

LIQUOR IN ALASKA

It is Prohibited, but the Officials Do Not Know Whether the Law Should Be Enforced.

Snow Quickly Disappearing from the Chilkoot and White Pass Trails - Topeka Arrives.

From Thursday's Daily. The steamer City of Topeka, arriving at Nanaimo last evening, brought the information that Governor Brady and Collector Ivy have been making a tour of the Alaskan coast, enquiring into the liquor question, and gathering information to forward to Washington, so that the government may intelligently decide whether it is advised to enforce the liquor prohibition law. The governor and the collector visited Skagway, Dyea and Sheep Camp, but would not say whether they would advise the enforcement of the act. They, however, closed the breweries, and the collector stated that the saloons had closed at Wrangell must remain closed until further orders. Governor Brady will start shortly for Washington.

The White and Chilkoot pass trails are crowded with passengers and congested with freight. The Dyea trail is clear of snow as far as Chilkoot City, a distance of nine miles, and twelve miles of the White Pass trail is bare. Only wheeled vehicles can now be used and dogs are utterly useless. Hundreds will be tried out to die.

Deputy Marshal Quinan and Melness, of Skagway, have resigned, and the Deputy Marshal at Dyea is acting for both places.

On the Topeka were 35 passengers, among whom was S. J. Wall, of Fresno, who went to Skagway accompanied by his wife a few weeks ago. Mrs. Wall caught spinal meningitis, and as a result died on the 15th. Her remains were brought south and will be taken to her home in Fresno.

Mr. Wall, speaking of the spinal meningitis plague, said the reports have all been grossly exaggerated and the death rate for the past few days has been exceedingly low. The epidemic is now in its eighth hundred and twenty-third case, as compared with 601,570 during last season. The shipments made during the season were as follows: By sea to England, 73,000 cases; overland, 43,330; to eastern Canada, 130,815; to Australia, 28,570; and to other destinations, 225. Four thousand eight hundred and twenty-three cases have been stocked amounting in all to 74,000 cases yet on hand.

THE SALMON PACK.

Totals of the Pack Taken in the Different Districts. The statistics of British Columbia salmon for the season just completed by Messrs. R. P. Rihet & Co. give the following totals: Fraser river pack, 800,459 cases; Skeena river, 60,900; Rivers Inlet, 40,207; Naas river, 20,841; Lowe Inlet, 10,993; Namu Harbor, 4,357; Alert Bay, 8,602; West Coast, V.I., 4,434. The total pack for the season was 1,015,477 cases, as compared with 601,570 during last season. The shipments made during the season were as follows: By sea to England, 73,000 cases; overland, 43,330; to eastern Canada, 130,815; to Australia, 28,570; and to other destinations, 225. Four thousand eight hundred and twenty-three cases have been stocked amounting in all to 74,000 cases yet on hand.

DIRECT FROM GLENORA.

Warburton Pike Tells of the Condition of the Ice on the Sitkine.

Warburton Pike, of the Cassiar Central Railway Company, arrived on the steamer Princess Louise yesterday morning from Hazelton, having come down the river to that point from Glenora. Mr. Pike left Glenora nine days ago, and reports that the condition of the river he says is impassable for horses or heavy outfits, nothing being able to go in or out save with light dog teams. For the past few days the weather has been changing, the river is open in several places. Mr. Pike does not think that the Mackenzie & Mann party will get in for some time. They are now in small groups along the river, the greater portion, however, being still at Cottonwood Island. Small parties are scattered all along the trail, making long tows. At Glenora things are quiet, the town being deserted by all save the wintering miners who have not yet reached there having started for Teslin.

DEATH OF TWO PIONEERS.

The ranks of the pioneers of the province yesterday thinned by the taking away of two well-known residents who have been in British Columbia since the early days. Benjamin Bailey, a native of Vermont, died at his home in Hazelton, aged 71 years. Coming to the province in 1858, Mr. Bailey was for many years engaged in the forwarding and express business during the Cariboo. Whether Fraser river gold excitement, having his home at Yale, Mr. Bailey was afterwards a salaried officer in the city, narrowly escaped the fate which overwhelmed so many when the disaster occurred two years ago at Point Ellice bridge. Mr. Bailey leaves a widow and a large family, consisting of eleven sons and daughters, and several grandchildren. The funeral will take place on Saturday, leaving the family residence at 2:30 p.m., and St. Barnabas' church fifteen minutes later.

BRIDGE ACCIDENT JUDGMENTS.

Mayor Redfern Seeks Legislation to Pay Any Given against the City. Mayor Redfern has a motion on the billboards at the city hall. He will recommend at the next meeting of the council. Its object is to secure legislation to provide for the payment of any judgments which may be rendered against the city in the Point Ellice bridge accident suits. The motion reads: "Whereas certain judgments have been rendered against the city in the Point Ellice bridge cases; and whereas pending appeal judgments have to be paid into the supreme court; and whereas in event of the Privy Council deciding adversely to the city the amount of any judgments obtained will be paid at once; It is resolved that the municipal council request the government to enact such an amendment to the municipal classes act as will enable the corporation to borrow the amounts required to be paid into the supreme court pending the decision of the Privy Council and costs, without being required to repay them before the end of the year; also for authority to enable the council, in event of the Privy Council deciding against the city, to pass a by-law to borrow on the credit of the municipality any money that may be required to pay all judgments and costs that may be given against the city in the bridge cases, such by-law to be introduced without notice and without the assent of the ratepayers."

A DAYLIGHT ROBBERY.

Health Thieves Do Not Slink in Darkness - Time That Insidious Disease Will Not Attack the Unwary. "I had been troubled for eight years with gravel and complication of kidney troubles. Remedies and doctors failed to help me until I tried South American Kidney Cure. At once the pain was so severe I could not lie down or remain in any position for any length of time. I procured a bottle and got almost immediate relief. The soreness and weakness all left me, my kidneys were restored to a healthy condition, and I think this remedy that I am a grateful man." Michael McMullen, Chesley, Ont.

OVER HALF A MILLION

That is What the Government Admits the Deficit Will Be at the End of Next Year.

Large Increase in the Amount To Be Voted for Public Works Throughout the Province.

This being an election year, the estimate of annual expenditure for the fiscal year ending June 30th, 1898, submitted to the legislature last evening, are of particular interest. In the first place, the government admits a deficit of \$338,223.90 of 1897-98. This big difference is caused by an increase in almost every item of expenditure, including the debt. On the other hand, there is an increase of \$3,150 for interest on \$90,000 parliament buildings debentures, payable December 30th, 1898, and June 30th, 1899; \$4,000 interest on temporary overdrafts; \$10,000 for redemption of debentures; and an increase of \$2,000 for investment of dividends. There is an increase of \$24,574 for civil government salaries, made up of small amounts for every department. It is the same for every department. It is the same for every department. It is the same for every department.

Among the first good results that are apparent from using Paine's Celery Compound in the early spring season is a perfect regularity of the bowels, good appetite, sound, healthy sleep, and good digestion. It should be remembered that spring weakness, nervousness, despondency, languor and the best people in every part of the world are not getting sufficient nourishment. Paine's Celery Compound will quickly supply a fresh and abundant supply of nutrition for every tissue of the body; the great medicine is prepared for this purpose. Paine's Celery Compound is the only medicine in the world that has earned the complete confidence of medical men and the best people in every part of the world. This world-famous medicine is the only one that can meet the needs of all who are weak and sick, and who have been confined to badly ventilated rooms during the long winter months. It quickly expels every trace of poison and disease, and gives a flow of pure blood and insures perfect and health.

FORTUNATE VICTORIAN.

W. H. Burckholder of This City Sures One of the Walsh Creek Mines.

From a letter received from Mr. W. H. Burckholder of this city, who left on the second trip of the Islander for the Klondike gold fields, it is learned that he has, instead of going on to his destination, located and staked off a claim on Walsh creek, the new find made at the strike of Major Walsh, administrator of the Yukon. Mr. Burckholder reached there on February 16, on which date the thermometer registered 75 degrees below zero. He has made a rich strike, and when the letter was written on the 18th of last month was about to be shipped to the Klondike. Mr. Burckholder is a very wealthy man, having made a fortune in the Klondike. He is now in the Klondike, and is expected to return to the Klondike in a few days.

IS HE PROPHET OR POET?

"I cannot say why, but the idea is somewhat borne in upon my mind that we are on the eve of great discoveries in the healing art. I think we shall soon learn the nature of cancer and consumption, and how to cure them; and perhaps, better still, we may find the prophylactic means of preventing their occurrence. I shall die only of age, and humanity, turned no more by pain—shall pass out of this world as serenely as the summer twilight fades into darkness." The above paragraph is quoted from an interesting paper, read recently at an assembly of the physicians of Montreal. The author is more prophetic than poet time alone can decide. While we all hope time may prove him right, we must still admit that the multiplication of drugs there is no end, and much reading about medicines which can be relied upon to produce direct and specific effect can be reckoned upon and fingers and thumbs. As to the matter of cancer, the favorable evidence increases steadily as it is more widely tested and employed. For example, take an instance like the following in the early part of 1897: "I was the writer, 'I began to feel low, heavy and out of sorts. I had no relish for my food, and after eating I felt a heavy weight and oppression at the top and around the sides. No matter what kind of food I took, I had a constant nagging pain about Mother Seigel's Curative Syrup, and of its having cured cases like mine. I got a bottle from Mr. Bayre, chemist, Park road, and after taking it, it felt very much better. I continued with it, and in three weeks' time I felt like a new being. Soon I was so much better that my friends remarked upon the change. 'I can now eat and digest any kind of food. I have known of the merits of Mother Seigel's Syrup sooner I should have been spared much misery. You are at liberty to publish this statement, and refer anyone to me. (Signed) H. B. Franklin, 144, Park road, Aston, Birmingham, October 5th, 1896.'"

FREE BOOK FOR WEAK MEN.

My little book, "THREE CLASSES OF MEN," free, sealed, upon request. It gives cause and effect of early disease; tells how I treat Weak Men (young or old) without medicines. Over 5,000 cured last year with my wonderful Working Electric Body Belt and Supporting Suspensory. Soothing currents through the weakened parts all night. Cures drains in thirty days. Lane back in one week. Dissolves the clogged blood, develops parts and cures VARICOCELE. Consult me free, or write for book. DR. SANDER, 158 ST. JAMES ST., MONTREAL, QUEBEC.

Almost Prisoners During the Winter Months

Confinement in Badly Ventilated Rooms Has Helped Poison the System and Implant Seeds of Disease.

Thousands Have Lost in Strength and Weight and Are Broken in Health.

Paine's Celery Compound, the Best of All Spring Medicines, Purifies the Blood, Restores Nerve Force and Lost Strength.

Paine's Celery Compound will quickly supply a fresh and abundant supply of nutrition for every tissue of the body; the great medicine is prepared for this purpose. Paine's Celery Compound is the only medicine in the world that has earned the complete confidence of medical men and the best people in every part of the world. This world-famous medicine is the only one that can meet the needs of all who are weak and sick, and who have been confined to badly ventilated rooms during the long winter months. It quickly expels every trace of poison and disease, and gives a flow of pure blood and insures perfect and health.

Information regarding Albert E. Lewis, the Montreal real estate man who so mysteriously disappeared from his home in Montreal on November 20th last, is being sought in Victoria with the hope that some clue may be found which may lead to his discovery. The friends and agents of Mrs. Lewis, who is a very wealthy woman, have searched every city in Canada, and are now here, in consequence of information received from England, which leads to the belief that Lewis has gone, or is about to go to the Klondike gold fields. A reward of \$200 is offered for information regarding his whereabouts. Mr. Lewis, who was one of Montreal's foremost real estate men, is described as follows: age, 35 years; height, 5 feet 11 1/2 inches; 6 feet; weight, about 200 pounds; quite bald, brown hair mixed with gray. Large blue eyes, rather small nose and chin; full face, broad shoulders and of good address and gentlemanly bearing. He was supposed to be slightly deafened. Lewis has travelled considerably in Australia, New Zealand, California and British Columbia, and is experienced in ranching and mining. He had a very little money when he disappeared. The reason of his disappearance, although it has been discussed at length by the eastern press, is a mystery. His business matters were all in order and he was in good financial circumstances.

SPANISH PRESS COMMENT.

Paris, March 28.—The French Press Comment on the Spanish proposal for mediation by the European powers in the Cuban question. Details of the request have been made. The sole danger of war lies in the refusal of Spain to accept the mediation. The Spanish press says: "In spite of the fact that the Spanish government has reached the extreme limit of its patience, it will not admit any compromise on its rights of sovereignty." The Spanish proposal, as still believed in Washington, has not been accepted by the United States. The United States government has not been made known to the United States. The United States government has not been made known to the United States. The United States government has not been made known to the United States.

NOTICE.

Pursuant to the by-laws of the said company, notice is hereby given that the general meeting of the Victoria Lumber and Manufacturing Company, Limited, will be held at the office of the company, No. 4 Broughton street, in the city of Victoria, B. C., on Monday, the fourth day of April, 1898, at 11 o'clock a.m. of that day, for the purpose of choosing directors for the ensuing year, and for the transaction of other business that may be brought before the meeting. The board of directors will meet to elect officers for the ensuing year, and for the transaction of such other business as may be brought before them. March 7th, 1898. W. M. H. PHIPPS, Secretary.

NOTICE.

NOTICE is hereby given that two months after date I intend to make application to the chief commissioner of lands and works for permission to purchase one hundred and sixty acres of land in the Coast District, and described as follows: Commencing at a post on the west shore of Kettle Arm, about one mile north of the land applied for by Messrs. Todd, Donohoe and Stevens; thence west, along the shore of Kettle Arm, to a southerly direction to the point of commencement. JAMES S. MURRAY, Registrar of Joint Stock Companies.

DIPLOMATS BU

Every Effort Being Made to End Conflict Between Spain and United States.

The Former Said To Have More New Reforms to Happy Cuba.

London, March 28.—The representative of the Standard is able to state that the real course of the negotiations between the United States Minister Woodford and the Spanish Minister of Foreign Affairs, Sr. Sagasta, is not as gloomy as it is generally supposed to be. The negotiations are proceeding favorably, and it is believed that a settlement will be reached in the near future.
