Defamatory Libel Case Occupied the Police Court's Attention This Morning.

Several Witnesses Examined--Case Finally Adjourned Untill Monday.

The case of George Sheldon Williams, charged with publishing a defamatory article concerning the Lieut.-Governor in (witness). Witness had made a careful the Kamloops Standard on January 11th search for the required manuscript. last. was resumed in the police court this morning. Several manuscripts were produced, Mr. Sarel having secured these while at Kamloops during the week. it. He may have written it himself. The original "copy," however, of the article complained of was not produced, Lean. Mr. Sarel being unable to find it.

Several witnesses were examined this Dess morning, including Messrs. Sarel, F. Young, and - Case of Kamloops, Q. D. H. Warden and C. A. Gregg, of the Colthe case coming up in another court,

Proceedings were opened with the recalling of Mr. Sarel, who was questioned by Deputy Attorney-General McLean regarding articles written by him in the Standard subsequently to the appearance of the article complained of.

Mr. Walls, for the defence, objected on the ground that subsequent matter written by the witness had no bearing on the case

Mr. McLean maintained that his questions were directly material to the issue, as he was so much in doubt as to what portion of the article was really written by the witness.

An interruption at this point from Mr. Wails caused the deputy attorney-general to ejaculate, "My learned friend wants to talk all the time."

The magistrate remarked that the deputy attorney-general's examination was quite material to the issue, for if he could not prove which portion of the article was written by the defendant he would have no case. In response to a question as to whether

a certain article had been written by the witness, the latter stated that he had bimself been informed that proceedings were to be taken against him in this ease, and he was not inclined to answer lines 1 19stion

- magistrate informed Mr. Sarel the was entitled to enter his object while answering the questions.

'al manuscripts signed "Observer" then put in, the witness stating that he was unable to find the original massascript of the article complained of. "Vr. Sarel," questioned the deputy at-

torney-general, producing one of the 'whose handwriting is manuscripts, Magt ?" "I can't say for a certainty," replied

the witness "Whose handwriting do you think it is?" persisted Mr. McLean.
