Harbor Improvements.

Mayor Howland yesterday received a telegram from Hon. J. Israel Tartie in reference to improvements to Toronto harbor. The Minister of Public Works says he would be happy to receive suggestions from the City Engineer and states that Mr. Roy, the government engineer, who has already given the matter much attention, is at present ill.

The Mayor is preparing a detail of what the city really needs for the harbor.

School Board Matters.

An application for legislation to give the

An application for legislation to give the City Council power to revise the estimates of the School Boards, the latter to be bound to accept the reductions unless they were decided against by a two-thirds majority, was unanimously endorsed by the Board of Control yesterday.

Copies of the order of mandamus resulting from the School Board suit were received by the controllers, but no action was taken by the board. The bylaw which would be necessary in the event of a spewould be necessary in the event of a special levy being decided upon will be prepared in time for Monday.

Services Rewarded.

The temporary clerks in the Assessment Department will receive the increase of 'salary which was so strongly recommended by Assessment Commissioner Fleming. The Mayor demurred a little, but after it had been thoroly explained that some of these men have been employed by the city as long as 14 years and have received no increase in salary, while the best paid of them all does not get more than \$500 a year, it was conceded that their worth had increased. The increase of wages is 50c per day. Services Rewarded.

season. Mr. Taylor is to be congratulated upon the excellence thruout of the number.

"The Pinnacle of Piano Fame!"

Many makers are trying to reach it. As to 'The Bell," the race it has run and the proud place it has won to-day is no new story to the Canadian public.

The "New Bell Piano" has contributed to the advancement made in modern high-grade planosbuilding with such important improvements as the Grand Repeating Action, the Perfection Scale, the Bushed Pins and the Many-Toned Orchestral.

These are not abstract qualities, but visible virtues and values.

As a result the "New Bell Piano" stands for what is most conspicuously and artistically ornate and beautiful and of substantial utility in the piano products of the new century.

Tribute

I commend, with emphasis, the use of Shredded Whole Wheat Biscuits, not only as a general food for the family, but especially as a food which has merits peculiar to itself, and which ought to be known to every one who desires a strong and well-nourished frame. The food has no equal in the market as a nutrient of nerves,

It not only makes a delicious dish with cream, but it is unexcelled in the preparation of hundreds of dishes which enter into our daily diet. It ought to be a favorite with athletes, as it has no equal for giving strength and tone to the system. In its life-giving and sustaining properties it is especially to be commended to those who wish to fit their systems for endurance, activity and long-sustained pressure either upon the mental or physical organs.

APPEAL TO WEAKMEN

Are You Suffering from Varicocele, Nervous Debility, Loss of Vital Power, Loss of Ambition, Early Decay? | Will Cure You.

HOW MANY MEN ARE SUFFERING MISERIES FOR THE WANT OF A SIMPLE REMEDY? HOW MANY MEN ARE SUFFERING MISERIES FOR THE WANT OF A SIMPLE REMEDY? They do not live; they simply exist. In the faces of thousands can be read the story of a wasted life and blighted hopes; joys and pleasures are unknown to them because their vitality is being sapped. Varicocele, wasting drains, have exhausted Nature's Electrical forces and left them wrecks upon the shores of life. Many have sought in drugs and patent remedies to relieve their mental and physical suffering. They are soothed for a day, or maybe a week, falsely braced up, until, the effects of the drug wearing off like the momentary bracing of whiskey, they sink still lower in vitality, and, with hope exhausted, lose confidence in themselves and their fellow-man and decide to abandon all efforts to recover their power, feeling that there is no help for them. Man, do not sacrifice yourself in this way. Do not endure this living death while Nature holds out to you relief in the form of Electricity—that vital element of which, by a life of dissipation, you have deprived yourself—tearing down faster than Nature could rebuild. In this great restorative—Electricity—there is life and happiness for you. It restores power to the weak and indifferent; it builds up the weakened system, and by its vitalizing, stimulating cure it makes the blood jump through sluggish veins, increasing the circulation to every part, assisting Nature to carry off the impure matter which clogs up the wheels of life. If you are weak and sick, don't depend on the doctors or drugs any longer, but try

Dr. McLaughlin's Electric Belt,

The product of years of study, the realization of the fondest dreams of the weak and worn invalid.

It is not a toy Belt, but a powerful, life-giving Electric appliance, which is now recognized by the highest and best in the medical profession as the only certain means of restoring power to weak and vital organs. The strength is quickly restored by it and losses corrected. Rheumatic pains are quickly dispelled and all functions of the body developed and made strong. It sends the blood with a gladsome bound through the veins, carrying health to the body and happiness to the heart of

ANY MAN OR WOMAN WHO WILL SE-CURE ME CAN HAVE MY BELT AND PAY WHEN CURED

VIGOR OF YOUTH RESTORED IN A NIGHT.

HOW DOES IT CURE? How simple that is to me! Thave studied and developed upon it for years, and I will explain it to you as simply as I can. Your weakness is like the running down of the steam in the engine. There is not enough power in the nerves to make the physical body go. Nerve power is electricity. Electricity runs your body just as it runs an electric car, when there is eaough power. If the power is short the car won't run. Neither will your body. Now, when you have overtaxed Nature, when you have been dissipating too freely, you have drained away the reserve vitality and caused injury to the nerves and glands which retain the vital force, so that you are now subject to a constant drain of this power. You are losing it fast. You have never regained what you originally lost, and retain the vital force, so that you are now subject to a constant drain of this power. You are losing it fast. You have never night. They drink it up gladly, never will until drain is stopped. I can stop it, and cure. My Belt pours electricity into your impoverished nerves for hours every night. They drink it up gladly, absorb it and retain it. They expand and develop under its influence. They get strong and the drain is stopped: they grow in size and power daily, your step becomes absorb it and retain it. They expand and develop under its influence. They get strong and the drain is stopped: they grow in size and power daily, your step becomes quicker, and you look into the glass and see a MAN; you are CURED? RESTORED! MADE OVER! and the sun shines gladly upon your future. "The world is mine," you say, and the people in it proclaim you a man. So my belt cures you, and when you pay for it you make an investment which returns you more profit than any that has ever been made by man.

CAUTION! If you value your health, do not accept an imitation of my Belt. There are many on the market. Old style, blistering scorchers, whose only merit is their ability to burn and soar the flesh, are being offered with a cheap imitation of my Cushion Electrode. But it is a sham. Don't accept it. The best is none too good when you want your health, your vigor; so avoid imitations. The cushion electrode is my special invention. Without it all electric belts blister and burn holes in the flesh and can do no good. I take the other belts in trade.

FREE BOOK Every man who admires the perfection of physical strength should read my beautifully illustrated book. It tells how strength is lost and how I restore it with my Electric Belt. I will send this book, closely sealed, free upon request if you will send this ad. If you are
