business some years, has been in Bathurst re-  
cently pressing a settlement. It has been re-  
ported that the dissolution of several years ago  
was never formally or legally completed, and  
that Mr. Ferguson proposes to hold the former  
partners liable for their share of the firm's debts,  
but, until matters are further developed, nothing  
really definite can be said. Their liabilities  
must be heavy, and if a settlement of their diffi-  
culties cannot be arrived at, so as to permit of  
their resuming business, the effects will be  
serious to the section of country in which they  
have operated.—Among the events of the week may be  
classed the attachment of C. & G. Brooks

18 Bonsecours street.merchants, Sherbrooke. Mr. Charles Brooks,  
the senior of the firm, has long been one of the  
most prominent men of the Eastern Townships;  
a man of large ideas, foremost in every enter-  
prise which had for its object the general  
benefit, and highly respected by all. Mr.  
Brooks was one of the originators of the  
Eastern Townships Bank, and has held the  
position of director and vice-president in the  
institution for a number of years. The con-  
tinued depression of recent years has told  
severely upon his many outside interests, and it  
has been apparent to his creditors and others  
that his position has been anything but easy  
for some time past, and, though he has main-  
tained the struggle manfully, he has finally  
had to succumb to the force of circumstances.

Estimates for Manufacturing Blank Books furnish-  
ed on application.The liabilities will be large, probably \$75,000  
or more. Mr. Brooks at one time had nume-  
rous branch stores at Lennoxville, Waterville,  
Capelton and elsewhere, but these have all been  
closed or disposed of, and he had recently been  
devoting all his energies to the Sherbrooke  
business. It may be stated that some months  
ago, he showed an apparent surplus of about  
\$30,000, but this was largely in real estate, and  
compulsory liquidation would cause a serious  
shrinkage of these figures.A REPORTING MACHINE.—In the Italian sec-  
tion of the Paris Exhibition is to be seen a  
strange instrument, the invention of Signor  
Michela. It is not larger than a lady's work-  
box. There is a small key-board, like that of a  
diminutive piano, and a reel of paper. A girl,  
who is entirely ignorant of stenography, sits at  
the little machine, and "plays" a speech three  
hours long. She then reads it as quickly as  
one can speak. In fifteen days, without pre-  
vious knowledge or practice, proficiency may  
be acquired in the working of the apparatus.—
