

## A Great Lung Medicine.

There is one medicine, which has been prepared for the cure of affections of the lungs, which has been very largely used and tested, which we wish to recommend to the public for the reason that we can do it in all truth and sincerity, believing as we do that it is not, and never has been surpassed for excellence and thorough efficiency.

That medicine is "ALLEN'S LUNG BALSAM." It is beyond all question a never failing and thoroughly complete cure for coughs and affections of the lungs, even when the latter are of a very serious and threatening character. One excellent physician goes so far as to state publicly over his own signature, that he has a perfect conviction that deep-seated pulmonary Consumption has been cured by the use of ALLEN'S LUNG BALSAM; and there are an abundance of the most respectable testimonials, that it has in innumerable instances effectually cured very severe coughs of long standing, accompanied with cold chills, night-sweats and diarrhoea—the system of the sufferer being, in some cases, very much prostrated.

We do not hesitate to say, from our knowledge of the virtue of this BALSAM, and from the entire confidence we have in the character of its proprietors, and the statement of certain citizens who have repeatedly used the medicine, that it is really one of the best things ever yet discovered for the cure of the particular maladies for which it is designed. We will only add, let every one who has an affection of the lungs, get a bottle of "ALLEN'S LUNG BALSAM," and give it a fair trial.—*Providence Advertiser.*

It is only about seven years since the BALSAM was first offered to the public; and in this short time it has become known and appreciated in nearly every town and village throughout the United States and the Dominion of Canada. Hundreds of thousands of bottles are annually sold, and thousands of witnesses can testify to its unequalled power in healing the diseases that it is recommended for.
