Two Firemen Hurt While Battling Fire in Worst Blizzard in Years.

Special to The Advertiser. Galt, Feb. 15 .- While one of the worst blizzards that has visited this district in years raged today, a \$25,000 fire occurred in the town of Preston, completely gutting the old Bernhardt Brewery and destroying the plant of the Canadian Wagon and Novelty Company, owned by John and William Werlich. It was estimated that the wind was traveling at a velocity of 25 to 30 miles an hour, and the brewery being on the bank of the

river was in the path of the gale.

The fire was discovered at not and within a short time the building was ablaze, and being fanned by the wind it was impossible to check it, and after several hours of herculean ting it under control and saved nearby buildings, including an ice-house containing 600 tons of ice. The firemen were of the opinion that the fire started in the boiler house.

The damage to the building owned

by Peter Bernhardt was estimated at \$12,000, while the Werlich's placed their loss at \$13,000, partly covered by insurance. Two of the firemen were injured, Wallace Near having an eye burned, while William Tilt was struck by a piece of falling debris. After receiving medical attention they returned to work. During the hours that they were engaged battling the flames the firemen were refreshed with coffee provided by residents living nearby.
