Stresemann's Reply Is Favorably Received By French SPANISH ARMIES RISES IN REVOLT

FRANCE MAY MODIFY ITS ATTITUDE

Will Not Evacuate Ruhr, However, except as Payments are Made.

STRESEMANN REPLY
German Chancellor Says Passive Resistance Will Not Solve Problem

(Canadian Press Cable)
Paris, Sept. 13.—Chancellor Stresemann's reply to Premier Poincare's last speech has made a not unfavorable impression here although in the absence of a fuller report extended comment is reserved.

Le Matin, generally understood to be close to Poincare, considers that the German chancellor has taken a step forward without, however, succeeding in ridding himself of the false idea that an application of his scheme of mortgages on private property would be sufficient to justify evacuation of the Ruhr.

The French government, concludes the newspaper, stands by its position, which is unassailable. France may, of course, Le Matin adds, modify her regime in the Ruhr if Germany sets about paying, but she will not vacate the territory except in proportion as payments are made.

Resistance Useless.
Berlin, Sept. 13.—Chancellor Stresemann of Germany, addressing a meeting of newspaper editors yesterday, said that a solution of the Ruhr problem would never be reached by passive resistance and that Germany was ready to give real guarantees in order to secure the freedom of the occupied area. Without a solution of the foreign political dispute the financial collapse could not be settled and the collapse of the mark could not be restrained.

He advocated mortgages in favor of the Reich on state and private property or economic organizations as a pledge to the extent of a percentage of this property. These mortgages, he said, could be transferred to a trust ship as a real negotiable asset. The reparations creditors could participate actively in the administration of the trustship.

Baldwin to Meet Poincare.
Paris, Sept. 13.—It is quite probable that Premier Baldwin and Premier Poincare will meet while the British Premier is in Paris on his way to London from Aix Les Bains, says a semi-official announcement last night. "No date as yet has been set for the meeting." Information received in Paris from Aix Les Bains says Mr. Baldwin will leave there Sept. 20 and remain in Paris Sept. 21 and 22.

Premises Not Enough.
The hitch in the arrangements for the settlement of the Italo-Greek dispute has diverted the attention of Paris from the reported preparations being made in Berlin for a direct talk with France on reparations. While Government circles are remaining reluctant as to the prospect of early progress toward a Franco-German understanding it is being made plain in official circles here that Germany must come out with something better than promises in order to get the attention of Premier Poincare.

E. M. LOEW IS SUED FOR ENTICING WIFE

A. J. Richard, Motor Dealer, Seeks \$50,000 Damages From Theoretical Manager.

Boston, Sept. 13.—Elias M. Loew of Lynn, owner of a chain of motion picture theatres in that city, Lowell and Portland, Me., is named defendant in a suit for \$50,000, filed in the Suffolk Superior Court by Arthur J. Richard of Boston, automobile dealer and repairer, alleging that Loew has alienated the affections of his wife, Gladys, who no longer shares his home.

It was learned that the separation of husband and wife occurred about seven months ago through her alleged infatuation for the theatrical manager. Mrs. Richard is said to be visiting the Hollywood movie colony in California at the present time.

Reports that Loew, who is reputed to be the youngest "movie" director in the country, and very wealthy, was planning to join Mrs. Richard in the near future, and that the latter contemplated seeking a divorce so that she would be free to marry Loew, could not be confirmed. At his office in the Dreamland Theatre, Lynn, it was stated that Loew was in Portland.

The alleged infatuation is stated by Richard's lawyers to be of nearly two years' duration, and in the legal documents it is deposed that Loew gained the affection of Mrs. Richard, an exceptionally beautiful woman, enticed her to leave her home, and that the plaintiff lost her aid, comfort and society.

Baines, valued at \$10,000, located within the province. The action to secure the double tax has been brought by the Provincial Secretary Treasurer against the Marquis and Marchioness of Donagall jointly as executor and executrix.

\$6,000 DAMAGE IN FREDERICTON FIRE

Horses Removed As Barns Are Destroyed—Two Men Slightly Burned.
(Special to The Times.)
Fredericton, Sept. 13.—Damage, which was estimated this morning to total in the vicinity of \$6,000, was sustained last night as the result of a fire which broke out at 12:45 a. m. in the stable of the city hotel owned by W. H. Lint, and which spread to adjoining barns and sheds owned by H. C. Mackey, city assessor, F. S. Richards, manager of Busell's Dye Works, Budovitch Bros., hide dealers, and Abe Lavine, also a dealer in hides. The area in which the blaze was confined is a particularly congested one in which many buildings of wooden structure are located.

Horses Saved.
Two horses and a colt, owned by Dunbar's Bakery were the only animals stabled in the barns of the city hotel which were completely destroyed, the animals, however, being removed with some difficulty in safety.

Minor burns about the hands were sustained by Fraser Dunbar while engaged in rescuing his property while Mr. Richards also sustained burns about the hands while engaged at the Chateau Frontenac and did not leave his hotel for the golf course till 11.

The feature of the dance last night was the attention paid by the Prince to a New York newspaper woman, Miss Rene Stanley. This young woman was introduced to the Prince during the dance and he danced several times with her on one occasion ordering six encores.

The thoughtfulness of the Prince was illustrated this morning by his decision to pose specially again for press photographers. Yesterday at the dock the light conditions were not ideal and one camera man endeavored to get a snap of the Prince as he was coming out of his hotel. A secret service man, with, perhaps, more zeal than discretion knocked the photographer down. When this incident was brought to the attention of the Prince he expressed regret and then announced that he would pose specially for the picture men this afternoon on the steps of the hotel on his way to the train.

Two Inches Of Snow In Manitoba; Ice Covers Saskatchewan Ponds

Portage La Prairie, Man., Sept. 13.—Reports received here yesterday from points south of the Assiniboine River in the Portage district record the first snowstorm of the season. At Oakville and other points it began to snow during the night and when daylight came it showed to be about two inches on the ground, a real wintry day.

15 DEGREES OF FROST.
Saskatoon, Sept. 13.—One-quarter inch of ice lay on ponds and sloughs at Unity, Sask., today, following last night's heavy frost. Garden growth was killed and practically all standing grain was damaged to some extent.

2 BODIES FOUND

Word of Tragedy From North Country—One Has Throat Cut.

Kenora, Ont., Sept. 13.—The bodies of two men, both badly decomposed, have been found in the shallow Lake Umbagog north of Winnipeg river, according to reports received here. The throat of one man is reported to have been cut. Confirmation of the report had not been received here by local police authorities.

OFFICIALS GET A COOL RECEPTION

Ontario Governor and Premier Strike Cold Wave in North Country.

Toronto, Sept. 13.—Col. Harry Cockshutt, Lieutenant-Governor of Ontario, Premier G. Howard Ferguson and members of the Government party which arrived in the "north country" 200 miles north of here, this morning, to look over the railway and agricultural situation, received a rather cool reception, meteorologically speaking.

The weather north of the Canadian Pacific main line, from Ontario to the Pacific coast, was reported this morning as comparatively cool, for the season of the year. White River, Ont., the proverbial cold spot in civilized eastern Canada, failed to report the official temperature this morning, which in itself seems ominous. In the neighborhood of S. S. Marie snow was reported, while Winnipeg figures showed six degrees of frost during the night.

Toronto's 46 above zero as the lowest, was mild when placed beside Calgary's 32 and Edmonton's 28.

East of Ontario the reported temperatures are more reasonable.

Severe frosts are reported in the western provinces and the probabilities indicate that similar conditions may be experienced in some parts of Ontario and Quebec tonight or tomorrow.

The normal life of Barcelona is proceeding, although the state of siege has existed in reality since three o'clock this morning and a censorship has been established under the military authorities.

A sitting of the Cabinet which was held in connection with the proclamation issued by the Captain-General of the Barcelona district lasted until the early hours of the morning when a statement was issued to the press. (Continued on page 2, column 7.)

VOYAGERS MEET WITH TROUBLE

English Gentlemen Adventurer Have Ship Attacked At Los Angeles.

Los Angeles, Sept. 13.—Double misfortune has befallen a group of thirty fine British gentlemen adventurers who arrived at Los Angeles harbor recently on a path-finding voyage in the interest of an airplane flight across the world planned for next year by Captains Norman McMillan and G. H. Malines, of the Royal Air Force.

The first came yesterday when five crew officers searched their vessel, the Frontenier, and announced they had found about 65 gallons of whiskey and promptly attached the liquor on the boat.

The second misfortune came when a deputy U. S. marshal served notice on the command of the Frontenier Captain Spalding, that the vessel was attached in behalf of the Los Angeles Shipbuilding and Drydock Company for a claim of \$250 said to be due to repairs.

Contributed \$15,000.
The crew of the Frontenier is composed entirely of members of the Adventurers Club of London, who volunteered to serve without pay to the fun of the voyage. Several new working as deckhands, stokers, oiler and cooks have notable war records, it is said. The crew contributed \$15,000 toward the expedition.

The vessel left London June 16, last but turned in at Dover because of faulty engines, and started from there on Sept. 25. It passed Madeira and Santa Lucea and into the Pacific through the Panama Canal. It made a leisurely trip in the west coast, with some trouble from improper fuel, and arrived in Los Angeles harbor August 25, since when the crew has been fettered and dined by many individuals and organizations here.

The town, located on the Pacific side of Cape San Lucas, had a population of about 500 and officials here expressed the belief that most of them had escaped to high ground. The messages were sent from a steamer which was said to have cleared the Cape just before the tidal wave struck.

FLYER LEAVES TO TRY FOR RECORD

Cramer Away From Houston on Gulf-To-Canada No-Stop Flight.

Houston, Texas, Sept. 13.—Parker D. Cramer hopped off at 6:30 a. m. at Ellington Field, near here, in an attempt to shatter the Gulf-to-Canada no-stop flight record, made recently by Lieut. Scott Crocker.

Cramer steered a pigmy machine loaded with 700 pounds excess weight. His destination is Glendon, Penna., 75 miles north of Philadelphia and about 1,225 miles from here on an air line. Lieut. Crocker, in his Gulf-to-Canada trip used a La Havilland plane with a 400 horsepower Liberty motor. Compared to the machine in which Mr. Cramer will attempt to beat the U. S. army man's record, the De Havilland plane is a giant.

Cramer's home is in Pennsylvania.

Then the pair robbed him of \$200, a diamond ring and a watch and ransacked the apartment for other valuables. The two then escaped in an automobile which was waiting, its engine running and a woman at the wheel.
