BRITISH EMBARGO LITTLE TROUBLING CATTLE BREEDERS

Ontario Government is Ad- vised Not to Seek Its Removal.

DOHERTY FOR ENGLAND

The British embargo on Canadian cattle was the subject of a lively de- bate in the legislature yesterday when it was made clear that its removal was not by any means universally desired.

Mr. C. C. Doherty, minister of agri- culture, in view of the high cost of transportation and charges, it did not amount to much anyway.

Conservative Leader Ferguson also thought that Ontario cattle should be allowed to remain on the farms here.

The premier announced that he had never had any intention, as reported in the papers, of going to England in an effort to have the embargo raised.

Hon. Manning Doherty, minister of agriculture, would go.

Hon. W. R. Rollo, minister of labor, informed M. M. MacBride that he had no information regarding the report that old country girls were being brought out to this country under a contract system.

Presented Flag to House.

Hon. F. C. Biggs formally presented to the house the torn pieces of the old flag which flew over the parliament building on the day it was opened. The flag is the gift of Col. J. M. Delamere.

In answer to Liberal Leader Dewar, the attorney-general said Mr. Manning Doherty had not ordered no services to the present govern- ment and Acting Crown Attorney Hughes of Toronto had been appointed temporarily. When the office was filled the new incumbent would be debarred from private practice.

Mimico's Bill Passed.

Mimico's bill to allow the town council to appropriate the share of cost to be paid by property owners whose property abuts on the new trunk sewers and the corporation's share passed the private bills com- mittee yesterday morning. The bill empowers the council, by a three- fourths vote, to set a rate under the local improvement act.

The bill allowing Belleville to is- sue debentures for \$30,000 to cover share of purchase price of the Bel- ville and Prince Edward county bridges passed.

The bill to permit the provincial synod of the Church of England to hold vestry meetings at any time dur- ing the year instead of at Easter, passed without comment.

Kingston had a bill passed which exempts for five years from all tax- ation, including school and local im- provements, all dwelling houses built in 1920-21 up to the value of \$2,500.

AGRICULTURE FIRST

Hon. Manning Doherty stated that the cabinet had decided that it is not for the government to assist fall financially which ne- glect the agricultural side and at- tempt to run the country on a local im- provement end. Sideshowers are more prevalent at these fairs than he wishes to see. Agricultural repre- sentatives, he said, will be under the control and direction of local ad- min- istrators.

Yesterday's meeting of the local Council of Women marked the beginning of a new year, being the first of the presidency of Mrs. R. J. Smythe. In her presidential address Mrs. Smythe referred to the fact that she had spent three years in the or- ganization as recording secretary, and that when brought into the council office that had given her a fair in- sight into the good work of the council. She also reviewed the many ob- jects which had been taken up and worked since its inception 27 years ago. Looking over past records the name of Dr. Stowe-Gullen, now pro- vidential president, was found throught interested in many projects. Things to be worked on in a particular way, as pointed out by the president, were the employment of a woman magis- trate and the procuring of the estab- lishment of a women's court.

Replying to the president's address, Dr. Cullen thought the council ought to be congratulated in getting Mrs. Smythe as its head and bespoke the co-operation of all for the work of the year.

Striking out of the correspondence a discussion took place of the need of a meat sold for food. One of the speakers pointed out that cattle are sometimes killed on the farm and that when brought into the city for sale the casual buyers would not know that the meat was unfit for food. A difficulty in the way of im- proving the situation was the small number of inspectors that would be required, was stated; still that something should be done was the opinion of the council, and Dr. Stowe- Gullen moved that the council ask the Ontario legislature to support Mr. Hill's bill (87) on the subject.

Want Recognition.

A deputation from the Meadow- brook Farm Commission, including Brig-Gen. Buckford, Lt.-Col. Price, M.L.A., and Col. R. W. Gregory of St. Catharines, waited upon the Drury cabinet yesterday to ask that the government officially recognize the work being done for returned sol- diers near Niagara-on-the-Lake.

Aid for University.

The recommendation is made by the royal commission on university finances that Toronto University be granted one-half the annual revenue from succession duties, according to a high government official. This would vary the sum of about \$1,700,000 to cover running expenses for the present session, as against the university's estimated budget of about \$2,000,000.

DEFER DECISION ON POLICY.

Judge Denton yesterday reserved his decision in the suit of Clarence Richardson against the O.F. for \$831, alleged to be due him under a policy on the life of his father, the late C. W. Richardson, in which he alleged that he was named as one of the beneficiaries.
