

Prices of Building Materials.

CONDITION OF THE MARKET.

TORONTO: The feature of the market this week has been a drop in the price of cut nails. Following the collapse of the nail combine in the United States, American manufacturers made a strong effort to capture Canadian trade, and at a meeting of Ontario manufacturers a reduction of 45 cents per keg was decided upon in order to meet the competition. The price is now \$2.30, with a rebate in car lots of 7 1/2 cents per keg. The lowering in price has not stimulated trade, there being little demand. Wire nails are more active. Cement jobbers are getting in their winter supplies, but few sales are effected. Iron pipe and galvanized iron are selling freely at firm quotations.

MONTREAL: No material change has taken place in the market. The general tone of business is perhaps slightly improved, and some lines are moving freely. Among these are iron pipe, galvanized iron and building paper. A fair business is also doing in fire-bricks and cement, at the advanced quotations. The stock of cement is larger than was at first anticipated, and will be ample for the winter's trade; consequently, values are likely to rule steady. Glass and paints and oils are dull and featureless.
