3-Year-Old Audrey Shelton Falls in Path of Oncoming St. Thomas Car.

WHEELS CRUSH HER HEAD

Stricken Mother First To Reach Scene of Accident in Front of Home.

Special to London Advertiser ST. THOMAS. March 28.-While playing with other children on Ross street just south of the M. C. R. subway, Audrey Shelton, three years old, the only child of Mrs. Ernest Shelton, 71 Ross street, was instantly killed Tuesday afternoon, when the ver her head.

The litte girl and a companion Howard Durdle, were running back and forth across the street, when a Ross street car in charge of Operator Ross street car in charge of Operator
William F. Armstrong, approached
from the south. Audrey slipped and
However, With Progress from the south. Audrey slipped and fell in the path of the car, and alhough Armstrong applied the emergency brake, the car's momentum could not be checked until the front wheels had crushed the tot's head. The accident occurred in front of the little girl's home. Mrs. Shelton heard the screams of Audrey's companion and rushed to the window. of the accident where she lifted the eabe from beneath the wheels and carried here away in her arms.

The child's father was killed overseas four years ago next September. He served with the 91st Battalion. An inquest was opened Tuesday night by a jury composed of John R. Martin, foreman, George Midgley, W. G. Peacock, W. R. Doherty, D. Dinner, L. O. Pearson, Roy Styles and Leonard Catchpole. The jury viewed the body and adjourned until

#### URGES MILK INSPECTION AS DISEASE PREVENTIVE

Thursday evening.

Dr. McNally of Provincial Board of Health Addresses the Tilbury Catholic Women's League.

Special to London Advertiser. TILBURY, March 27.-The series f ten lectures on "Home Nursing," which were seen by the local Catholic Women's League, were brough a conclusion on Friday evening, when Dr. McNally, representative of the Provincial Board, delivered an address of profound interest on 'Communicable Diseases" to a large audience. A sketch of the work which this department endeavors to over and the machinery used in its operations proved most illuminating o his hearers. This was followed by a clear exposition of the means of communicating the diseases, to which this part of the world is exposed and methods of prevention.

The object of the public board of

health, he asserted, was to bring about a population without defectives, either mental or physical, and to prevent people suffering from avoidable illness. He spoke of the paramount importance of milk inspection, as it was the principal food of children and ill people. Being the greatest source of germ multiplication, pre-cautions to test its purity and protect it from infection were obviously imperative. Hygiene and sanitation they'll take another dive in that "TIZ" representatives were but servants of
