

# The Canadian Mutual Aid Association.

INCORPORATED AUGUST 20, 1881.

Head Office, Toronto.

## BOARD OF DIRECTORS.

WM RENNIE Esq, Toronto, President; A GIFFORD, Esq, Meaford, Vice-President;  
E H HILBORN, Esq, Uxbridge, Treasurer; W P MORTON, Esq, Toronto, Sec'y;  
Geo H WATSON, Esq, Toronto, Solicitor; R H ROBERTSON, Esq, Toronto, Med'l Direct'r;  
S W HILL, Esq, Ridgville, Membership Superintendent.

The Directors have filed with the Hon. S. C. Wood, Provincial Treasurer of Ontario, a  
Trustee for the Association, Bonds to the Amount of \$50,000 as a guarantee  
for the honest carrying out of the terms of Certificates issued to Members.

Reliable Aid to Families of deceased members at Small Cost. For particulars  
apply to S W Hill, Membership Superintendent, Ridgville, or to W P Morton, Esq,  
Secretary, No 63, King Street East, Toronto.

## COUGHLIN'S

PATENT FROST and FIRE PROOF

## IRON FENCE POSTS!

For Barbed and other Wire Fences, patented in the United States and Canada, the Best  
Cheapest, and Most Durable Fence Post ever invented or used, having no com-  
plications, doing away with the digging of Post Holes, &c.

The above cut shows a section of Fence with 100 feet span, taken from photograph. Also  
Post, adjusted in ground, post entering ground, and bolt wire attachment, (all patented.)

The entire length of the post is 8 ft., with two adjustable feet at the lower end, 20 inches by  
4 inches, making it impossible to be raised from position by the frost or otherwise, except by  
digging out the entire depth of the post and removing all earth from the foot. The Post is  
driven into the ground 3 feet deep, with a mallet, beetle or sledge, (with a wooden cap on  
top of the post for sledge) when the feet adjust themselves. A man can drive down 4 to 6  
of these posts while digging one picket hole. These posts stand a straining pressure of 5  
barbed wires high, making a fence 4 1/2 ft. high with 300 ft. span between posts, as erected for  
Wm. Ellis, Superintendent of the Welland Canal, on his farm adjoining Prescott, Ont.; also  
at the South Grenville Agricultural Show Fair, and at the Toronto Exhibition, 1880.

Railroad Companies, County Councils, Toll Road Companies, Farmers, and others requiring  
Fences, imperishable and indestructible by fire, wind or floods, easily put up, requiring  
no repairs for generations, accumulating no snow-drift, or depositaries for weeds, &c., and  
no waste of land, and placing a fire and burglar proof safe about every man's domain, al-  
lowing him peace of mind and rest of body, from brood and unruly stock, bush fires,  
garden and fruit thieves; also raids on sheep and other stock by dogs, wolves or other wild  
animals, even the house cat or owl cannot pass through it when properly erected on this  
post, and every owner of the land should erect these Fences at once.

## TO THE PUBLIC.

Be aware of Bogus Imitations of Iron Fence Posts, requiring the digging of trenches, same  
as cross sills to old fence post, that are only 2 inches by 6 inches under the ground, and hold  
by a wooden pin or iron spike, with the wires fastened to the posts by wrapping a small wire  
around posts with no other attachments to keep it up to its place, but allowing the wires  
through working by the winds to slip down to the ground. The small wire rusts off in a  
short time as in twisting the galvanizing is broken allowing damp to penetrate and rust it  
off. It also requires a lot of tools and constant repairing to keep 't in order. Either man or  
beast can shove or cant rods of this fence and posts over, while the Coughlin Patent Posts  
stand a pressure of several tons in either direction sufficient to break the posts without mov-  
ing the bottom or canting it from a perpendicular; also the wires are bolted to the side of  
the posts, the bolts passing through with nuts on the back side to tighten or hug wires to  
face of post, (this bolt fastening is also patented with post), making it impossible to sag  
should a wire by accident be broken or cut by evil-disposed parties, excepting the span in-  
jured which no other posts shown or invented have the power to resist.

In comparing the actual cost of material for the following fences, I have consulted many  
farmers and others who all claim that I have underrated the actual cost of Rail and  
board Fences:

Common Rail Fence, 6 rails high, capped and staked.....	90 cents per rod.
Pine Board Fence, capped, using 4 in. Lumber.....	\$1.70 per rod.
Stone Walls, where stone are got on fields.....	\$2.25 per rod.
Barbed Wire, 5 wires high, Coughlin's Patent Post, 100 ft. apart.	90 cents per rod.
do do do 50 "	\$1.00 per rod.
do do do 25 "	\$1.40 per rod.

I will sell County or Township rights very cheap to enterprising men who wish to build  
Fences, and furnish them Posts, Wire, &c., at the very lowest cash prices; will also sell  
rights to farmers at \$3.00 per 100 acres, farmers to build fence themselves, and I will furnish  
all materials of best quality at wholesale prices. Fences will only cost 75 cents per rod for  
material, 3 to 4 men will build one mile per day. By forwarding orders thus addressed P  
Coughlin, Prescott, Ont., they will receive prompt attention. One pound of wire builds 3 feet of  
fence 5 wires high, and 3 men can put up 4 miles of six line fence per day, with a single  
horse and wagon to lay five wires along the ground at once and strain wires every 300 to 600  
feet with rope and double pulley, costing about 60 cents, for the whole. After straining wire  
go along and set on hooks of bolts of other posts, and tighten up with a small wrench. This  
fence is undergoing a test this winter with spans of five wires high, 220, 200, 175, 150, 125, 75,  
50 and 25 feet, the extra cold weather does not affect it the slightest, all was put up per-  
fectly tight and still remains so, with no breakage or other defect.

For further information and particulars send for circulars to

The People Have Proclaimed

## The CLYDESDALE

THE

KING OF DRAFT HORSES

The Largest and Finest Col-  
lection of Clydesdale Stal-  
lions in the World!

Including the great and descendants of the  
Greatest Prize Winners of Scotland,  
and among the number the only horse  
that ever crossed the Atlantic that ever  
won and held the Great Challenge Cup  
Annals of rare individual worth, com-  
bined with the choicest breeding, whose  
constitutional vigor, energy, and  
stamina have not been impaired by high  
feeding and over-muzzling.

We have not only the largest collection  
of choicely-bred, Scotland raised stal-  
lions in the world, which the Clydesdale  
Stud-Books of both Scotland and Amer-  
ica will fully verify, but we have some  
fine American-bred full bloods, and a few  
high grades.

While recognizing the  
Clydesdale as the King of Draft Horses

Yet in order that parties desiring either or  
both breeds might be suited at our estab-  
lishment, we have added an importation of  
choicest Percheron-Normans

Also extensive breed of Hambletonians,  
and other desirable strains of Trotting  
Stock, and importers and breeders of  
Ho stein and Devon Cattle.

We handle only our own stock, and  
act as agents for no other parties, our stock  
being of that high quality, choice breed-  
ing, hardiness, and vitality, that we are  
willing to risk our own capital in them,  
and can confidently recommend them as  
safe investment for any wishing to pur-  
chase.

We feel fully justified in saying that our  
experience as breeders and importers,  
our low rates of transportation, large  
numbers constantly on hand, the extent of  
our business, general facilities, and hav-  
ing met with no serious losses, which in all  
business must be made up by the purchaser  
enables us to offer inducements to any  
wishing to purchase either class of stock  
not surpassed by any other firm in this  
country. We can afford to do it and will  
Prices Low. TERMS CASH. CATALOGUES  
FURNISHED.

All stock guaranteed as good as represented  
We are the most extensive importers  
in America of Clydesdales, the best breed  
of draft horses in existence

Visitors Welcome. Correspondence Solicited

NEW ENGLAND.

THE ONLY ONE PUBLISHED IN THE SIX  
STATES. Rates, 10c. per year; contains 20  
pages. Sample copy sent free for stamp.  
Send 60 cents and try it a year. It has con-  
tributors in almost every State and Terri-  
tory, in the Union. Address

H. A. POOLE,  
Mechanic Falls, Maine

## GENUINE

## Rose-Comb White Leghorn

C. F. BARBER, - Breeder.

This variety of Leghorn is rapidly taking the  
place of the old style White Leghorn, on ac-  
count of advantage gained in having the  
Rose-Comb. They are pure white, graceful  
and handsome, non-setters and probably the  
best layers; eggs large and fine. They are  
hardy and healthy, mature early, and begin  
laying in early fall. In fine they possess all  
good points connected with the (White)  
Leghorn blood.

A few Cockerels for sale this fall. Eggs for  
sale in spring. Address for terms, etc.,

CHAS. F. BARBER,  
Ithaca, N. Y.

## Clark's Hay Elevator, and Carrier.

WHAT OUR CARRIER HAS DONE.

Nineteen loads of hay weighing over a  
ton each have been unloaded in three hours,  
each load being pitched off at four forks full  
in from two to four minutes. We have tes-  
timonial from reliable farmers stating that  
they have unloaded 2,500 pounds of hay in  
less than two minutes. Hay can be pitched  
into the barn from the gable end as well as  
from the barn floor, and can be pitched  
from the bay as well as into it.

FOR STACKING we guarantee that our  
Carrier has no equal. In the far West it  
has been used quite extensively with the  
best possible results.

ANY FORK can be used with the Car-  
rier, and as most every farming section has  
its favorite fork, we do not presume to say  
which is best.

THE CARRIER adjusts itself to any  
position on the tracks so that it makes no  
difference whether the load stand under the  
crack or twenty feet away. This is an ad-  
vantage possessed by few Carriers, and is a  
very essential one if you wish to fill the barn  
floor with hay or grain.

## Our Offer.

Upon written application we will send  
one of our Hay Carriers, on trial, to any re-  
sponsible farmer in the United States or  
Canada, with the understanding that if it  
performs its work fully up to the warranty,  
he shall pay us our advertised price for it.  
If it does not perform according to contract,  
it may be returned to us, we paying the re-  
turn freight charges.

Price of Hay Carrier, Com-  
plete, \$15.00.

Reliable agents wanted in over farming  
community in Canada and the United  
States. For further particulars address

**James Rennie, General Agent**  
TORONTO, CANADA.
