THE FARMER'S WIFE

Is very careful about her churn. She scalds it thoroughly after using and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn-absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

them in the best possible condition for

healing.
The "All-Healing Salve" is a superior dressing for all open, running, or sup-purating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will eceive it by return post.

In treating all open sores, or ulcers, oils carbuncles and other swellings, it important that Dr. Pierce's Golden ledical Discovery be taken persistently purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its

cause in the blood. If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frenger distress in stomach, constipated regular bowels, sour or bitter rising after eating and poor appetite, of them, indicate that you are suffering from biliousness, torpid, or lazy liver with the usual accompanying indicestion, or dyspepsia and its attend-

The best agents known to medical science for the cure of the above symp-toms and conditions, as attested by the writings of leading teachers and practiners of all the schools of medical practice, have been skillfully and haroutly combined in Dr. Pierce's Easy to take as candy.

> Cures Woman's Weaknesses. We refer to that boon to weak, nerv-

us, suffering women known as Dr. Pierce's Favorite Prescription Dr. John Fyfe one of the Editoral staff of THE ECLECTIC MEDICAL RE-VIEW says of Unicorn root (Helonias Dioica) which is one of the chief ingre-

dients of the "Favorite Prescription" "A remedy which invariably acts as a uter-ine invigorator * * * makes for normal ac-tivity of the entire reproductive system." He continues "in Helonias we have a medicainvity of the entire reproductive system, "ife continues" in Helonias we have a medicament which more fully answers the above purposes than any other dray with which I am acquainted. In the treatment of diseases perculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorproot). Pain or aching in the back, with Jeucorrhea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhea (surpressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading in-gredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root another prominent ingredient of "Favorite Prescrip-tion," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Dr. Pierce's Favorite Prescription faithfully represents the above named ingredients and cures the diseases for which they are recommended.

The application by G. R. R. Cockburn to the master-in-chambers for particulars of certain paragraphs in the statement of claim with reference to the bill rendered by Frank Arnoldi, K.C., has been granted.

"It was urged in support of the motion," says the master in a lengthy judgment, "that some time prior to the 4th of March, plaintiff had asked defendant for \$5000 and plaintiff's subsequent letter of March 8 states that such demand was made for that sum on Feb. 13, only 'in consideration for defendant and for the purpose of immediate settlement, which plaintiff expected as a matter of common gratitude.' "On the other hand it was urged

"(1) Denying employment of plain-tiff in respect of anything else than the criminal charge, and
"(2) Denying that services for which he is liable were worth \$7500 or any greater sum than he is advised to pay

into court on that account. "Reference was made to the case of re Johnson, where the solicitor charged a lump sum (of \$3000, as appears by the bill filed with the taxing officer), to cover the services rendered by him in negotiations out of court ex tending over seven months. Of this no details were given, and the taxing

officer allowed it as \$3200.
"It was replied that that case was entirely different, as the proceeding was on a taxation and not, as here, by action. It was contended that defendant was entitled to know how the sum of \$7500 was arrived at, especially when it at first had been stated at sum of \$7500 was arrived at, especially when it at first had been stated at \$5000, and it was argued that such details could certainly be asked for on discovery. No objection was made on the ground that plaintiff was being asked to disclose his evidence. Had sked to disclose his evidence. Had the services of the plaintiff been rendered in a criminal action he would have been obliged to deliver a detailed bill before he could take any steps to recover from the defendant either

on taxation or by action.
Should Have Made Bargain. "It was open to the plaintiff to have made some definite bargain before un-dertaking the defendant's case. This s the course usually taken in criminal natters, and such a bargain would not come under the judgment in such eases as re McBrady and O'Connor-Here the plaintiff is avowed by suing on a quantum meruit, and on that basis he estimates his services at \$7500. "In view of the foregoing consider-ations, and of the fact that plaintiff has increased his original claim from \$5000 to \$7500. I think the defendant entitled to some particulars of such substantial claim and to know why has been so largely increased. The only question is whether he is entitled o all he has asked.

in Regulations to Hit Outside Companies.

A deputation of fire insurance agents waited on Hon. J. J. Foy yesterday

They desired some changes in the regulations governing their companies which would be of advantage to those

of purely Canadian character. It was suggested by the attorneygeneral that the requests be submitted in writing for fuller consideration. One point desired was that compan-ies not registered or licensed should when granted permits to do business in Ontario, have the fact made pub-lic. In case of violation of the act detections would then be easy. Another proposal was to tax the premiums collected in the province by foreign companies which have no

offices in Ontario. The following gentlemen were in attendance from the companies mentioned: H. M. Blackburn, Sun; D. Weissmiller, London Mutual; A. M. M. Kirkpatrick, Home; John B. SUNDAY IN QUEBEC. Better Observed Than in Ontario, Says Rev. Dr. Shearer.

Rev. Dr. Shearer has returned from a two weeks' tour of Quebec. He says that the Sabbath is observed much better there than in Ontario. He noticed two things in particular

to which this would apply, viz., the street cars didn't start running until moon on Sundays, so that all the citizens, almost all of whom were churchgoers, enjoyed quietness on the streets and, almost all the business houses closed their blinds, which was not true in Toronto as a general rule.

The Lond's Day Alliance is taking steps to have the owners of the steamer Frank J. Heckory prosecutod for breach of the Lord's Day Act. Rev. Dr. Shearer says the big vessel arrived last Sunday morning at Depot Harbor, and immediately over 100 men were set to work unloading the cargo. The boat contained 276, 000 bushels of grain, which was all oaded on cars and these made up into trains.

The vessel laid up at the dock all day Monday. The matter will be placed in hands of the crown attorney.
