

General Diversity Programs

Statistics Canada

Statistics Canada has a recruitment and development program in the Social Science Support group to attract more designated employment equity group employees. A corporate assignments officer finds assignments for persons with disabilities and helps them integrate into their workplace.

A Partnership in Diversity on Prince Edward Island

This project combines the resources of several federal and provincial departments to implement a career development and assignment program which provides opportunities for advancement of persons with disabilities, members of visible minority groups and Aboriginal peoples in Prince Edward Island.
