

Denied Life Insurance

because his bodily health failed to meet the company's rules, Mr. Jas. Connors says Duffy's Pure Malt Whiskey built him up so that he successfully passed three different physical examinations by the same Life Insurance Company, which formerly rejected his application. No wonder he will not accept substitutes for Duffy's.

"I have great faith in your wonderful remedy which I have taken regularly for the past twenty-five years. Before I took Duffy's Pure Malt Whiskey I was subject to chills and heavy colds in the winter and had a very poor appetite. My family physician advised me to take a tablespoonful of Duffy's Pure Malt Whiskey before meals. I followed his directions and found it created an appetite, and while taking it I was not subject to the cold chills that I formerly suffered with.

"Twenty years ago I was rejected by a Life Insurance Company, and since taking your whiskey I have built myself up and have passed three times since in the same company."—James Connors, 397 Baltic Street, Brooklyn, N. Y.

MR. JAMES CONNORS.

Equal Heat In Every Part of The Gurney-Oxford Oven

Every woman well knows the bad results from constantly opening the oven door to move a cake to another shelf or turn a pan of biscuits. Often the shifting or the cold air striking in proves utterly disastrous to her baking.

The Divided Flue on the Gurney-Oxford range equally distributes the heat to all parts of the oven which is regulated to the exact temperature required by means of the Economizer.

This wonderful time-labor-and-money-saving device controls the heat of the whole range.

It is worked by a small handle which moves around a series of six notches. The housewife soon learns that by moving the handle to No. 1 she has a very hot oven, to No. 3 a moderate oven, and that No. 6 checks the fire so as to burn scarcely any coal while she goes out shopping. On her return she simply moves the handle to the number that gives the required heat and the result is prompt.

The smooth top castings will not catch or retain grease.

The bright nickel trimming lifts off for cleaning and keeps the range new and shining in appearance.

For years stove experts have been working out woman's problem in the kitchen and the Gurney-Oxford range is the solution.

BOYCOTT HALIFAX

C. P. R. and Allan Boats to Sail From St. John.

[Canadian Press.]

Halifax, Sept. 30.—That the C. P. R. and Allan Line intend to ignore the fact is feared in shipping circles here, as the Atlantic sailing of the C. P. R., announced today, call for a direct service between St. John and Halifax. The Allan Line's winter sailings announced yesterday also made no mention of Halifax. An attempt will be made by those interested to get the Allan Line at least and their steamers to Halifax.

Street Work Has Been Abandoned

Ingersoll, Oct. 1.—The idea of permanent improvements to Thames street this year has been abandoned. The question proved to be a bone of contention from the first, owing to the various suggestions as to what should be done.

Originally the intention was to put down cement curbs and gutters and resurface the street. The engineer did his part and the plans and specifications were in the town clerk's office for several weeks before the proposed work was commenced. Then it was, however, that objections were raised to the methods being followed. The chief objection was to two steps from the sidewalk down to the street level. There were hurried consultations between members of the council, ratepayers, and the contractor, and later the engineer was called in. The decision has now been reached by the council to take the contractor off the work and cancel the contract. Temporary repairs only will be made to the street, so it is difficult to predict when the long-looked-for improvements will be made. Street improvements is one of the big questions for the council of next year to consider, and it is probable that some definite scheme will be evolved for beginning work early next spring.

Divorced Wife Shoots Husband

[Canadian Press.]

Los Angeles, Cal., Sept. 30.—Rising from the breakfast table to answer the door bell, Frank Ivy, a real estate dealer, was shot and probably fatally wounded today by his first wife in the presence of his second wife and their two babies. After firing two bullets into her divorced husband's body, Mrs. Ivy dropped the revolver, crying, "I've up and fired at the woman as she ran down the street, the bullet striking her in the leg. She is now in jail."

The shooting, according to all accounts, was the result of quarrel over the divorced couple's 15-year-old daughter. The girl was given to the mother at the time of the divorce nine years ago. Recently the child was taken from the mother and sent to a reform school. Mrs. Ivy blamed her former husband for this, and now has a suit pending against him in the superior court.

LORD BALLYROT IN ARLAND

At a railroad station, old chap, a highly touching scene was enacted because of a newly married couple. It seems the young husband was about to depart on a journey, and the wife was reduced to frantic grief at the notion, you know. At length the husband picked up his luggage and sped for the moving train, saying the while: "There, there, sugarine, don't loosen any more agony dew around here. Put the blotter on your glimmers and can the sob speciality. I ain't going to be away from the wiswom more than a week, so what's the use of doing a Mrs. Pat Campbell before all these gutta perchas. Nix on crabbing the press of my coat. Duck the weeps! Quit sloshing the saline! I love you, Mercedes, but please loose the strangle hold, so I can glom the rattler before the train shed gets left behind!"
