He suggested an export tax of ten per cent on print paper. This would bring in millions in revenue yearly. Canadian publishers of small papers were being forced to the fall, because of high prices and shortage of newsprint, but millions of dollars' worth of paper was being exported annually.

Local Anglers' Association Behind Excellent Move-Minister of Fisherie's Promises Action.

Through the efforts of the London ranch of the Ontario Forest, Fish and Jame Association and Dr. H. A. Sterenson, M. P. P., the River Thames in the near future will be restocked with fish, and the old-time fishing success of local anglers will likely return next season. The London branch of the sabove association, of which William Smith is president and Ernest Heard secretary, has a strength of 400 members at present, and when a committee recently appointed by this organization interviewed the minister of fisherties at Toronto he promised to restock the Thames at once.

About six years ago there were bass, pike and pickerel in abundance, and also many trout in this district, but local anglers claim that during the last local anglers are confident that the local organized anglers are confident that the local organized anglers are confident that the organized anglers are confident that the local organized anglers are confident that the organized anglers are confident that the organized anglers are confident that the local organized anglers are confident that the local organized anglers are confident that the organized anglers are confident that the local organized anglers are confident that the l

Former Italian Premier Says Two Dangers Confront Country.

COLOSSAL DEFICIT

Revision of War Contracts and Return of Excess Profits Advised.

Rome, May 28.—Italy expects from her cabinet a program of true recon-struction, according to Former Premier Giolitti, in an interview published to-Glolitti, in an interview published today in the Tribuna. He declared there
were two dangers threatening the
country, the discredit of parliament and
disastrous financial conditions.

"In the last twelve months Italy's
deficit has reached 18,000,000,000 lire,"
he said, "while in 52 years—from 1862
to 1914—it was not over 14,000,000,000.
This possibly has been only because
parliamentary control over finances
has been lacking, but it means going
straight to bankruptcy if expenses are
not immediately stopped: To insure a
large income, two principal means exist: Revision of contracts concluded by
the government during the war, and
the taking back of the amounts paid
beyond the honest price and the rigid beyond the honest price and the rigid application of a tax on inheritances."
