a good strong showing of oil was secured. The field is judged by

experts to be about three miles long and a quarter of s We desire to call the attention of our shareholders to the above extremely gratifying news item, which is particularly satisfactory to the Dominion Oil Co., on account of the act that this is the second well brought in adjoining the west side of the 1,530 acres in which this company is interested, and practically demonstrates that of the company's lands at least 1,000 acres is proven oil territory, the output of which is bringing the highest price of any oil in either Canada or the United States, it being of the best quality.

A marked demonstration of the way in which the permanency of this field is regarded s the fact that the Standard Oil Co. has constructed a pipe line from the "Gurd" gusher o the nearest railroad, and is now erecting additional steel tankage and pumping stations. A limited issue of the treasury stock is now offered at the exceptionally low price of

35c per share, this being the opening price, and the lowest at which a share of the stock The present purchasers will be entitled to a dividend of 1 per cent per month on par, commencing February 1st, equaling about 36 per cent per annum on the investment at the present figure.

verage estimate at about half a month during the entire year. The exact figures will be handed up when worked

In addition to the wage statements, Mr. Culver presented a mass of other statistics, showing the number of houses the company owned, the rents received and showing dockage for the year, which amounted to 34.16 per cent. Mr. Culver disputed the accuracy of Mr. Mitchell's statement of wages paid to anthracite mine workers, and those paid to the same class of workmen in the soft coal fields. This statement was handed to the commission at Scranton, and showed that the bitumingus men received more pay than the anthracite workers. The witness said the company is making a de-termined effort to lessen child labor, and that the 20 per cent reduction in hours of labor each day without a decrease in wages is tantamount to a 25 per cent in-

tase in wages, Mr. Torrey then read the laws of several states on the question of child labor. He said the coal companies would gladly join with anyone in having laws enacted forbidding the employment of children in and about anthracite or bituminous mines Two witnesses having testified that Wm. Dettrey, the new president of district No. of the miners' union, had made threatening remarks against non-union men, the president was present today to tell his version of the story. As counsel for the non-union men was not present, he The commission will insist that counsel for the parties before the commission shall be present at its sessions, or have their interests looked after by someone else in their absence. be called next week.

Secretary Jarvis, of the Toronto Board of Trade, has received a letter from the Kasio, B. C., Board of Trade asking the Toronto board to co-operate in petitioning the Government to give protection to the silver-lead industry, which they say is in danger of extinction because of tariff action of the Americans.
