London, July 19.—Replying to a question by Capt. R. F. Peel, member for Woodbridge. Mr. Bonar Law, chancellor of the exchequer, in the House of Commons yesterday, said he feared some livergence in practice between different parts of the Empire in the treatment of enemies and enemy property was inevitable, owing to the fact that circumstances in different parts of the Empire were varied. NORTHERN SECTION OF MURMAN ROAD TAKEN BY ALLIES

British, French, American and Serbian Fores Landed

Amsterdam, July 19.—Rear-Admiral Kemp of the British navy has proclaimed the occupation of the northern section of the Murman railway by Britsh, American, French and Serbian sh, American, French and Serbian orces, says Max Behrmann, the Stockholm correspondent of the Berlin Vossische Zeitung, under date of July 16. The admiral, he adds, also announced that the forces would advance southward "in accordance with the local soviet authorities and at the request of the local population for help." ward 'in accordance with the request of the local population for help."

Behrmann says that there are no Soviet authorities in the whole Murman territory. On the entire 400-mile stretch of railroad only at half a dozen main points are there a sort of rudimentary political organizations. The largest of these is at Alexandrovsk, comprising 400 persons, while the one at Kem has 400 members. These communities, Behrmann declares, were until some months ago Bolsheviki, but since they have split into numerous parties whose services go to the highest bidder.

Behrmann further alleges regarding "a request for help from the population" that two obscure Russians, one an ex-convict and the other a former gendarme, have been traveling around in the interests of the Allies collecting adhesions to the requests by threats or bribery.

adhesions to the requests by threats or bribery.

The newspaper prints an Archangel message to the Isvestia of Moscow which mentions the arrival there of Italian and Serbian officers and men, who, it declares, were disarmed and expelled by the local soviets.

A zoologist named Schmidt who has just returned to Petrograd from a trip to North Russia, reports, according to the Nord Deutsche Allgemeine Zeitung, that the British are busy making Kem a strongly fortified place and that the garrison is well supplied with food from England.

Wheat Reserves Absolutely Safe, Reports Food Boss.

London, July 19.—Wheat reserves in Great Britain now are absolutely safe, even if the war lasts a considerable time, said John R. Clynes, the food minister, in a speech last night at Manchester. This situation will enable the Government to release a greater quantity from reserves and also to improve the quality of flour soon.

Mr. Clynes also announced an impending improvement in the meat supply. He said that instead of the present 70 per cent imported and 30 per cent domestic, the proportions would be reversed, but that the amount of meat imported would be nearer 20 than 30 per cent.

SOLDIERS PATRONIZING NEW HOSTEL EAGERLY

Adjutant W. Adams, who is in charge of the new Salvation Army Hostel, situated in the site of the old Hotel Cecil, is greatly pleased with the opening few days of this building. He reports that the number of attendants on the first night has been tripled in the same number of days, and he expects that by this Sunday the building will be half full.

The soldiers are becoming acquainted and are taking advantage of the free notepaper offered by the organization, as well as the music sheets and piano, and in return are patronizing the lunch counter in an exceptionally fine style.

Adjutant Adams reports everything as being on the optimistic side, and if business keeps on increasing at such a rate as it has this opening week, larger quarters will have to be sought.

GRAND SMASHING OF FOE'S RAILWAY STOCK BY BRITISH AIRMEN

London, July 19, via Reuter's Ottawa Agency.—The press bureau issues a striking photograph of the damage caused by the raids of the British independent air forces on the German railway systems. At Metz-Sablons it shows exceptionally destructive bursts in the engine sheds and workshops, the remains of two incinerated trains, and great damage to the network of lines.

A significant feature is the almost complete absence of rolling stock, thus showing that the 21 raids since June 21 upon this important junction has materially reduced the enemy's war traffic.

SOAR HARDWARE PRICES

"Hardware and Metal," July 20, wil Another eight to ten-cent advance in linseed oil has been recorded during the week, and the future is one of decided uncertainty. Most certainly lower prices are not looked for and that even higher levels may be reached seems quite possible. Seed shows another jump in price for the week, and the outlook for supplies is none too bright.

Mixed paints are in a very firm position, and that a higher level of prices will be reached seems more than likely. The advances in linseed oil, with prospects of further ones being made, coupled with the recent advances made in white lead in oil, are considered factors.

Eavetrough, conductor pipe, ridge roll and kindred lines have made an advance of 10 per cent during the week. This follows higher prices named on corrugated sheets, metal ceilings and shingles some time ago, and is in line with predictions made in "Hardware and Metal" at that time.

Revised prices are announced on tarred roofing felt, tarred and dry building paper, coal tar, roofing cement and beavy dry and tarred strawboard. The Another eight to ten-cent advance in nseed oil has been recorded during the

DECIDE TO HOLD PICNIC St. George's Society Will Arrange for An Outing.

St. George's Society will hold a picnic this year. This was decided upon at a meeting held last evening, and several sub-committees were named to arrange the details. They will also decide upon the date and the place where it will be held. Another meeting will be held in the near future.

The report of the membership committee showed that the efforts which the 1918 officers have put forth to increase the society roll have resulted in a large increase.
