Capt. McLeod, the new master of

the steamer Dunube, was formerly engaged in the sealing business. He was one of the best known of the colony of

Nova Scotia men that came to Victoria to enter the sealing trade. He brought the schooner Ariel around from Halifax

in 1892 in 128 days, one of the best pas-sages made by the large fleet that doubled the Horn. He was master of

A new high pressure cylinder will be made for the steamer in England, and shipped out to her at Hongkong. The steamer Buckingham is also not coming. She was to have been cleaned and painted, and it was thought that a local firm would secure the contract, but as the Tacoma dry dock company underbid them by \$200, the steamer will go to Tacoma. Light Docket.—The Japanese, who laid an information charging William Alexander with assault and wifful damage to property, having withdrawn the charge there was little for the magistrate to do in the police court yesterday although considerable time was occupied in hearing the evidence in the case of E. John Bell having destroyed his vicious dog the charge against him was dismissed upon his paying the costs of court, amounting to \$2. Duncanite's Luck.—Lieut. Fall, of Duncan, who went to South Africa with Strathcona's Horse, has written to Mrs. Fall from Vryheid, April 16, saying that he is, in perfect health. The letter was doubly welcome from the fact that the cable, some time ago; announced his death in action. The mistake arose from the fact that another man of the same name in the regiment was actually killed. Lieut. Fall has accepted a commission in Gen. Kitchener's bodyguard and will remain in Africa till the close oc hostilities. He tried to secure parti-

The synod of the diocese of Kootenay will meet in Nelson on Tuesday and Wednesday, the 18th and 19th of June, this date having been approved by Bishop Dart of the Westminster diocese. There is little chance of a bishop being selected at the approaching synod, as before this is done the salary requirements have to be met. These require either the raising of an endowment fund of \$40,000 or the guarantee of a salary of \$2,500 a year. Nelson has been chosen as the see city, but it is open to Rossland to meet the salary requirements and displace Nelson if its people are so inclined.

A medicine that is talked about---that is frequently the theme of general conversation---is a medicine that cures. That is why it is talked about. Commonplace medicines are not discussed; it is merit that compels attention.

No other medicine in the world has been so much much talked about as Dr. Williams' Pink Pills. Neighbors discuss it at their friendly gatherings. The person who has been benefitted by the use of this medicine recommends it to ailing friends.

You may not have thought of it before, but, if you will recall the fact now, you have doubtless heard "Pink Pills" talked about on scores of occasions--- and always in terms of the warmest praise. This is because Dr. Williams' Pink Pills cure.

There is not a nook or corner in the whole civilized world where some sufferer has not been benefitted by the use of this medicine. There is scarcely a place of importance where Dr. Williams' Pink Pills have not effected remarkable cures. When doctors have said "we can do no more;" frequently after the best hospital treatment has failed, Dr. Williams' Pink Pills have restored sufferers to healthy, happy activity.

READ THE PROOF.

Mr. John McDonald, a well known merchant at Cape North, N.S., was for many years a sufferer from spinal trouble, which eventually resulted in paralysis. Mr. McDonald's story is given as follows in his own words:—"Almost thatteen years I caught a bad cold which lodged in my back, producing a terrible pain. Liniments were at first resorted to, but they had no effect, and the trouble became so bad that I could hardly walk. Medical treatment did me no good. I tried six different doctors, but the result was always the same. I spent \$30 for an electric belt, but it was simply money wasted. Years went on and I was continually getting worse, until in the spring of 1895 my lower limbs would scarcely support me. In June of that year I went to the Victoria General Hospital, Halifax, where I remained for two months under the treatment of the best specialists, but when I returned home I was actually worse than when I entered the hospital. This strongly discouraged me, and I gave up all hope of ever getting better. I continued to grow worse until about the first of January, 1896, when I had become so bad that I could not stand alone, as my legs were like sticks under me. My only means of locomotion was crutehes, and my legs dragged after me like useless pieces of timizer. I could not raise them one Inch from the floor. About the first of the following April, Rev. Mr. McLeod strongly urged me to try Dr. Williams' Pink Pills. I had tried so many things without benefit that I did not think the pills could help me, but nevertheless I decided to give them a trial. After using six boxes I could see that there was a slight improvement, and I continued using the pills until I had taken thirty boxes, and by that time new life and vigor had returned to my legs, and I have since been able to attend to my business behind the counter without the aid of crutefies of even a stick. Under God's blessing Dr. Williams' Pink Pills have restored me to a new measure of health and energy I never expected to again enjoy in this world. again enjoy in this world.

My restoration has caused a great wonderment in this section; and as a result I have sold many gross of Dr. Williams' Pink Pills in my store, and many of those who have bought them from me tell me they have
