

Canada and India have agreed to exchange information regarding the operation of this station and its counterpart, the Douglas Point Nuclear Generating Station now under construction in Canada. They have also agreed that the two stations shall be used only for peaceful purposes and the Agreement includes appropriate provisions to this end. A unique feature of the Agreement is that these provisions are completely reciprocal, conferring on India and Canada identical facilities for assuring themselves that both stations are being so used.

The two Agreements reflect the long-standing cooperation between Canada and India in the peaceful uses of atomic energy and will further strengthen the close and friendly relations between the two countries.
