LIKE A TIDAL WAVE

Heart Disease and Nerve Troubles Sweep the Country.

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today. The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain.

On the first approach of any breakdown of the system Milburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvelous.

Mr. W. A. Wright, Hopewell avenue, Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Milburn's Heart and Nerve Pills had done for others who had the same symptoms and thought I would give them a trial. Believe me, six boxes cured me completely. I am feeling fine now, and can attend to my work every day. I can recommend your pills to anyone suffering as I did."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

CURZON SPEECH SHOWS TURKISH TANGLE SERIOUS

Complications in Syria and Mesopotamia Cause Anxiety.

CONSTANTINOPLE IS CALM

Ottoman Officials Appear To Watch Allied Show Indifferently.

LONDON, March 12.—(Associated Press.)—Earl Curzon's speech on the Turkish problem, made in the House of Lords yesterday, and other official and unofficial statements on the subject, are generally regarded as showing that the Near East tangle is quite serious, and is causing the authorities some anxiety—increased by complications threatened in connection with Syria and Mesopotamia.

The shadow of Indian and Moslem opinion darkens the problem, and it is believed influences the councils of the Allies more than is always immediately apparent. The suggestion that the employment of force against the Turks might excite general hostility in the Mussulman world is regarded as a factor which cannot safely be ignored. In some quarters the feeling prevails that there is danger if the Turks are pressed by the Allies, and that the British and other Moslem troops in the service of the Allies are evidently based on these fears.

Careful watch is being kept here on the outcome of the Syrian congress at Damascus, and it is understood any decision or proposal by the peace conference regarding Syria would be purely tentative.

France Given Mandate. Among the day's reports was one that France had been given a mandate over Cilicia, but this was unconfirmed. It was rumored in some quarters that France's hands are too full to undertake this responsibility. Great Britain is similarly regarded as too busy to take on the mandate for the same reason. The league of nations is looked to as the only hope of protecting Turkey's non-Moslem subjects.

Earl Curzon's statement attributing the cause of the Turkish trouble to a rivalry between the United States and the British Empire, and the fact that the settlement had been taken a year ago when Turkey was militarily humbled, the present trouble would not have arisen. Reports are current that Bolshevik activities directed against the Allies, have cropped out in co-operation with the Turkish Nationalists and in Nearer India. It is also stated that specially trained Bolshevik propagandists have installed printing presses at Afghanistan, where pamphlets are written in the vernacular, with a view to undermining British authority in India and stirring up trouble on the Afghan border are being produced.

OTTOMANS UNCONCERNED. CONSTANTINOPLE, March 12.—(By the Associated Press.)—Numerous dispatches from London and Paris, announcing that the supreme council has decided to take drastic action at Constantinople to prevent the killing of Christians and enforce peace terms more radical than were contemplated before the trouble at Marash have been received with apparent indifference by the Turks, the only effect being the designation of a slightly changed cabinet.

Turkish officials are watching without any evidence of concern the movement in London to force them out of Europe, and the printing of a dispatch reporting that President Wilson would insist that the Sultan must leave Constantinople caused scarcely a ripple.

Watch Indifferently. The allied naval displays in the Bosphorus and the British and French naval parades in the streets of Constantinople were watched indifferently by the people. The Black, Marmara and Aegean Seas are alive with allied warships ready to co-operate with land forces in the defence of the straits and enforcement of a blockade should such action be taken. The British have four battleships of the Iron Duke class, four cruisers of the Cardiff class, six destroyers of the Stord class, two destroyers of the Tomahawk class and five super-dreadnoughts of the Revenge class within easy reach of the straits, with several other warships convenient to the Golden Horn or the Bosphorus.

Two Italian Battleships. The Italians have two battleships, one cruiser, and two destroyers in the vicinity. The French have two modern battleships, two destroyers, two cruisers, two sloops, and one transport, the Greeks the battleship Kilkis (formerly the U. S. S. Idaho) and two destroyers and the United States has six destroyers, the cruiser Galveston and several small craft.

BEER REMAINS WEAK AS EVER, REPLIES RANEY

Attorney-General Refuses Recent Request of Brewers.

REFERS TO REFERENDUM

Says Government Pledged To Carry Out Desire of the Voters.

[Special to The Advertiser.] TORONTO, March 12.—There will be no stronger beer for Ontario than that now allowed to be sold. The Government refuses the request of the brewers for permission to sell beer of two and a half per cent alcohol. In reply to a memorandum submitted by the brewers, Hon. W. E. Ranev states by reference to the vote of the people of the province on the referendum. "The Government is pledged to carry out the will of the people, as expressed in the referendum vote, and it seems quite impossible to consider again the argument which was passed on by the people themselves."

The brewers requested that they be allowed to sell beer of two and a half per cent alcohol. The present maximum is two and a half per cent proof spirits.

HIGH PRICES TAKE BEEF OFF TABLE

WASHINGTON, D.C., March 12.—High retail prices in 1919 reduced the per capita consumption of beef in the United States almost eight pounds, and substituted veal and mutton on the average family menu. The total meat consumption per capita in 1919 was 141 against 150 in the previous year.

RUSSIANS FLIPSE NAPOLEON'S RETREAT

LONDON, March 12.—Thirty thousand non-Bolshevik Russians, after cutting their way through the Bolshevik forces in Siberia and marching 2,000 miles, have arrived at Verkhne-Udinsk, according to a telegram received by John Ward, member of the House of Commons, from Gen. Horvath at Harbin. They consist of workmen and peasants from the Volga district, the Urals and Western Siberia, who formed a division under Gen. Vritchevsky, and it had been feared that they were destroyed or absorbed by the Bolsheviks since the defeat of Admiral Kolchak, former head of the all-Russian Government. Gen. Horvath appeals to Mr. Ward to persuade England to send food and clothing, as all are suffering from starvation, and the terrible privation during their march through the Siberian winter, and no stores are available in Trans-Baikalia to meet the sudden increase in population.
