has been called and every state has cast its vote. The New York delegation met at 11 o'clock and continued in session four hours. Great interest centred in this meeting as having a very important bear-ing on the final action of the convention. Rumors of the results of the balloting crept out from time to time, but could not be verified. The following were given as the final ballots taken for the presidential preferences: Cleveland 50, Flower 22. The Cleveland managers are in high feather, and claim as a result of to day's work that the fight has already been won, and that it only requires a sitting of the convention to seal the victory. Way few of the states which perfected their organization to-day took a test vote as to their presidential preferences. The Massachusetts delegation held a meeting this afternoon, which was ad-dressed by Butler, in which he said: I will support the nominee of this conven-tion, no matter who he may be. In an interview with a Times reporter immediately after the adjournment of the Naw York delegation John Kelly said A CENTENARIAN'S DEATH. His Son Killed While Arranging for the Funcral. In an interview with a Times reporter immediately after the adjournment of the New York delegation, John Kelly said : The fact is we want a candidate who has been enough identified with national government, and who has had experience enough to be called a statesman. Cleve-land made a good mayor of Buffalo and a good sheriff there, but as governor of New York he has been a failure. Kelly in-stanced Bayard and McDonald as suitable candidates.
