

Amatite ROOFING

Why the Buyer of Amatite Never Complains

concrete made of pitch and mineral matter.

When a man buys ordinary ready roofing he usually neglects to paint it and after three or four years he comes back to the dealer with a complaint. It is his fault. He has neglected painting his roof.

When a man buys Amatite Roofing he lays it in his building and in two or four years it is still good as new and does not need any painting. He has neglected to paint his roof, but no harm is done by that.

There is nothing to neglect in the case of Amatite. The peculiar surface—a sort of plastic Everjet Elastic Paint

A better waterproofing paint, very cheap, very durable for painting all kinds of metal and wood work.
