

MEDICAL OFFICER'S REPORT FOR 1869.

The Health Officer reports that in accordance with the rules of the Institution, he has visited the House of Industry regularly twice a week, during the past year, and oftener when the necessities of the inmates required it.

That he has visited the poor at their own residences in various parts of the city, at the request of members of the Committee, and holds himself in readiness at all times, to visit, and examine or prescribe for, the sick poor at their own homes, if requested by any member of the Board to do so.

He has great pleasure in reporting much less sickness in the House than in former years.

Thirteen have died during the year, viz : six women, five men, and two children.

The adults all died of diseases, either incident to old age, or the direct results of former irregularities, exposures, and privations, while the two children died of head affections, probably the result of inherited tendencies.

Respectfully submitted.

UZZIEL OGDEN, M. D.
