THE NEWFOUNDLAND CRISIS.

Wholesale Bribery of Constituencies by Appropriations for Roads.

WHITEWAY GOES DAVIE "ONE BETTER"

The British Columbia System of "Moral The British Columbia System of Moral Suasion" Copied by the Eastern Colony Striking Similarity of the Plans of Campaign"—A Warning to Our Government to Stop Bribing the Yeople With Their Own Money.

Johns, Nfld., April 10.-The tele-

wire has already informed your

graph with the political crisis has arisen here of a very grave character, and one s likely to have far-reaching re-To comprehend its bearings it is necessary to go back to the elections of The result of those lections was that the government of Sir William Whiteway was sustained by a majority of 24 to 12. The issue was majority of the control of the contr that the government party would have such a sweeping majority. The opposialleging that the government had used od means to secure the return of many of their party, and had been guilty of bribery and corruption on an extensive scale, by expending large sums of public money on roads and other public works, for the most part in a wastoful and extravagant manner, just before solling day, so as to distribute immense mounts in the payment of wages among amounts in the pay thousands of laborers, thus influencing Not only, they declared, had the public funds been thus wasted, but an illegal use of them had been made to corrupt the constituencies and secure rotes in flagrant violation of the act bearon corrupt practices at elections, and the injury of the rights and privileges the candidates opposed to them. These allegations were followed by petitions against the return of no less than sevenneen members of the Whiteway party nine different electoral In this list were included the premier. colonial secretary, the surveyor-general receiver-general and the Hon. E. P. Morris, another member of the executive.

The act for the prevention of corrupt ractices at elections, now on our statute book, is of the most stringent character, being largely a transcript of the English act with some modifications to adapt it to local circumstances. Among other things it prohibits the giving of employment, by a candidate or his agents, to his electors, under such circumstances as show that such employment is extended and calculated to influence the votes of is possible for a government to hire the employees. It provides that each petition is to be tried by a judge of the supreme court, whose judgment in the matter is to be final.

it over in cash out of his own pocket. It

is worse, for it is wasting money design-

ed for real improvements and corrupt-

steamers ostensibly to carry round ballot boxes to polling booths, and to put these

steamers under control of government

candidates who can use them for elec-

tioneering purposes. The strange thing is that at the late election these things

were openly practiced on a large scale, while on the statute book is a most strin-

The first petition tried was that against the return of the Hon. H. B. Woods, surveyor-general, and Mr. Moores, his colleague, who were sitting members for colleague, who were sitting inclined to the district of Bay de Verde. Sir James gent act prohibiting such doings under the district of Bay de Verde. Sir James gent act prohibiting such doings under the penalty of loss of seat and disqualifi-Winter was the judge in this case. In-tense interest was awakened. The case for the petitioners occupied 15 days, and about 50 witnesses were examined. The defence and the closing addresses of counsel on both sides, together with a lengthened argument of some important law points which had been raised, occupied nearly a fortnight. At length, on the 27th of March, judgment was delivered by Sir James Winter. The public interest in the matter was shown by the crowded condition of the court room, and the eagerness discovered in every countenance. The judgment was a mastersive, impartial and marked by great abil-It went over the whole ground in an exhaustive manner and carefully analyzed the evidence adduced on both sides, clearly defining the law on the sub-There is but one opinion as to the eminent legal ability disclosed in this judgment, which is destined to be memorable in the history of the colony. Sir James' decision was that the charges against the respondents, as to giving emoloyment in Bay de Verde to large numbers of men in order to induce them to vote, are sustained against both respondents; that the charge against the respondent Woods of giving employment o voters in the district of Bay de Verde n the city of St. Johns, with the object of inducing them to vote, is also sustained; that three cases of personal bribery, by giving small sums of money to two individuals, and procuring a situation in the custom house for another in return for canvassing were also sustained: that the charge of sending home, by railway, voters from St. Johns, was bribery and an illegal practice and was fully sustained, the agency in this matter of the Hon.

Mr. Morris being established, but with-

out the knowledge of the respondent.

On these grounds Sir James held that

espondents are guilty of corrupt prac-

tices by themselves and by their agents,

but with and without their knowledge the governor, Sir Terence O'Brien, a few days ago, and requested him to dissolve the legislature. It is not known what and that the election is void. The dedeion, according to the act, unseats both respondents and disqualifies them for reasons they assigned for a new election standing as candidates during the continfour months after the last, no great isnance of the present legislature. sue, except these trials, having arisen. The proposal amounts to an acknowledg-In the course of his judgment Sir James pointed out that Mr. Woods, who ment that they cannot abide the issue of the trials now pending in which they are charged with bribery and corruption. had been returned a member for the district in 1889, had promised the people a road, which promise had not been fulfill-Should a dissolution be granted all the ed, and now that he was a candidate for consequences of the alleged malpractice re-election in 1893, he took measures to would be avoided. No one would be have this road constructed in order to disqualified, and the whole party configuration. secure his election, and he made it a condition with the executive that he should with a larger majority than before. dently reckon on a triumphant return be put in a position to fulfil his former this calculation I believe they are quite promise. Just before the close of the right. So far from attaching any blame session of 1893 a loan of \$100,000 was to the accused candidates, the great maauthorized by the legislature for the pur-pose of building roads to connect varidoubtedly regard them as heroes and ous districts with the new line of rail- martyrs who are persecuted for having the clauses in the proposed bylaw were pects. The mine from which the ore was Wellington. colonial government.

bribe because it is in connection with carrying out a public work. "Throughout the entire district of Bay de Verde," dissolution I should interfere with the said the judge, "during the last election, one subject occupied the attention and governed the action of the people—that was government money—chiefly road work. 'We'll vote for the man that gives us the work,' etc. This was the subject of most of the evidence of the witnesses. The only politics they knew the consequences of the misdeeds with which you are charged. The right course and the manly course is to abide the issue of the trials and carry through the business of the session, or else resign, and them I should send for the leader of the consequences.

witnesses. The only politics they knew or cared for was road work. By that, and that alone, their vote was determinand that alone, their vote was determinated by the opposition."

On such advice it is evident Sir William does not mean to act. He presses ed, and there was no reason to doubt | for a dissolution, and to enforce his ed, and there was no reason to doubt their evidence. The candidate (Mr. Woods, was in a position to bring into the canvass government money, as it was called, to arm himself for the contest. Mr. Woods' own address, on nomination day, proved that the work given by him to voters of the district in St. Johns, and the money he had received for a quorum. That Sir William would proved in the district ware intended to prevent the passage of a ground and the money he had received for a quorum. That Sir William would proved in the district ware intended to roads in the district were intended to influence the people's votes in his favor, and evidence showed that it had done so.

There was no pressing necessity for having the work done last fall, and, thereing the work done last fall depends now on the instructions from the colonial office, fore, the presumption was that it was given with a view of influencing the electorate." Such was, in substance, the utterance of the judge on these points.

As the evidence was clear and conclusive, especially Mr. Woods' own testimony, the judge had no alternative but to find solve rather than risk the loss of those that the charges were sustained and the | bills, and we shall be thrown into all the penalties were fixed by the act—namely loss of seat and disqualification.

horrible turmoil of a general election, at a cost of some \$50,000 and a result such a cost of some \$50,000 and a result such

the practices referred to are possible and can be carried on in such a glaring manner—namely, that money voted for one purpose by the legislature, could be used for quite another purpose, and to aid in the election of a government candidate.

The excitement here is very great. The mail from England, now on the way, is expected to bring a dispatch that will decide the question. Whatever may be the issue the whole affair is unfortunate the purpose, and to aid in the issue the whole affair is unfortunate.

The people of Ainsworth claim that It may seem strange to outsiders that as I have indicated. the election of a government candidate and greatly to be regretted. The charwith the knowledge and consent of the executive. In England, and I presume and that of our leading statesmen will in Canada, such a thing could not occur be tarnished. One can hardly blame as the starting of public enterprises short- the opposition, who were sufferers by the ty before an election, in order to afford nefarious practices referred to, for candidates opportunities of expending bringing them to light; if, indeed, it did candidates opportunities of expending vast sums in giving employment and so not amount to a duty. It was, however, influencing large numbers of voters close a sad necessity, but "there's a soul of Two men are at work on Hall creek,

on the polling day. Government does goodness in things evil." on the poling day. Government does not undertake such works in England; and candidates are not supplied with sums of public money to effect improvements among their constituencies and empowered to spend it on votes. All this, however to prove the constituencies and empowered to spend it on votes. All this, however to prove the constituency of t however, is possible here, and it is quite vere. To unseat would have been suffitime an end were put to these corrupting cient punishment, they say, but to dispractices which degrade and demoralize qualify was going too far.
