A Business Man's Mental Equipment

A clear brain is the most essential thing for a business man to have. Heavy meals at mid-day make the brain dull, inactive and cloudy. "BOVRIL" Bouillon and "BOVRIL" Sandwiches do not tax the digestive organs, and they contain all the necessary nutriment.

KELLEY AND THE BOSTON FENCE IN LEFT FIELD

Joe's Team Touted on Leading League in Home Runs in That Direction.

"It seems to me that the Boston team gained an advantage in the New York deal that has been generally overlooked by the baseball public," says George Moveland, the Pittsburgh baseball tactician. "That advantage is that the club gained three left field hitters. Dan McGann, Frank Bowman and Bill Dahlan all hit to left field; in fact, I doubt if they ever send one ball out of a hundred to any other field."

Now, this may not appear significant at first, but the fans must remember that the left field fence in Boston is a very short one, and that it is nothing in the least extraordinary to put a ball over that obstruction. Why, in the days of the famous old Beaneaters those fellows all practised left field slugging, and they considered it a poor day when they didn't make at least one home run among them.

"I'd like to wager a little coin right now, in spite of the money stringency, that the Boston team will lead the league in home runs next year. They play 77 games on those Boston grounds, and you overlook that left field fence. He will drill all his men in batting in that direction, and many a four-base swat will be scored, and practically the only right field avenger on the 1908 team will be George Brown. Ritzey clouts to left when batting left-handed, and Beaumont slams them even when right-handed. He is a fine slicer, and if he aims for over the left field fence many a ball will travel there."

"Yes, sir, it looks like a big advantage to me, and that fence alone should help the Boston team wonderfully, so far as getting runs scored is concerned."

BURNS & SHEPPARD'S WEEKLY LETTER.

With the new season's business now fairly opened up, we have had a pretty brisk week at the Repository, and the Canadian Horse Exchange, and the amount of trade done has been quite satisfactory. The demand now is good, and we have no trouble in disposing of all the horses of every class that are being consigned to us. Every week we are having western buyers around wanting carriages for shipment to that section, either sound or serviceably sound draughts and general purpose horses. Smaller buyers from different parts of Ontario and Quebec are as numerous as we ever have them to be, while there is a fair sale to city firms also. The prices we consider to be fully satisfactory, the trade does not appear to be much probability that they will this season reach the very high figures that were attained last year.

We have a large demand in view for our sales during the approaching weeks, and expect that prices will continue to range somewhere as follows:

Heavy-draughts, 5 to 8 years, and sound, \$18 to \$25; express, general purpose and delivery, \$10 to \$15; drivers and carriage horses, \$5 to \$8; second-hand workers and drivers, \$4 to \$10.

For next week's sales we will have the best consignment of fresh young horses of all classes shipped direct from the country that we have offered for many weeks together, a number of burly and useful, serviceably sound draught, delivery and drivers, sent in by city owners for sale without reserve. These will make up sales lists that will allow buyers of any class to select an excellent choice, and ample opportunity to suit themselves thoroughly. At Tuesday's sale we will clear our reserve a number of burly and sleighs of various patterns and in good condition, with work and driving harness, and a considerable quantity of sundry horse goods. Our sales of driving and stage horses are always particularly well worth the attention of all who require any such outfit, as the goods are generally of a high grade.

Western Athletes Up in Arms.

VANCOUVER, B.C., Jan. 17.—Western athletes are up in arms and will demand that they be selected to take a place on the committee and to organizations west of the Rockies that have been ignored by eastern clubs, but with such great distances and travel any disbanding of the best men in the West is a serious matter. It is reported from Vancouver that the White Star and the Canadian team will appeal to the committee in charge.

"That the west is being slighted is evident by the fact that no western man has been selected to take a place on the committee and to organizations west of the Rockies are indignant at the manner and methods of eastern men, who have not as yet asked western men to try out for places on the team. However, despite the attitude of the committee, Vancouverites are determined to have a representative at the great meet and if Chandler shows form being race here on Feb. 1 he will be sent, expenses being borne by the citizens of this city."

International Intercollegiate Meet.

NEW YORK, Jan. 17.—The members of the executive and advisory committee of the Inter-Collegiate American Athletic Association to-night held a meeting at the Fifth-avenue Hotel, at which suggestions were made and resolutions adopted to bring about an international inter-collegiate athletic meet in England this year between representatives of American universities and colleges and universities and colleges of England has dominated.

A letter from Gustavus T. Kirby, chairman of the advisory committee and also a member of the American committee for the Olympic games, sent to Lord Desborough, chairman of the British Olympic Council, was read. It suggested such an international meet during the week following the Olympic games in London this year.

A reply from Lord Desborough, as well as communications from the treasurers of the Oxford and Cambridge Athletic Clubs were received, giving promise of considering the proposition as soon as possible.
