**CHICAGO MARKET.**

**SECOND CABLES FIRMER — PROVISIONS RECOVER—NO LIVERPOOL TO-MORROW.**

Chicago, June 2.

Lower cables and lack of export demand were the contrary influences at work to-day in the wheat market. It seems as though the damage scare was pretty well exploded for the time being. The local traders were bearishly inclined, the market on any rally should be a sale for the time being as a decline is fairly due now.

The bulge in the last week of January has been repeated and also the market of 1885 for almost corresponding dates. May wheat at Chicago touched 79½ in January, on the present bulge July sold 79½, Wednesday, May 29, of 1895, July made the top price of the year at 82½ on similar winter wheat prospects.

Excepting the winter wheat condition and the drought in Southern Russia, the general news and advices would be construed as very bearish.

The large World's wheat shipments for the week of from two to three million bushels in excess of estimated requirements and the increase on passage of over a million would usually have an adverse effect on the price.

Northwest farmers have learned a lesson from the boom prices a year ago and are selling freely on the advance.

May shorts have been rounded in and the short interest is generally pretty well reduced.

**CANADIAN-ARIZONA MINES!**

Head Offices, Montreal. Mines: Vulture Mountains, Arizona.

**"INTERNATIONAL GOLD CO." "NORTH EASTERN COPPER CO."**

Capitalized at \$100,000 each in \$100 shares, \$25 payable on organization and allotment, \$25 in three months after organization, and balance as legally called, but as both properties have pay ore from the surface, it is not expected that more than \$50 per share will be called up.

International ore is free milling, we simply ship gold ingots. North Eastern is a smelting ore, railroad and smelter convenient and expense of production very moderate.

If we followed the mode and capitalized each of above properties at \$1,000,000, or upwards, we might offer some of the stock at 5 to 10 per cent. of par value, and figure on large profits by the manipulation of later issue, but we look to the product of the mines for the large profit, and only capitalize for requirements.

If you are a speculator and want shares at 5 or 10¢ each, you can have great variety, but if you seek a sound and very remunerative investment, study our prospectus, which will be mailed you by addressing—

S. CHADWICK, Pro. Sec. & Mgr., Montreal, Que.  
ROOM 605 TEMPLE BUILDING.
