

TWELVE RETURNED OFFICER DEAD AS RESULT OF REVOLVER ACCIDENT

Toronto, Sept. 19.—John Charles Scott, a former lieutenant in the Canadian expeditionary forces, 23 years of age, was found dead this evening by his mother in the apartments which his family occupy. Lieut. Scott had accidentally shot himself with a large-calibre revolver.

Police officers who investigated the fatality report that it was an accident.

If Breath Comes Hard,
If Nose Is Plugged,
You Have Catarrh

Perhaps you haven't heard of the new remedy—it's so popular to use with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The range of this grand specific is Catarrh, and you can't find it equal on earth for coughs, colds, catarrh or throat trouble. You get it no longer necessary to drug the stomach—that spoils digestion—simply inhale the balsamic essences of Catarrhine, which are so rich in healing that they drive out every trace of Catarrh in no time.

For sore throats and persons troubled with an irritable throat, bronchitis, asthma, catarrh or a gripe, Catarrhine is of inestimable value. The inhaler can be used at any time and may be used at any time in any place.

WASTE OF MONEY
Forbidding Export of Hides
Is Called "Economic
Insanity."

OTTAWA, Sept. 19.—The new board of commerce appointed by the Government to curb profiteering and take other steps for decreasing the cost of living in Canada, came in for some severe criticism at the hands of members of both sides in the House of Commons today. Mr. Michael Clark of Red Deer started the adverse comment when he started to speak on a resolution providing for an amendment to the board of commerce act, which would increase the number of members from 10 to 15, and the other two members at \$8,000 each.

Mr. Clark, the money spent on it was being wasted. This commission, he said, had actually gone to the length of threatening to forbid export of hides, which would suggest that he was on the verge of "economic insanity." The wheat board was kept in the price of wheat up; the board of commerce was threatening to cut off export to force prices down. Both boards, he said, had been appointed by the Government.

Donald Sutherland thought that an inquiry should be made into statements appearing in the newspapers and credit reports, he said, that the board of commerce was threatening to cut off export of hides, which would suggest that he was on the verge of "economic insanity." The wheat board was kept in the price of wheat up; the board of commerce was threatening to cut off export to force prices down. Both boards, he said, had been appointed by the Government.

When this man threatens all kinds of business, Mr. Nesbitt went on, there is certainly no encouragement for anyone to try to make a business success and improve production. I hope he will not be so keen on advertising what he is going to do, but will go and do it," added Mr. Nesbitt.

The Opposition side J. A. Robb said there was an impression in the public mind that the commissioners who were advertising themselves as opposed to profiteers were themselves members of the profiteering class. He said that at least one of the commissioners was not getting near the salary prior to 1914 that he was now receiving. One of the commissioners had threatened to cut off exports in July if they put up the price of milk.

Defended Robson, chairman of the board, was defended by R. L. Richardson as a man who had proven his reliability and capability. He thought that Mr. O'Connor would probably learn discretion by association with the chairmen of the board.

D. D. McKenzie had a good word for the commissioners, saying that the board must make it known in the country that it existed. Conditions must be put in force the commissioners to prohibit the exportation of certain articles. Referring to Mr. O'Connor, he said that the commissioner was not the kind of

man to blow his own horn unless he had been spoiled since coming to Ottawa.

Mr. C. J. Doherty suggested that in order to be perfectly fair to the commission, the House should not rely upon newspaper reports without further evidence. The bill was finally given first reading, and the House adjourned.

Mr. MacMaster added that if the board was a court, then the commissioners must behave as judges. If they did not, the minister of justice must lay his hands kindly and restraining upon them.

Mr. MacMaster went on to say that the price of milk could not be controlled without the price of cheese, butter and beef being controlled. If the price of milk was kept down below what it would pay the farmer to separate it, it would simply mean a reduction in the supply of milk.

Donald Sutherland thought that inquiry should be made into statements appearing in the newspapers credited to Mr. O'Connor of the board of commerce. When they first appeared, he said, he assumed that the assistant commissioner had been printed by several newspapers, and it would appear that the press was altogether in error. He argued that the House in proceeding with the legislation before it was indulging the commissioners and their statements.

Mr. Sutherland objected to the lack of representation of the agricultural interests at the national industrial conference. He closed by saying that the increase of the salaries of the men was not in keeping with statements they have been making in the past few days.

Too Many Commissions.
John Best remarked that there were too many commissions in the country. Was this country, he asked, to be run by commissions? It was a mistake to have men on the board making decisions with regard to agricultural products who did not produce from a sheep or potatoes from a buckwheat.

At this point, S. W. Jacobs arose to a point of order. The minister of justice, he said, had stated that members of the board of commerce were being made by members upon them were quite unparliamentary.

Deputy Speaker Bolvin ruled that the point was well taken.

AGED MAN CONFESSES MURDER OF HIS 19-YEAR-OLD DAUGHTER

KANSAS CITY, Mo., Sept. 19.—Confessing murder of his 19-year-old daughter, Louellen, 23 years ago, according to the officer who had him in custody, Robert Hicks, 75 years old, today was taken to Springfield, Mo., to stand trial.

The girl's death had remained a mystery until August 30 last, when the aged man was taken to a hospital. He was found strangling her with a piece of cord.

A manslaughter arose, according to a statement Hicks made in his cell here, over a girl receiving a young man's attentions. Louellen, threatened to shoot him, he said, when he objected to her suit. Then, he strangled her and fled to Washington, where he since has lived.

KITCHENER, Sept. 19.—The Ontario Government by failing to set the standard of wages high, was responsible for the children of labor people getting less efficient than those of the middle class, it was charged last night at the door of the Waterloo Labor party.

The gathering was large and enthusiastic. George Haeffel was the choice as Labor candidate in the riding.

Mr. Humoth, who is a Labor candidate in South Waterloo, blamed the Government, because, he claimed, the best teachers had been driven into other more lucrative professions, and that the children did not benefit as a result.

It was Up To Labor, he said, to see that this was remedied. He also sharply criticized the Government for placing the prohibition issue in its present position.

Prohibition should be abolished, he said, and the first place, he declared, and settled once for all. He also made a strong plea for mothers' pensions.

Others proposed as candidates in addition to Mr. Haeffel were E. Bohlender, Philip Haeffel, S. Klein, Walter, Dr. J. E. Hett, George Zimmerman, O. H. Hughes. All but the two last named withdrew.

Mr. Haeffel was elected, Zimmerman on the next ballot, 73 to 66. It was a unanimous vote. Mr. Haeffel made a unanimous vote of enthusiasm for Mr. Haeffel. Indications are that Labor is coming out much stronger than was expected.

ANNOUNCE DATE OF FRENCH ELECTIONS WHEN PACT RATIFIED

Clemenceau Refuses To Make
Announcement Until This
Is Done.

PARIS, Sept. 19.—(Associated Press).—Premier Clemenceau's intervention in the debate on the electoral law, which threatened to be prolonged indefinitely, settled the discussion in a few minutes.

If the Government taking the stand today to the law of July last, providing for proportional representation, the debate on the subject had been going on in morning sessions for nearly three weeks.

The solution is considered in parliamentary circles to be a great step toward the prompt prorogation of the chamber and subsequent elections.

Premier Clemenceau refused to announce that he fixed a date for the elections, saying: "I will inform the chamber of the date of the election."

The premier made stinging replies to the personal attacks of the Socialists.

COAL MINERS WANT ABOUT 60 PER CENT INCREASE IN WAGES

May Go On Strike November 1, Unless Demands Are Granted.

CLEVELAND, Ohio, Sept. 19.—The wage scale demands to be presented to the coal operators in the central competitive field of Ohio, Illinois and West Virginia, which will serve as the basis of relative wage scales in all the bituminous fields of the country, will be submitted to the convention of the United Mine Workers of America Monday or Tuesday morning at the latest.

Attempts will be made to make the instructions of the convention on the amount of the increase (presumably about 60 per cent), and the shortening of working hours to six hours daily, five days a week, absolutely mandatory upon the miners' representatives in the joint scale conference at Buffalo, September 25, and to direct them either to obtain recognition of these principles without change or to call a general strike of the miners of the country in a general strike November 1.
