The last session of the present Ontario parliament opens to-day at 3 o'clock. These are not very momentous times with respect to the initiating of public projects, for our civilization has now reached such a stage that we rather from year to year ed a number of new measures not heard of before. Now we hardly ever hear of a new act, but rather the annually-recurring we believe, been the aim of Mr. Mowat and his party to create wherever a need for legislation has been found to exist, and the record of their administration shows a creditable share of such original legislation. Perhaps an origthe record of Mr. Mowat's parliament not a little revisory legislation, but that it has yet reached "crystallized perfection." perhaps even our worthy premier himself

Speculation by Canadians in American and equality of colonial life. markets and exchanges may be said to have begun in earnest about twenty years ago, when the issue of a war currency over the border sent gold up to a premium. Hearing of the big profits made there by speculating in gold, Canadian financiers thought and out of tone, that were he to serve up sightingales tongues or real turtle it is they must dip in too, which they did pretty heavily. Mr. King, then at the head of the Bank of Montreal, showed them all the way and took the lead in this business; and it may be no exaggeration to say that he made millions by it, for the bank, for himself and for his associates all together. A million dollars, it was soon demonstrated, would make more money in three months, if placed in New York or come to the young members who have won | Chicago, than it might make in Canada in a year. Other banks followed suit, but Mr. King made his bank the actual "leading bank" in this business, and it came to be felt as a first-class financial power in the States as well as here. Since It will no doubt also appear that the receipts from crown timber and lands for the has vanished; but it seems as if Canadian year have reached the handsome figure of taste of what New York and Chicago pro-Our agricultural industry is moving ahead vide for the venturesome, are bound to folby strides, and there will doubtless be a low the thing up. THE PENNSTLVANIA OIL CRAZE

From the Montreal Gazette.

What the market has of late lacked speculative vim has been made up by the recent craze in oil, every large city in the United States and Canada being more of less interested. The result has been that the crowd as usual has been milked to the extent of millions of dollars, which have colled into the clutches of the manipulators in the shortest space of time ever remembered in the history of trade gambling. A few months ago the price of crude oil in Pennsylvania was down among the fifties, from which it steadily ran up to 70c, and from this point in its upward career it began to attract the speculative attention of troleum on margin came pouring in from

Should the Brethren Be Refreshed. From the Hamilton Times. The Toronto Freemason is opposed to having intoxicating liquors served up at lodge festivals. It says there has been too lodge festivals. It says there has been too much of this kind of thing, bringing the order into disrepute. In Hamilton, we are informed, there is no cause for complaint. The entertainment supplied on festival nights is usually of a tectotal character, and those who desire to have refreshments of a different kind are left free to get them where retailed. This is as it should be.
